Added to IA: Tools, Projects to encompass expanding information necessary on the site. These changes are made in preparation for launch of new templates and Unified site framework in February. Restructured Self-Services section slightly to use more friendly names.

Added "Submit a Ticket" form for people to send online emails – web form that submits to webadmin@ohsu.edu.

Page Elements

- A** As part of the Unified Site design, a photo image will go here.
- B** This is live text, that will be read by search engines. A short, pithy description with key words should go here.
- C** Will our FAQ DB be dynamic, or static?
- D** Also toyed with putting here: Quick Contact info
- E** This effectively becomes a Quick Link to the Visual ID Guidelines, so no one can say they couldn't find them!
- F** Does Central Services have Quick Links? What would they be?

Notes

The home page. Public, but located within Central Services, the target audience is the OHSU community and especially employees with a web management function.
