The new Epson UltraChrome K3™ Ink Technology is a unique 8-color process. It features all new high-density pigments for an extremely wide color gamut and extended years of lightfastness, even under standard display conditions. Custom prints are available on Epson Premium Luster or Premium Glossy Photo paper.

Our Heidelberg Quickstep scanner, with its triple lens technology, scans transparency & reflective copy up to full sheet x-rays with optical resolution of up to 9600 ppi.

Your digital files will only be stored on our computers for 10 working days after the job's due date. If you anticipate later use (reprints, etc.) of the scans, page layouts, or other digital files created in order to produce your job, ask to have those files burned to a CD, saved to your zip disk, or transferred to your computer via e-mail or OHSU's Share 1/i:drive.

Send us your PDF file, or call us and we'll email you a Powerpoint template to help you get started. More poster guidelines available at our website: www.ohsu.edu/edcomm/photography/, or call 4-7197 before you begin.

PHOTOMICROSCOPY

Photography time (by appointment) 130.00/hr.
 35mm color slide or digital file, per image 12.00
 Additional slide (from same view) 6.00

We suggest allowing an hour for your Studio Portrait, as needed for the photo session, proof selection, and your input into finishing your photo to best express your professional image.

Avoid wearing silk shirts or other clothing with grid patterns that will interfere with the digital camera's imaging sensor.

GRAPHIC DESIGN & PRINTING

Whether you have just an idea or a ready-to-print file, we offer a full range of services including illustration and graphic design, poster layout and brochure design, and state-of-the-art scanning and digital enhancement. We also provide quality color printing, laminating, mounting and other finishing services. Your graphic files can be saved and transferred for web, publication, or digital presentation.
