

School of Medicine

Class of 2012

Commencement

Monday, June 4, 2012

Arlene Schnitzer Concert Hall

Dear Graduate,

On behalf of OHSU's faculty and staff, I would like to offer my congratulations on the accomplishments that have brought you to this moment and extend my warmest wishes for your continued success as you move forward in your chosen field.

This is a day of change, one in which you and your classmates turn the page from one chapter of your lives to the next. Some of you will teach, some will conduct research, some will care for the health of others, and some will develop high technology applications. All of you will continue to learn. I hope that you will take with you a sense of pride in your skills and knowledge, a sense of excitement for the possibilities that lie before you, and a commitment to using your education to better the lives of people of all ages, ethnicities and walks of life.

Over the years, OHSU has evolved and adapted and grown in size and complexity. But what was true in 1887 when OHSU began is still true today: you, the students, are the reason we are all here. I want to thank you for your hard work and the sacrifices you and your families have made to arrive at this day. Your accomplishments are many, but they are only a small part of what you will be able to achieve as you apply the knowledge you have gained.

OHSU truly is the place where healing, teaching, discovery come together. In unifying these missions, we realize the greatest intellectual strength and innovation. I hope you will embrace this model of integration and live your life as a healer, a teacher and a researcher. In this, I believe, you will find the greatest reward.

As an OHSU graduate, you join a dedicated and elite community. There are four schools and literally dozens of departments and sub-specialties represented here, but the OHSU community is unified in its commitment to service and to bettering human health worldwide. This community welcomes you as a valued member. Your accomplishments are a sense of pride and your future a source of hope. Thank you and congratulations.

Best wishes for your continued success.

A handwritten signature in black ink that reads "Joe E. Robertson". The signature is written in a cursive, flowing style.

Joseph E. Robertson, Jr., M.D., M.B.A.
President, Oregon Health & Science University

The Program

**Processional March (Audience remain seated)
Pomp and Circumstance March #1 (Edward Elgar)**

Welcome

Molly L. Osborne, M.D., Ph.D.
*Interim Associate Dean for Educational Affairs
Associate Dean for Student Affairs*

**Greetings from the
Oregon Health & Science University President**

Joseph E. Robertson, Jr., M.D., M.B.A.
President, Oregon Health & Science University

**Greetings from the
Oregon State Board of Higher Education**

David Yaden, B.A.
Oregon State Board of Higher Education

**Greetings from the
Oregon Health & Science University Board of Directors**

Charles Wilhoite, B.S., C.P.A.
Chair, OHSU Board of Directors

**Greetings from the
School of Medicine Alumni Association**

Nels Carlson, M.D., Ph.D.
President, School of Medicine Alumni Association

Dean's Message

Mark A. Richardson, M.D., M.Sc.B., M.B.A.
Dean, School of Medicine

Faculty Message - M.D. Program

Thomas G. Deloughery, M.D.
*Professor, Department of Medicine
Division of Hematology & Medical Oncology*

Faculty Message - Graduate Program

Thomas M. Becker, M.D., Ph.D.

*Charles and Velma Sharp Endowed Professor
Chair, Department of Public Health & Preventive Medicine*

Presentation of Newly Appointed Emeritus Faculty

Jeanette Mladenovic, M.D., M.B.A., M.A.C.P.

Provost and Vice President

Hooding and Conferring of Degrees and Certificates

Mark A. Richardson, M.D., M.Sc.B., M.B.A.

Dean, School of Medicine

Associate's Degrees

Bachelor's Degrees

David W. Robinson, Ph.D.

Executive Vice Provost

Graduate Certificates

Allison D. Fryer, Ph.D., FBPharmacoS.

Associate Dean for Graduate Studies

Participants in Hooding Ceremony

Faculty Hooders

John D. Stull, M.D., M.P.H.

*Assistant Professor, Department of Public Health &
Preventive Medicine*

Sima S. Desai, M.D.

*Associate Professor, Department of Medicine,
Division of Hospital Medicine*

Marcus C. Grompe, M.D.

*Professor, Department of Pediatrics
Department of Molecular & Medical Genetics*

Margo Haygood, Ph.D.

