Why are there two sets of balls on our field?

One size (12”) is to be used for male batters and one (11”) is to be used for female batters.

I’m hungry. Where’s the food?

The tournament coordinator will supply water, sports drinks, and lunch. The concessions stand will be open all day for any other snacks. Players can also bring their own food and refreshments.

Where are the bats and mitts?

Teams are responsible for bringing/acquiring their own bats and mitts.

Okay, we’re here. What do we do now?

Check in at the registration table. Make sure everyone on your team has a shirt. If you need more shirts or would like to exchange for a different size, please see the T-shirt guru at the registration table. Then check the schedule for your first game and get ready. After each game, please report your score to the tournament coordinator!

What do we do between games?

Whatever you want. Check out your competition, come up with some plays, do a little team bonding or trust falls, but be sure to come back in time for the next game so you don’t run the risk of forfeiting.

How do we know if we’re in the championship or consolation game?

After the last round-robin game of the day, the tournament coordinator will tally up wins and losses and determine the championship and consolation teams. In the case of a tie, number of runs will be taken into consideration. First and second place in both the coed and men’s leagues will receive team plaques.
