

MICHAEL HALL, M.D., CRITICAL CARE MEDICINE

M.D.: University of Washington School of Medicine, Seattle, Wash.

Internship: Legacy Transitional Year, Portland, Ore.

Hobbies/Interests: Jogging, cycling, international medicine

OHSU offers a unique 48-month program combining anesthesiology and critical care medicine. I was drawn to OHSU's commitment and dedication to critical care medicine. I would recommend the 48 month program to those interested in research and/ or critical care.
