Location: School of Nursing, OHSU
3455 SW Veterans Hospital Rd
Portland, OR 97239

Room: School of Nursing,
Room 144

Cost: Free

The Need for Holistic Care for Caregivers

Millions of people in the U.S. provide care for a loved one. The Family Caregiver Alliance describes caregivers as "family, friends and neighbors who stand by those they love as they face chronic illness, disability or death." Providing care for a loved one comes from a giving and altruistic place but can be stressful, exhausting and have an impact on the physical and mental health of the caregiver.

Panel Discussion

Listen to a panel of health care experts from the allopathic field, Mind/Body Medicine, naturopathy, chiropractic and Traditional Chinese Medicine discuss their approach to providing support and treatment options for caregivers.

Complimentary healthy snacks are provided

There is no need to RSVP and these lectures are open to the public
