Injury Prevention Program

Safety Resource Centers

The OHSU Doernbecher Injury Prevention Program is a nationally recognized comprehensive program dedicated to keeping kids safe. We offer:

- Free educational materials and sales of low-cost safety supplies
- Virtual and in-person services supporting safe sleep, safe homes, safe travel and safe play
- Safety education and classes for caregivers, providers, schools and partner agencies
- Support for qualifying low income families to access reduced cost resources
- Community outreach increasing local access to safety-related education, resources, services and support

To connect with a Health Educator for questions or purchases, call **503-418-5666** or email **safety@ohsu.edu**.

Additional educational resources and program information can be found at **www.doernbecher.com/childsafety**.

Information current as of May 2023. Products and prices subject to change without notice. Availability not guaranteed. Read and follow all manufacturers instructions and warnings before using any product. Register at CPSC.gov for the latest information on product recalls.

Locking storage

Firearms

People who die from accidental shooting were more than three times as likely to live in a home with a firearm.¹ If you, or someone in your household, owns a firearm, let us help make sure it is locked up safely.

				
Combination safe 7"W x 7.5"H x 3"D 16 gauge steel housing is durable and pry resistant. Includes 4 foot steel security cable. \$25	Quick access safe 10"W x 5"H x 12"D Programmable touch pad with backup keys. Quick access spring-loaded door \$95	Biometric safe 14"W x 10"H x 10"D Solid steel. Stores up to 100 fingerprints. Tamper indicator and Interior light \$85	Combination trigger lock For transportation, adding an additional level of safety, and/or larger firearms unable to be kept in a safe \$10	Cable lock For use as a temporary or backup safety measure; does not replace a firearm safe. Up to 5 per household Free

Medication

Medications are the leading cause of child poisoning today.² Keeping all medicine up and away, out of reach and sight of children, and inaccessible to adolescents, can help prevent both accidental and intentional ingestion of potentially dangerous substances.

	
Helix lockbox 11.25"W x 4.75"H x 4.25"D Heavy-duty steel construction, comes with 2 keys and can easily be mounted to many locations with the pre-drilled holes (mounting hardware included); not intended to act as an absolute fail safe to entry \$25	RemedyGuard Locking Bag 11"W x 7.5"H x 2.5"D Perfect for keeping medicines safe at home or on the go. Easy to set combination lock, odor reducing carbon lining \$10

Window safety

Window stop

Hardware mounted device that limits windows from opening more than four inches. ASTM certified. Automatically re-engages. Works with vertical or horizontal windows

\$7

2 PIECE

Breezz-guard window restrictor

Hardware mounted device that restricts windows or doors from opening more than four inch. ASTM certified. Works with vertical, horizontal, or casement windows

\$5

Window wedges

Adhesive, velcro mounted wedges prevent window from opening more than four inch. Does NOT meet ASTM standards. Recommend installing/operating when child not present as it is possible for children to remove wedge if accessible

\$6

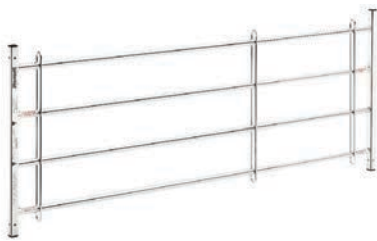

2 PIECE

Mesh window guard

Hardware mounted device that installs on window frame. Fits windows 26-40" wide. Works on single or double hung casement and sliding windows. Quick release hardware for easy removal. Meets all ASTM standards

\$35

Guardian angel window guards

Designed to withstand 150 pounds of pressure. Hardware mounts to window frame. Emergency release buttons for quick removal (key release guards also available). Fits most styles of windows including single/double hung, sliders, and casement windows. Adjustable width/height from 14-120 inches+. Complies with ASTM standard. Lifetime warranty

NOT IN STOCK - SPECIAL ORDER

Blind cord wraps

Wrap cord in figure-eights around mounted clip

\$2

4 PIECE

Blind cord wind-ups

Keep long cords safely out of reach from small hands and paws. Thread cord and wind, then clip plastic holders.

\$3

2 PIECE

For additional window safety information visit www.doernbecher.com/childsafety or www.stopat4.com.

Follow all manufacturers instructions and warnings before use.

For products and questions, contact the OHSU Doernbecher Injury Prevention Program at 503-418-5666 or safety@ohsu.edu.

ALL STYLES

All about helmets

Bike helmets

Toddler (light blue only); small-XL available in red, blue, or silver. Meets CPSC standards

Toddler: 18.11–19.68 inches (46–50 cm)
fits approximately* ages 1–2

Small: 19.68–22.04 inches (50–56 cm)
fits approximately* ages 3–6

Medium: 21.25–22.83 inches (54–58 cm)
fits approximately* ages 6–12

Large: 22.83–24.4 inches (58–62 cm)
fits approximately* ages 10–12+

X-Large: 23.22–25.19 inches (59–64 cm)
fits approximately* ages 15+

\$14

Multi-sport helmets

Available in white, black, and gray. Runs small overall, may not fit bigger teens/adults. Additional padding may be needed for proper fit on less-round head shapes. Meets ASTM F1492

Small: 20.86–22.04 inches (53–56 cm)
fits approximately* ages 4–8

Medium: 22.04–22.83 inches (56–58 cm)
fits approximately* ages 7–10

Large: 22.83–23.62 inches (58–60 cm)
fits approximately* ages 10–14

\$17

***For the best fit, please choose size based on head measurement. Some children need an extra-large helmet, and some adults need a small. Age ranges provided are general, and may not be accurate for you or your child.**

Helpful hints for finding the right size

- Measure the circumference from just above the eyebrow in a level “halo” around the widest part of the head. If you don’t have a soft measuring tape, use a piece of string to go around the head and then measure that against a ruler.
- There is overlap between sizes on bike helmets. If your child’s head measures 21.5 inches, they will likely still fit in a small, but a medium would also fit and offers more grow room.
- For those with long or thick hair, consider how you will wear it when riding, you may need to measure once with hair down and again with hair in a low ponytail or braid and then choose the larger of the two measurements.
- Measure somewhat loosely over cochlear implants or other hardware that will be worn when riding. You may need to size up and/or add additional padding.
- We happily provide free fittings at Doernbecher Children’s Hospital during Safety Center hours.

Outdoor fun

Roshambo sunglasses

Baby (0–2 years) \$15

Toddler (2–4 years) \$15

Big kid (5+ years) \$18

Adult (S/M) (L/XL) \$20
