

Not every cancer-fighting instrument is made of glass or steel.

The latest tool in fighting cancer is made of 100% cotton.

As an American Family agent, I'm proud to sell the Oregon Duck LIVE**STRONG**[®] hat. By wearing it, you not only show love for your Ducks, you help fight against cancer in young adults. Proceeds support research at the OHSU Cancer Institute, University of Oregon Institute of Molecular Biology and the Lance Armstrong Foundation—three institutions leading the way to halt this terrible disease.

Stop by and get yours today.

Sincerely,

(Agent Signature)
