Finding aid prepared by Karen L. Anderson Peterson, Archivist

TITLE: A. J. McLEAN PAPERS

COLLECTION NUMBER: 2001-014

OVERVIEW OF THE COLLECTION

Dates: 1921-1939 (inclusive) 1929-1938 (bulk)

Extent: 7 boxes - 3.5 linear feet

Language and Scripts: The collection is in English, German and French

Name of creators: Arthur John McLean

Administrative/Biographical History:

Arthur John McLean - a student of Harvey Cushing, the father of American neurosurgery and Otfried Foerster, the celebrated German neurosurgeon - was Portland's first trained neurosurgeon. His life was cut short by a tragic accident and so it is uncertain what his future might have held. What emerges from the record is his recognized brilliance contrasted against the intense drama of his life.

When Dr. McLean died on December 7, 1938, he was just 44 years old and had not yet reached the apex of his career. When his body was found, the wheels of his car hung over the edge of the canyon where it had crashed through a guardrail on N.W. Cornell Road. The car was still running; his body was some 10 feet from the car, and a handkerchief was tied around a deep wound on his head.

Some alleged that McLean had committed suicide while others asserted that McLean would not have taken his life. One Portland physician is quoted as saying, "McLean simply wasn't the kind to kill himself. He was the sort who would want to stick around, just to prove that all he had said was right" (*Oregonian* 2/5/1939). McLean had made enemies and had denounced his opponents fervently. He demanded perfection of himself and of others. Another physician remembers, "...a charge of laxity was perhaps the bitterest

accusation that he hurled at his fellow physicians” (*Oregonian* 2/5/ 1939). Some said he had grown bitter and had developed deep prejudices.

McLean was born in Seattle on October 29, 1894. A two-year stint in the military interrupted his education at Reed College, from which he graduated in 1921. The *Griffin*, Reed’s yearbook, described McLean as, “The busiest man on campus... carrying six subjects was his business...” He was ever the personification of that term “intellectual enthusiasm.” He went on to receive his M.D. from Johns Hopkins Medical School in 1925. He studied neurosurgery with Harvey Cushing, as a neurosurgical resident at Peter Bent Brigham Hospital (1925-1929). He was Surgical House Officer (1925-1926), the Arthur Tracy Cabot Fellow, in charge of laboratory research at Harvard Medical School (1926-1927), Associate in Surgery, Peter Bent Brigham Hospital (1928-1929), and Acting Resident in Surgery at Peter Bent Brigham Hospital (June –September 1929). He then moved to Breslau, Germany with his wife, Gladys Merle Bragg, where he studied from 1929-1930, as a George Gorham Peters Traveling Fellow, with Dr. Otfried Foerster. He returned once again to Boston in 1930-1931, to serve as a Resident in Surgery before moving to Portland.

In 1931, McLean entered private practice in Portland, opening an office in the Medical Arts Building. He joined the faculty of the University of Oregon Medical School as clinical instructor in Surgery and Neuropsychiatry (1931-1934), assistant professor of pathology (1936-1938) and clinical associate in Surgery and Neuropsychiatry (1934-1937). In 1937, he resigned his position but at the behest of his colleagues he returned, continuing as assistant professor of pathology until 1938, when he once again resigned. He went on to teach, independently, a course for clinicians in Neurological Diagnosis and Neurological Surgery at Good Samaritan Hospital.

From the collection, we know that he gave the impression of being brash, disrespectful and hot-headed. But the record also portrays a man of reason, who could not stand dishonesty and hated stupidity. His fellow faculty members pronounced him a “brilliant” physician, his teaching work “beautifully” organized, and that he was a “magnetic” person in the eyes of the medical students.

McLean was invited to be one of the charter members of the Harvey Cushing Society. In the Founding book, there is a letter to McLean from William P. Van Wagenen, October 24, 1931, inviting McLean to join as a founder. McLean accepted and Van Wagenen acknowledged his acceptance. Oddly, there is no record to explain why he was never listed as a member. In addition, in the volume, *A History of Neurosurgery*, there is no reference to McLean. Further, it seems that he did not belong to the Society of Neurological Surgeons because he is not listed among their historical figures.

