

Principles of Clinical Medicine

"Patient - focused education through integration of basic and clinical sciences"

Name:

Preceptor:

Principles of Clinical Medicine - Student Log

Activity/Diagnosis/Procedure List

Use the lists to identify your level of activity in the case, all the diagnoses for your patient, and any procedures you were involved in doing or interpreting. Place the numbers in the appropriate column on your student log. More than one number per category should be used, if necessary. Blank lines are available to add frequently seen diagnoses/procedures not currently listed.

Student Activity
1. Observed Preceptor obtain history
2. Observed Preceptor perform physical exam
3. Obtained history from patient - unobserved
4. Performed physical exam - unobserved
5. Obtained history from patient - observed
6. Performed physical exam - observed
7. Presented case to preceptor
8. Completed write-up
9. Received feedback from preceptor
10. Procedure - observed
11. Procedure - performed

Student Log

Diagnosis		Procedure
1. Abdominal pain	33. Laceration	100. Anoscopy
2. Alcoholism	34. Migraine headache	101. Audiometry
3. Angina	35. Obesity	102. Blood gas
4. Anxiety	36. Otitis externa	103. Cast/splint place.
5. Arthritis	37. Otitis media	104. Catheter (urethra)
6. Asthma	38. Osteoarthritis	105. Circumcision
7. Back pain	39. Pelvic Inflammatory Dis.	106. Colposcopy
8. Bronchitis	40. Peptic Ulcer Disease	107. Cryotherapy Cervix
9. Cellulitis	41. Pharyngitis	108. Cryotherapy Skin
10. Constipation	42. Pneumonia	109. Diaphragm fitting
11. Chest pain	43. Pregnancy - Diagnosis	110. EKG
12. COPD	44. Prenatal care	111. Endometrial biopsy
13. Cong. Heart Failure	45. Rectal bleeding	112. Flex. Sigmoidoscopy
14. Conjunctivitis	46. Seizure disorder	113. Gram stain
15. Contraception	47. Sinusitis	114. Hemocult
16. Coronary Heart Dis.	48. Sprain/strain	115. I & D abscess
17. Cough	49. Upper respiratory infec.	116. IUD Insertion
18. Depression	50. Urinary tract infection	117. I.V. placement
19. Dermatitis	51. Vaginitis/vulvitis	118. KOH/Wet mount
20. Diabetes Mellitus	52. Viral infection	119. Norplant placement
21. Diaper rash	53. Well adult care	120. Pelvic exam
22. Esophagitis	54. Well child care	121. Pregnancy test
23. Fibrosis/Myalgia		122. Rectal exam
24. Gastritis		123. Skin biopsy
25. Gastroenteritis		124. Spirometry
26. Hay fever		125. Suture removal
27. Headache		126. Throat culture/strep
28. Hemorrhoids		127. Tympanometry
29. Hypertension		128. Urine dipstick
30. Hypothyroidism		129. Urinalysis/micro.
31. Influenza		130. Vasectomy
32. Irritable bowel		131. Venipuncture
