

Combined Goals and Objectives

Types of Conditions		Pts	Alternative		
Health Supervision					
1	Newborn	1	NONE		
2	Child	1	CLIPP	3	4
3	Adolescent	1	CLIPP	5	6
4	Plot on Growth Chart	3	NONE		
Jaundice					
5	Neonatal Jaundice	1	CLIPP	8	
Common Acute Illness					
6	Upper Respiratory Infection	1	CLIPP	14	
7	Lower Respiratory Infection	1	CLIPP	12	13
8	Gastrointestinal Complaint	1	CLIPP	15	27
9	Skin complaint	1	CLIPP	3	21
10	CNS complaint	1	CLIPP	20	24 28
11	Fever with out focus	1	CLIPP	10	
Chronic Illness:					
12	Asthma	Any 2	CLIPP	30	31
13	Atopic Dermatitis				
14	Cerebral Palsy				
15	Cystic Fibrosis				
16	Diabetes Mellitus				
17	Epilepsy				
18	Malignancy				
19	Obesity				
20	Genetic Syndrome				
21	Sickle Cell Anemia				
22	Immunodeficiency				
23	Sensory Impairment				
24	Eating disorders				
25	Congenital Heart Defect				
26	Chronic Renal Failure				
Therapeutics					
27	Write medication orders in patient chart	3	Problem sets	3	Obtained from Student Coordinator
28	Write an Rx outpatient	3	Problem sets	3	
Fluids and Electrolytes					
29	History and Physical to assess hydration (normal, mild, moderate, severe)	1	NONE		
30	Write orders for child MIVF	1	NONE		
31	Write fluid resuscitation plan for dehydration	1	Pediatrics 1 Orientation Lecture		
32	Understand and explain utility of ORT for mild-mod dehydration	1	Pediatrics 1 Orientation Lecture		
Child Abuse/Neglect/Injury Prevention					
33	Recognize child abuse	1	Core Lecture-Child Abuse		
34	Understand legal requirements of mandatory reporting	1	CLIPP	25	
35	Understand available resources for injury prevention and treatment.	Visit Doernbecher Safety Center (Pediatrics 2 only)			
36	Understand available resources for Ingestion Prevention and Treatment	Attend 2 hour shift at Poison Control Center			
Project					
37	Identify a specific pediatric healthcare issue and complete a project that addresses this need.	1 Project (Pediatrics 2 only)