He was accused by some of his detractors of writing nothing new, yet others claimed that his findings were not mere mimicry but based on indisputable and dedicated research. Dr. Cushing appeared to be always supportive of his work: In 1936 Cushing writes to “Mac” and pronounces McLean’s paper on cerebral neuroepithelioma “...a perfectly bang-up piece of work. We are delighted with it... it is certainly the best worked-up case in the

literature.” Cushing encouraged him not to apologize for his youth. Foerster was equally confident and affectionate. He invited him to contribute to his *Handbuch der Neurologie* in 1936. McLean authored two chapters titled “Intracranial Tumors” and “Pituitary Tumors.” The prevalence of requests for reprints of his papers came from around the world. McLean’s operative record speaks well of his competence as a neurosurgeon. His mortality rate in 55 operations over 6 years was 21.8% and compared well with other leaders in his field. Cushing’s mortality rate in 11 years was 30.9% though in the final years dropped to 8.7%.

In tribute to McLean it was said that “No one, anywhere, ever exemplified a finer loyalty, a more loving nature, the kindness of his contacts with his students and those who wanted to learn from him was at times emotional in its quality. No one will know, except those who were truly his apostles, how much of himself he gave to teaching. In it he was consumed not by an ideal of self-aggrandizement but by an unquenchable thirst for the truth behind all the didacticism... Could McLean have achieved a serenity of spirit to match the true greatness of so much of his character, his intellectual and spiritual stature might have been limitless. But he had very strong prejudices and feelings and had developed a deep prejudice... Dr. Arthur McLean leaves accomplishments which will dwarf the best of his detractors. In the proper setting, with more wisdom and understanding on the part of his associates, he could, had he conquered his small bitternesses, have become a world figure¹.”

According to his attorney, his affairs were in order down to the smallest detail. His undated will drew national attention: “...To 95 percent of Portland’s medical practitioners and their ethics, and the whole local organized medical profession, a lusty, rousing belch. To Portland’s thieving patients, the haphazard care they will receive for their chiseling tawdriness. I desire that there be no funeral service of any sort; that the eleventh stanza of Swinburn’s ‘Garden of Proserpine’ and the entire ‘Thanatopsis’ of Bryant be read aloud over my body by a lay person; that my cremated body’s ashes be strewn by a paid employee on the waters of the straits of San Juan de Fuca.”

His wife, Gladys Merle Bragg McLean, his parents Mr. And Mrs. Calvin McLean of Seattle and two brothers Edward K. of Seattle and Chester A. of Alaska survived him.

¹ Western Journal of Surgery, Obstetrics and Gynecology, edited by Dr. Goodrich C. Schauffler. Vol. 46 1938

Residencies

Peter Bent Brigham Hospital – Surgical House Officer, 1925-26, Boston

Harvard Medical School, 1926–27 (Arthur Tracy Cabot Fellow in charge of Laboratory of Surgical Research)

Associate in Surgery, Peter Bent Brigham Hospital, 1927

Neurosurgical Resident to Harvey Cushing, 1927-28

Assistant Resident in Surgery, Peter Bent Brigham Hospital, 1928-29

Acting Resident in Surgery, Peter Bent Brigham Hospital, June-September 1929

George Gorham Peters Traveling Fellow with Dr. Otfried Foerster in Breslau, Germany, 1929-30

Resident in Surgery, Peter Bent Brigham Hospital, 1930-31

Medical Practice

Entered private practice, Portland, Oregon, 1931

Clinical Instructor in Surgery and Neuropsychiatry, University of Oregon Medical School, 1931-34

Clinical Associate in Surgery and Neuropsychiatry, University of Oregon Medical School, 1934-37; resigned in 1937

Assistant Professor in Pathology, University of Oregon Medical School, 1936-38; resigned in 1938

Special graduate course for clinicians in Neurological Diagnosis and Neurological Surgery, privately presented at Good Samaritan Hospital, 1937 and 1938.

Publications

See Detailed Description of the Collection

Scope and Content Description: The collection consists of original manuscripts and research data with corresponding photographs and illustrations used for publication, correspondence and reprints. For more detail see inventory of materials.

Arrangement: The materials were originally arranged in envelopes by manuscript title. The materials are in the order in which they were received. See Processing Note.

