Alzheimer's  
Disease &  
Progressive  
Aphasia

*Do you  
have trouble  
communicating?*

IRB#: 4831

**REKNEW** is seeking volunteers who:

- Have moderate dementia or progressive aphasia
- Are English speaking
- Are available for a number of 20-minute conversations up to 12 weeks (in your home or at OHSU)
- Are willing to be videotaped
- Have a caregiver who is willing to view, rate, and participate in a number of 10-minute conversations as well as commit to a 6 month follow-up period (via telephone)

**REKNEW** (Reclaiming **E**xpressive **KN**owledge in **E**lders **W**ith Alzheimer's disease or progressive aphasia) seeks volunteers and their families to participate in a research study designed to find ways to improve conversation between people with Alzheimer's disease or progressive aphasia and their families. In the research we will use personalized communication systems that use pictures and written words.

For more information, or to volunteer, contact:

Glory Noethe at (503) 494-2743

noethe@ohsu.edu

REKNEW is sponsored by The National Institute on Disability and Rehabilitation Research (NIDRR) of the US Dept. of Education, grant # H133G080162, and the Rehabilitation Engineering Research Center (AAC-RERC), grant # H133E080011.
