

OHSU Center for Ethics in Health Care

Statement of Vision, Mission, Values and Strategic Directions

Vision The OHSU Center for Ethics in Health Care envisions health care that is compassionate, just and respectful for the people of Oregon and across the nation.

Mission **Our mission is to:**

1. Combine the ethical perspectives of health care professionals, patients and families to improve teaching, research and clinical consultation in patient care and health policy.
2. Provide statewide leadership in identifying and addressing ethical issues in health care.
3. Serve as a resource for teaching about professional responsibility and health care ethic principles.
4. Advocate for institutional and public policies that promote ethical goals in health care services and systems.

Values **In health care delivery, education and research, we value:**

1. Respect for persons
2. Beneficent health care
3. Justice
4. Stewardship of health care resources

FY 2008-9 **Strategic Plan Focus Areas:**

1. Diversity Intergration
2. Faculty Development & Ethics Center Succession Planning
3. Inter-professional Education