ADMINISTRATIVE INFORMATION:**Acquisition Information**

Unknown

Processing Note

Manuscripts with corresponding photographs, figures with captions, original research, correspondence and published reprints were originally filed in envelopes. Titles from the envelopes were preserved and can be read in the inventory. All materials were removed from the envelopes and put into acid free folders, photographs and drawings were sleeved and documents were interleaved with acid free paper.

Separated Materials

None

CONDITIONS GOVERNING ACCESS AND USE**Restrictions on Access**

The collection is open to the public.

Technical Access

No special equipment is needed to access the materials

Conditions Governing Reproduction and Use

The OHSU Historical Collections & Archives is the owner of the materials and makes available reproductions for research, publication, and other uses. Written permission must be obtained from the OHSU HC&A before any reproduction use. The OHSU HC&A does not necessarily hold copyright to all of the materials in the collections. In some cases, permission for use may require seeking additional authorization from the copyright owners.

SUBJECTS

This collection is indexed under the following headings in the online catalog. Researchers desiring materials about related topics, persons, or places should search the catalog using these headings.

McLean, Arthur John, 1894-1938.

Watkins, Raymond E.

Physicians -- Oregon.

Neoplasms.

Brain -- surgery.

Brain Diseases.

Eye -- innervation.

Pituitary Hormones.

Electrosurgery.

Facial Pain -- therapy.

Optic Nerve Diseases.

Perimetry.

Syphilis.

Detailed Description of the Collection

Box 1

B1/f1

Original envelope: "Megalops, Data, MSS, Reprint Pub. Puget Sound Biological Station, 93-103, 1921"

- 1) Publication - *Puget Sound Biological* Vol. 3 Nos. 59-63, October 1, 1921
- 2) Reprint - *Puget Sound Biological* Vol. 3 Nos. 59-63, October 1, 1921, "Effects of Thyroid and Iodine Feeding upon Metamorphosis of Two Unidentified Species of Megalops"
- 3) Manuscript - "Effects of Thyroid and Iodine Feeding upon Metamorphosis of Two Unidentified Species of Megalops"
- 4) Graphs – originals - hand drawn
- 5) Records – originals - handwritten in pencil [fading, some damage]

B1/f2

Original envelope: "Carbon Tetrachloride: MSS, Schedules, reprints, J. Phar. & Exp Therap. 21, 237, 1923; J. Phar. & Exp Therap. 22, 215, 1923; Bull J. H. H. 36, 107, 1925; Separate: typed MSS for V.22 PDL Corresp."

- Reprint - *The Journal of Pharmacology and Experimental Therapeutics* Vol. XXI, No. 4, May, 1923 of "The Toxicity of Carbon Tetrachloride: In Relation to Liver Function as Tested by Phenoltetrachlorophthalein" by Paul D. Lamson and A. J. McLean
- Reprint - *The Journal of Pharmacology and Experimental Therapeutics* Vol. XXI, No. 4, May, 1923, "The Toxicity of Carbon Tetrachloride: In Relation to Liver Function as Tested by Phenoltetrachlorophthalein" by Paul D. Lamson and A. J. McLean
- Reprint - *The Journal of Pharmacology and Experimental Therapeutics* Vol. XXI, No. 4, May, 1923, "The Toxicity of Carbon Tetrachloride: In Relation to Liver Function as Tested by Phenoltetrachlorophthalein" by Paul D. Lamson and A. J. McLean
- Manuscript- rough draft - "The Toxicity of Carbon Tetrachloride: In Relation to Liver Function as Tested by Phenoltetrachlorophthalein" by Paul D. Lamson and A. J. McLean
- Record – table of experimental data - handwritten
- Record – outline of experimental data, time schedule and apportionment - 4/18/1923
- Reprint - *Bulletin of the Johns Hopkins Hospital* Vol. XXXVI, No.2 February, 1925 of "Studies on the Pathological Histology of Experimental Carbon Tetrachloride Poisoning" by George H. Gardner, etc. (McLean not included); contains handwritten note inside cover
- Reprint - *The Journal of Pharmacology and Experimental Therapeutics* Vol. XXII, No. 4, November, 1923 of "The Pharmacology and Toxicology of Carbon Tetrachloride" by Lamson, Gardner, Gustafson, Maire, McLean and Wells

