Molecular and Medical Genetics Grand Rounds
2004-2005 Grand Rounds Schedule
Thursdays, 9:00 to 10:00 A.M., Mac Hall 3198

September 30	Yassmine Akkari, Ph.D., Postdoctoral Fellow "Fragile X-Associated Tremor and Ataxia Syndrome: A New Twist to an Old Tale"
October 7	Cary Harding, M.D., Assistant Professor "Metabolic Myopathies"
October 14	Ellen Magenis, M.D., Professor "Amniotic Band Sequence"
October 21	Monique Johnson Ph.D., Postdoctoral Fellow "PKAN – A Hard Nut to Crack"
November 4	Pat Himes, M.S. Genetic Counselor "Usher Syndrome"
November 11	Jacob Reiss, M.D., Adjunct Associate Professor "Familial Partial Lipodystrophy"
November 18	Robert Steiner, M.D., Associate Professor "Pompe Disease"
December 2	Hazim Najjar, M.D., Postdoctoral Fellow "Coagulation Genetics"
December 9	Kory Keller, M.S., Genetic Counselor "Nipping de Lange Syndrome – Finally"
December 16	George Anadiotis, D.O., Medical Geneticist "Retinitis Pigmentosa"
January 13	Richard Weleber, M.D., Professor "Bardet-Biedl Syndrome"
January 20	Jessica Kushner, M.S., C.G.C. "Genetic counseling perspectives on a polygenic, emerging genetic disease: dilated cardiomyopathy"
January 27	Yassmine Akkari, Ph.D., Postdoctoral Fellow "The Clinical and Genetics Aspects of Facioscapulohumeral Muscular Dystrophy"

February 3	Karen Kovak, M.S., Genetic Counselor "Review of Recent Genetics Counseling Literature – Anything New?"
February 10	Dave Koeller, M.D., Associate Professor "Teenage Dementia"
February 17	Sue Richards, Ph.D., Professor "Noonan Syndrome"
February 24	Jon Zonana, M.D., Professor "The ectodermal dysplasias – can we go from a clinical to molecular classification"
March 3	Monique Johnson Ph.D., Postdoctoral Fellow "Fanconi Anemia: An autosomal recessive disorder with chromosomal instability disorder (except when it's not…)"
March 10	Michael Gibson, Ph.D., Professor "Mutations in Neurotransmitter Receptors and their Signaling Pathways"
March 31	Dana Kostiner, M.D., Adjunct Assistant Professor and Kate Crow, M.S., Genetics Counselor "Kabuki Syndrome: An Overview & Update"
April 7	Kerry Silvey, M.S. Genetic Counselor "Genetics Education Materials – What do Parents Want?"
April 14	Hazim Najjar, M.D., Postdoctoral Fellow "Benign Hypermobility Syndrome" Benign?
April 21	Markus Grompe, M.D., Professor "Update on Gene Therapy"
April 28	William Horton, M.D., Professor "Advances in Understandign the Pathogenesis of the Human Chondrodysplasias"
May 5	Susan Hayflick, M.D., Professor "Genetic Factors in Parkinson Disease"
May 12	Leesa Link, M.D. Adjunct Assistant Professor "Sotos Syndrome"
May 19	Robb Moses, M.D., Professor

	"Treacher Collins Syndrome"
May 26	Yassmine Akkari, Ph.D., Postdoctoral Fellow "Cytogenetics beyond the Molecular Era"
June 2	Jone Sampson, M.D., Assistant Professor "Turners Syndrome and Why We Don't Need The Y"
June 9	Cori Feist, M.S., C.G.C., Genetic Counselor "MYH9-related inherited macrothrombocytopenias"
