

Large-Format Poster Printing

- We offer high resolution printing up to 44 inches wide by approximately 8 feet.
- We support PowerPoint® files and any file that can be opened in Photoshop®, such as EPS, Postscript (PS) or PDF files. Publisher® files must be converted to PDF.
- Ask for an OHSU PowerPoint® template to be e-mailed to you if you want to create your own research poster. Be sure to tell us the size of your poster.
- In order to achieve photo-quality printing, please provide us with images that are at least 200 ppi.
- Our turn-around time is 48 hours to print the poster. Add an additional three days if we are designing the poster.
- Cost for printing is \$9.00 per square foot. Design time is extra at \$130 per hour.
- Please limit your font choices to:
 - Times New Roman
 - Arial
 - MS San Serif
 - Symbol
- Laminating and foamcore mounting is also available:

Laminating:	\$2.50/sq. ft.
Foamcore mounting	\$6.50/sq. ft.
Lam. & mounting	\$9.00/sq. ft.
- The Epson printer is ideal for informational posters, too. We can print and mount posters to foamcore for easels or table displays.
- Print and paper samples can be seen in Medical Photography.
- Call and consult with a graphic designer if you are creating a poster for the first time. We can give you suggestions and answer questions you may have.