B1/f3

Original envelope: “Kinesthetic Sense Paper #1 MSS and Reprint; Arch. Neurol. & Psychiat. 17, 285, 1927: (as addition to envelope – no reprints); Proc. Soc. Exp. Biol. & Med. 22, 685, 1926; Separate: Notebook 1 and 2 [notebooks missing]

- Manuscript - many corrections, notes, charts - “Innervation of the Orbit” 6/5-10/1925
- Reprint – *The Proceedings of the Society for Experimental Biology and Medicine*, 1926, xxiii, pp.658 – “An Attempt to Locate Cells of Kinaesthetic Sensibility in Extraocular Eye Muscles” by A. J. McLean
- Reprint – *The Proceedings of the Society for Experimental Biology and Medicine*, 1926, xxiii, pp.658 – “An Attempt to Locate Cells of Kinaesthetic Sensibility in Extraocular Eye Muscles” by A. J. McLean
- Reprint – *The Proceedings of the Society for Experimental Biology and Medicine*, 1926, xxiii, pp.658 – “An Attempt to Locate Cells of Kinaesthetic Sensibility in Extraocular Eye Muscles” by A. J. McLean
- Manuscript with bibliography - “Studies on Innervation of the Orbit”
- Copy - “An Attempt to Identify the Central Cells Mediating Kinesthetic Sense in the Extrinsic Eye Muscles” by A. J. McLean with correction notice, from *Arch. N. & P.*, 17, 285-302, 1927 (3)
- Record data – five duplicates
- Correspondence, manuscript, drafts –regards published article – “An Attempt to Identify the Central Cells Mediating Kinesthetic Sense in the Extrinsic Eye Muscles” - 1926–1927
- Correspondence - request for reprints – “An Attempt to Identify the Central Cells Mediating Kinesthetic Sense in the Extrinsic Eye Muscles” - 1934–1935
- Manuscript with bibliography - “An Attempt to Identify the Central Cells Mediating Kinesthetic Sense in the Extrinsic Eye Muscles” 8/31/1926

B1/f4

Original envelope: “Trans Buccal Operation, MSS, drawings, sketches, corresp, reprint Ann. Surg. 88, 985-993 1928; Separate: notebooks” [notebooks missing]

- Drawing with caption – figure 2 - by A. J. McLean - 1927
- Document - “Transbuccal Approach to the Encephalon” - one paragraph - 1928
- Drawing with caption – figure 1 - by A. J. McLean - 1927
- Drawing with caption – figure 3 - by A. J. McLean - 1927
- Manuscript - (correspondence and illustrations) -“A Survival Operation for Experimental Transbuccal Approach to the Carnivorous Pituitary, Pons and Ventral Medulla” by A. J. McLean
- Drawing with caption – figure 4 - by A. J. McLean - 1927
- Drawing with caption – figure 5 - by A. J. McLean - 1927
- Drawing with caption – figure 6 - by A. J. McLean - 1927

- Drawing with caption – by A. J. McLean – 1927 - unidentified
- Reprint – *Annals of Surgery*, December 1928, “Transbuccal Approach to the Encephalon in Experimental Operations Upon Carnivoral Pituitary, Pons and Ventral Medulla” by A. J. McLean
- Reprint – *Annals of Surgery*, December 1928, “Transbuccal Approach to the Encephalon in Experimental Operations Upon Carnivoral Pituitary, Pons and Ventral Medulla” by A. J. McLean

B1/f5

Original envelope: “Melanophores – MSS, notes, correspondence, drawings, reprint, J. Phar. & Therap., 33, 301-319, 1928 #3 July; Separate: notebook” [notebooks missing]

- Document – list of names
- Manuscript - rough draft and correspondence, handwritten notes, document (list of metric abbreviations), handwritten record data, photographs (4), duplications of drawing, graph, “The Anuran in Bio-Titration of Pituitrin” by A. J. McLean;
- Photograph - mounted with caption - figure 1
- Photograph - mounted with caption - figure 2
- Photograph - mounted with caption - figure 3
- Graph – mounted with caption - figure 4
- Graph - mounted with caption - figure 5
- Drawing with caption - figure 6 - A. J. McLean
- Note – “ The Anuran in Bio-Titration of Pituitrin” by A. J. McLean; from *Journal of Pharmacology And Experimental Therapeutics*, V. 33 (3): 301-319. figure 6 - 1928
- Reprint – *The Journal of Pharmacology and Experimental Therapeutics*, Vol. XXXIII, No.3, July 1928, of “The Anuran in Bio-Titration of Pituitrin” by A. J. McLean
- Reprint – *The Journal of Pharmacology and Experimental Therapeutics*, Vol. XXXIII, No.3, July 1928, “The Anuran in Bio-Titration of Pituitrin” by A. J. McLean

