Summary Information

Repository	Oregon Health & Science University Historical Collections & Archives
Title	University of Oregon Medical School Senior Papers: Surgery Clerkships
Date [bulk]	Bulk, 1941-1943
Date [inclusive]	1940-1945
Extent	1.0 Linear feet 2 archives boxes
Location	Archives, Room 440, Old Library, Marquam Hill Campus
Language	English
Abstract	Clerkships were required of University of Oregon Medical School general surgery students during their third and fourth years of school. The materials consist of senior papers written by UOMS students on a variety of topics pertaining to medical illnesses, diagnoses, and treatments during their final year of surgical clerkships.

Preferred Citation

University of Oregon Medical School Senior Papers: Surgery Clerkships, Accession no. 2008-006, Historical Collections & Archives, Oregon Health & Science University.

See conditions governing reproduction and use.

Administrative History

During the years 1942-43 when the bulk of the papers were written, the medical school faculty were mobilized for war service. UOMS accelerated and reorganized their instructional programs in order to train more doctors and nurses for the armed forces in as short a time as possible. The strenuous tempo of the war program abolished all vacations. By October 1942, 114 medical faculty were enlisted in the Medical Corp of either the Army or Navy.

It is noted in the University of Oregon Medical School catalog of 1942-1943, that surgical clerkships began in the third year of study. For general surgery, the UOMS students completed 66 hours in his/her third year at Multnomah County Hospital under the instruction of Drs. John A. Gius, Associate Professor, and Matthew McKirdie, Clinical Associate. Students also completed 33 hours in gynecology under Clinical Instructor, Dr. Clifford Fearl, Resident, Ronald P. Neilson, and Resident, James E. Witely; as well as 22 hours in pediatrics under Associate Clinical Professor, Dr. Paul V. Woolley. During the fourth year, students attended clerkships of 11 hours in anesthesiology with Assistant Professor and Chief of Anesthesia Service, Dr. John H. Hutton and Resident, Dr. Marjorie Noble and 11 hours in obstetrics with Dr. Clifford Fearl.

Scope and Contents

The materials consist of senior papers written by University of Oregon Medical School students for courses in surgery on a variety of topics related to medical illnesses, diagnoses, and treatments.

Arrangement

The materials are kept in their original binding or folders, arranged chronologically by year and then alphabetically by author’s last name. Second authors are also listed. Comprising the majority of the collection, papers written in 1943 were taken out of order and placed into box 2.

Administrative Information

Publication Information

Oregon Health & Science University Historical Collections & Archives 2008

Conditions Governing Access

There are no restrictions on access. The collection is open to the public.

Conditions Governing Reproduction and Use

The OHSU Historical Collections & Archives is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the OHSU HC&A before any reproduction use. The OHSU HC&A does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

Acquisition Information

No provenance for the papers is known. It is most likely they were submitted to the University of Oregon Medical School Library. The materials were found in the Historical Collections & Archives storage amongst other unaccessioned collections.

Related Materials

Separated Materials

Seven papers written for Nursing Clerkships were included amongst the papers. They were separated into their own collection, the UOMS Department of Nursing: Nursing Care Studies Clerkships 1944-1945, Accession no. 2008-005.
