

**Open-ended Question Guide**  
**Follow-up Interview with Community Workshop Participants**

**Research Partner/Community Partner**

Were you involved in any research as a “community partner” before attending the workshop?

Please tell me about any research you have been involved in as a community partner since the workshop.

What, if any, affect has the workshop had on your participation in research as a community partner?

If you are now involved as a community research partner, do you think you interact with researchers any differently as a result of the workshop: if so, please describe.

**Research Subject**

Were you involved in any research as a “research subject” before attending the workshop?

Have you been involved in any research as a research subject since the workshop? Please tell me about that.

What, if any, affect has the workshop had on your participation in research as a subject?

**Other**

Has your experience with research been mostly positive or mostly negative or more neutral? Please tell me more about that.

Looking back on what you learned from the PAR in UCEDD presentation, what additional information would have been helpful for you?