B1/f6

Original envelope: “Pituitrin Absorption – MSS, collations, drawings, reprints; *Endocrinology*, 12(4), 467-90, 1928; Separate: notebook #3, kymograph tracings, MSS drawings” [not found in envelope]

- Manuscript – 4th draft -“Concerning the Route of Absorption of the Active Principles of the Posterior Hypophysial Lobe” by A. J. McLean; 5/23/1928; and experiment notes on graph paper, correspondences, handwritten note, handwritten record data, typed note on figure 6
- Record - handwritten – Pituitary Titrations, 2/6/1928
- Correspondence from P.C. Mason – 9/27/1928
- Drawing - with caption - figure 2

- Photograph - mounted with caption - figure 5
- Drawing - mounted with caption - figure 1
- Document – list of names
- Photographs – (6) unlabeled
- Reprint – *Endocrinology* Vol. XII, No.4, July-August, 1928, pp. 467-490 - “The Route of Absorption of the Active Principles of the Posterior Hypophyseal Lobe” by A. J. McLean

B1/f7

Original envelope: “Electro Surgery (Bovie Unit); Arch. Surg. 18, 1863-73, 1929; MSS, notes, corresp. illust, and reprint; Separate: clin & histol bks” [not found in envelope]

- Manuscript with bibliography - “Some Principles Underlying and Effects Produced by the Bovie Electro-Surgical Current Generator” by A. J. McLean
- Correspondence –May 25, 1932 from Grant E. Ward
- Photograph - mounted with caption – figure 5
- Photograph - mounted with caption – figure 2
- Photograph - mounted with caption - figure 4
- Photograph - mounted with caption – figure 4
- Note - handwritten –12/7/1930
- Photographs – duplications – authors proof - 2/9/1929
- Drawing - mounted with caption – figure 1
- Drawing - mounted with caption – figure 2
- Photograph of drawing - mounted with caption - Figure 1
- Manuscript - rough draft - “Electro-Surgery, A New Type of Apparatus: Its Physics and Results” by A. J. McLean contains handwritten notes, photograph of drawing by A. J. McLean; plus incomplete copy of manuscript - 1/12/1929
- Correspondence –regarding: Elector-Surgery; a schematic diagram, handwritten notes - from 10/1928 – 5/1929
- Reprint – “The Bovie Electrosurgical Current Generator Some Underlying Principles and Results” by A. J. McLean –*The Archives of Surgery*, April 1929, Vol. 18, pp. 1863-1873
- Reprint – “The Bovie Electrosurgical Current Generator Some Underlying Principles and Results” by A. J. McLean - *The Archives of Surgery*, April 1929, Vol. 18, pp. 1863-1873

BOX 2

B2/f8

Original envelope: “Craniopharygiom; *Ztschr. F.D. ges. Neurol. u Psychiat.* 126, (5), 639-682, 1930; MSS & draft in English and German, photos, programme, reprints”

- Reprint – *Zeitschr. F. Neurologie.*; of “Die Craniopharyngealtaschentumoren (Embryologic, Histologie, Diagnose and Therapie)” von A.J. McLean - German
- Correspondence - 6/2/1936 - French

- Manuscript - draft - “Kraniopharyngeal taschentumoren” - German, 3/31/1930 with program attached to manuscript for Einladung zur 5. Jahresversammlung - 3/1- 2/1930
- Manuscript - figure descriptions - “Craniopharyngeal Pouch Tumors” - 2/20/1930 - English
- Manuscript with bibliography - figure descriptions - “Craniopharyngialtaschentumoren” 3/31/1930
- Photographs – (44) numbered - missing 5, 8, 36
- Manuscript - figure descriptions - “Craniopharyngeal Pouch Tumors Embryology, Histology, Diagnosis and Therapy” - 2/20/1930 - English, by A. J. McLean, Breslau, Germany; received for publication - 3/30/1930

