Join us for an exciting, fast-paced morning with six speakers addressing some of those confusing and contentious myths and controversies that face us in dentistry today. Presenters will introduce their topic, identify the opposing viewpoints, review the relevant research, present their position on the topic based on their understanding of the evidence, and answer your questions. Topics and speakers are as follows:

“Addition or subtraction, what's the answer to the milling vs 3D-printing equation for indirect restorations?” by Luiz Bertassoni, D.D.S., Ph.D., Assistant Professor, Department of Restorative Dentistry. The pros, cons and future of 3D printing for dental restorations.

“Root fill or regrow: How does regenerative Endo work?” by Dr. Christine Sedgley, M.D.S., Ph.D., Professor and Chair, Department of Endodontology. The potential for regenerating the pulp in lieu of conventional Endo.

“External resorption, diagnosis, etiology, and treatment: What do we know and not know?” by Joseph Califano, D.D.S., Ph.D., Professor, Department of Periodontology. Causes, diagnosis and treatment for external resorption.

“Peri-implantitis: Inevitable or preventable?” by Harjit Sehgal, B.D.S., M.S., Assistant Professor, Department of Periodontology. The causes, diagnosis, prevention and treatment of periimplantitis.

"My snoring is better, but now my teeth don't fit together. What's up with that?” by Thomas Walker, D.M.D., private practitioner. Effectiveness, appliance design, and occlusal considerations for sleep apnea appliances.

“They took it out of my water bottle, but is BPA still in my filling?” by Carmem Pfeifer, D.D.S., Ph.D., Assistant Professor, Department of Restorative Dentistry. The facts about BPA in dental resins.
