

LEARNING OBJECTIVES

1. Explore practical evidence-based strategies for better management of pain and nausea.
2. Strengthen skills used to estimate prognosis and effectively use the POLST when crafting patients' care plans.
3. Learn new approaches to addressing conflict and having difficult conversations about prognosis and goals of care.
4. Explore how to improve overall quality by integrating palliative care into the care of your patients.

TARGET AUDIENCE

Designed for physicians, nurses, social workers, pharmacists, chaplains, psychologist and other allied health care professionals involved in care of patients with life-threatening illness.

SPONSORS

This conference is co-sponsored by the OHSU Center for Ethics in Health Care and Grande Ronde Hospital

We extend special thanks to
The Kinsman Foundation
for their generous support to help
underwrite this conference.