B2/f9

Original envelope: “Intracranial Chordoma, probably the paper given at a meeting in Breslau 1930, *MSS Ztschr. f.d. ges. Neurol. u Psychiat.*”

- Manuscript with bibliography - figure descriptions - “A Case of Intracranial Chordoma”, by A. J. McLean, Breslau, Germany
- Manuscript draft - “A Case of Intracranial Chordoma”, by A. J. McLean, Breslau, Germany - handwritten data

B2/f10

Original envelope: “A case of Diencephalic Ganglioneuroma, *Ztschr. f.d. ges. Neurol. u Psychiat.* 143, 635-650, 1933 (c o Foerster, and O. Gagel) *MSS*, draft, reprints”

- Manuscript with bibliography - figure descriptions - “A Case of Diencephalic Ganglioneuroma”, sent to O.F. [Otfried Foerster?] 12/11/1931
- Manuscript draft with bibliography - figure descriptions - “A Case of Diencephalic Ganglioneuroma”
- Correspondence – from Othmar Solnitzky - 7/10/1935
- Reprint from –*Zeitschrift fur die gesamte Neurologie und Psychiatrie*, sonderabdruck aus 143. Band. 3. und 4. Heft, 1933, of “Ein Fall von Ganglioneuroma Amyelinicum des Hirnstammes” von O. Foerster, A. J. McLean und O. Gagel, in German
- Reprint from –*Zeitschrift fur die gesamte Neurologie und Psychiatrie*, sonderabdruck aus 143. Band. 3. und 4. Heft, 1933, of “Ein Fall von Ganglioneuroma Amyelinicum des Hirnstammes” von O. Foerster, A. J. McLean und O. Gagel - German

B2/f11

Original envelope: “The Characteristics of Adequate Electrosurgical Current Dec-3-1932, *MSS*, correspondence, reprints; Separate: Notebook data #9, photographic plates, photographic prints, microscopic slides, Sec in reprint file, (handwritten note) bequeathed to [WL WL] Dr. G. Mahonney, Vanderbilt School of Med.” [not found in envelope]

- Correspondence – 4/1934 - 6/1935

- Correspondence and budget grant request – 4/1929 – 11/1936
- Correspondence – handwritten – January 16
- Manuscript - 4th draft with bibliography - figure descriptions - “The Characteristics of Adequate Electrosurgical Current”, by A. J. McLean
- Manuscript - 2^{sd} Draft with Bibliography - figure descriptions - “The Characteristics of Adequate Electrosurgical Current”, by A. J. McLean, many handwritten notes
- Reprint - “Characteristics of Adequate Electrosurgical Current”, by A. J. McLean – *The American Journal of Surgery* vol. XVIII, No.3, Dec. 1932, pp. 417-441 and 459
- Reprint - “Characteristics of Adequate Electrosurgical Current”, by A. J. McLean from – *The American Journal of Surgery* vol. XVIII, No.3, Dec. 1932, pp. 417-441 and 459

B2/f12

Original envelope: “Chiasmal Syndromes, *Western Jour. Surg. Gyn. & Obst.* 40, 355-370, 1932; MSS, letters, illust. Reprints; Separate: Breslau case histories” [not found in envelope]

- Photographs – (18) unmarked
- Illustration – unmarked diagram
- Correspondence – 12/1931 - 1/1932
- Photographs - mounted with caption – (17)
- Manuscript with bibliography - figure descriptions - “Chiasmal Syndromes” by A. J. McLean
- Correspondence – 3/1932 – 3/1933
- Reprint – *The Neurosurgical Division, Department of Surgery, Multnomah Hospital, Portland*; of “Chiasmal Syndromes” by A. J. McLean, read at the annual meeting of the Oregon Academy of Ophthalmology and Otolaryngology Portland, Oregon, January 19, 1932
- Reprint – *The Neurosurgical Division, Department of Surgery, Multnomah Hospital, Portland*; of “Chiasmal Syndromes” by A. J. McLean, read at the annual meeting of the Oregon Academy of Ophthalmology and Otolaryngology Portland, Oregon, January 19, 1932

B2/f13

Original envelope: “A case of Automatic Epilepsy with Necropsy, *Arch. Neurol. & Psychiat.*, 32, 188-197, 1934 (7); MSS, reprints, corresp.”

- Postcards – request for reprints - (2) 1934, (1)1936
- Manuscript - final draft – figure descriptions - “A Case Exhibiting Autonomic Epilepsy with Necropsy Findings by A. J. McLean, 11/30/1933
- Correspondence – 1935 - 1936
- Photographs - mounted with some explanations on back – (11)
- Correspondence - 1932 - 1934

- Manuscript - 2nd draft with bibliography - figure descriptions - “A Case Exhibiting Autonomic Epilepsy with Necropsy Findings” by A. J. McLean - 11/6/1933
- Manuscript - 1st draft with bibliography - figure descriptions - “A Case Exhibiting Autonomic Epilepsy with Necropsy Findings by A. J. McLean
- Reprint – *The Archives of Neurology and Psychiatry*, July 1934, Vol. 32, pp. 189-197 of “Autonomic Epilepsy Report of a Case with Observations at Necropsy” by A. J. McLean
- Reprint – *The Archives of Neurology and Psychiatry*, July 1934, Vol. 32, pp. 189-197 of “Autonomic Epilepsy Report of a Case with Observations at Necropsy” by A. J. McLean

B2/f14: Part A

Original envelope: “Intracranial Tumors *Handbuch der Neurologie*, J. Springer, Berlin 1933-1936 (Herausgeben von Foerster und Bumke) Bd. (vol.) 14, pp. 131-241”

- Manuscript with bibliography - figure descriptions - (publication record copy) - “Intracranial Tumors” by A. J. McLean - 10/1/34
- Manuscript - 3rd draft with bibliography - figure descriptions - outline - “Intracranial Tumors” by A. J. McLean

BOX 3

B3/f14: Part B

Original envelope: “Intracranial Tumors *Handbuch der Neurologie*, J. Springer, Berlin 1933-1936 (Herausgeben von Foerster und Bumke) Bd. (vol.) 14, pp. 131-241”

- Manuscript with bibliography - figure descriptions - handwritten edits - “Intracranial Tumors” by A. J. McLean
- Small booklet – *Handbuch der Neurologie Herausgegeben von O. Bumke und O. Foerster*
- Correspondence – 1932 – German and English
- Correspondence – 1932 to 1935 – German and English

B3/f15

Original envelope: “Intractable facial pain relief by deep injections of alcohol, *Northwest Medicine*, 32 16-21, 1933 (Jan.) MSS, drafts, Illust. Reprints, corresp; Separate Leica Films e Histories” [not found in envelope]

- Manuscript with bibliography - figure descriptions - postcard - “Intractable Facial Pain: Relief by Deep Injections of Alcohol” by A. J. McLean
- Photographs and illustration – (17) photographs some numbered, 1 mounted, and (1) mounted illustration by A. J. McLean, numbered
- Reprint – *The Bulletin of the Oregon State Medical Society and Affiliated Organizations*, September 1932 Vol. 3, No. 2
- Postcard – 1/1933

- Manuscript 3rd draft with bibliography - figure descriptions -“Intractable Facial Pain: Relief by Deep Injections of Alcohol” by A. J. McLean with instructions and discussion
- Correspondence – 5/1932 – 2/1934
- Reprint – *Northwest Medicine* Vol. XXXII No.1, 1933 - “Intractable Facial Pain: Relief by Deep Injections of Alcohol” by A. J. McLean
- Reprint – *Northwest Medicine* Vol. XXXII No.1, 1933 - “Intractable Facial Pain: Relief by Deep Injections of Alcohol” by A. J. McLean

B3/f16

Original envelope: “Spinal Tumors: with report of six cases, *West. Jour. Surg. Ob & Gyn.* 43, 1-15, 1935 (Jan); MSS, reprints, drafts and notes; Separate: Histories of M. Elkins, F. Welner, E. Banks” [the rest of the list is blurred or faded] , [not found in envelope]

- Postcards – 1935 and 1936, requests for reprint
- Correspondence – requests for reprint – March - April 1936
- Manuscript – bibliography - figure descriptions - “Spinal Tumors: With Report of Six Cases” by A. J. McLean
- Manuscript - 4th draft - “Spinal Tumors: With Report of Eight Cases” by A. J. McLean
- Manuscript - unnumbered draft - “Spinal Tumors: With Report of Six Cases” by A. J. McLean,