Professor, Division of Environmental & Biomolecular Systems

Masters' Programs

Allison D. Fryer, Ph.D., FBPharmacolS.
Associate Dean for Graduate Studies

Doctor of Medicine

Scott A. Fields, M.D.
Interim Director of Undergraduate Medical Curriculum
Professor, Department of Family Medicine

Doctor of Philosophy

Allison D. Fryer, Ph.D., FBPharmacolS.
Associate Dean for Graduate Studies

Oath of Geneva

Gregory J. Magarian, M.D.
Professor, Department of Medicine
Division of Hospital Medicine

Medical Student Message

Mathew T. Snodgrass, M.D.
Graduate, Class of 2012

Graduate Student Message

Nicole K. Paulk, Ph.D.
Graduate, Class of 2012

Faculty Teaching Excellence Awards

Benjamin David Jones, M.D.
President, Class of 2012

M.D. Student Achievement Awards

Molly L. Osborne, M.D., Ph.D.
Interim Associate Dean for Educational Affairs
Associate Dean for Student Affairs

Outstanding Master's Thesis Award

Allison D. Fryer, Ph.D., FBPharmacolS.
Associate Dean for Graduate Studies

**The John A. Resko
Outstanding Doctoral Dissertation Award**

Allison D. Fryer, Ph.D., FBPharmacoS.
Associate Dean for Graduate Studies

**The John A. Resko Faculty Excellence in
Research and Mentoring Award**

Allison D. Fryer, Ph.D., FBPharmacoS.
Associate Dean for Graduate Studies

**The Leonard Tow Humanism in Medicine Awards
Presented by the Arnold P. Gold Foundation**

Carrie A. Phillipi, M.D., Ph.D., F.A.A.P.
*Associate Professor,
Department of Pediatrics*

The Edward S. Hayes Gold-Headed Cane Award

Joseph E. Robertson, Jr., M.D., M.B.A.
President, Oregon Health & Science University

Cornelia Hayes Stevens
Granddaughter of Edward S. Hayes, M.D.

Closing Remarks

Molly L. Osborne, M.D., Ph.D.
*Interim Associate Dean for Educational Affairs
Associate Dean for Student Affairs*

Joseph E. Robertson, Jr., M.D., M.B.A.
President, Oregon Health & Science University

Recessional

Trumpet Voluntary (Henry Purcell)

Reception

The Portland Center for the Performing Arts

Emeritus Faculty Appointments

Each year, several members of the faculty and staff who are retiring from day-to-day participation in the teaching, research, patient care and administrative programs of the university are named emeritus members of the university in recognition of their outstanding contributions to OHSU. Those being honored this year are:

School of Medicine

David M. Cook, M.D.

*Professor Emeritus
Medicine*

Paul C. Lakin, M.D.

*Professor Emeritus
Dotter Interventional Institute
and Diagnostic Radiology*

Gordon L. Noel, M.D.

*Professor Emeritus
Medicine*

James B. Reuler, M.D.

*Professor Emeritus
Medicine*

Thomas R. Soderling, Ph.D.

*Senior Scientist Emeritus
Vollum Institute
Professor Emeritus
Biochemistry & Molecular Biology*

Anita D. Taylor, M.A.Ed.

*Associate Professor Emeritus
Family Medicine*

**PRESENTATION OF CANDIDATES FOR DEGREES,
CONFERRING OF DEGREES AND CERTIFICATES,
AWARDING OF DIPLOMAS AND CERTIFICATES**

Associate of Applied Science

Major: Emergency Medical Technology – Paramedic

Bachelor of Science

Major: Clinical Laboratory Science

Radiation Therapy

David W. Robinson, Ph.D.

Executive Vice Provost

Graduate Certificate in Biomedical Informatics

Graduate Certificate in Biostatistics

Graduate Certificate in Dietetic Internship

Graduate Certificate in Healthcare Management

Graduate Certificate in Human Investigations

Faculty Excellence Awards in Medical Education

The John S. Miller Award

This award is presented to an intern with the qualities of an outstanding teacher. The award was established by the Class of 1974 in memory of classmate John Miller, M.D.

Meredith C. Frederick, M.D.
Resident, Department of Neurology

The Howard P. Lewis Award

This award is presented to a senior resident for outstanding teaching. The late Dr. Lewis was the distinguished chairman of the Department of Medicine from 1947 to 1971.

Noah C. Beadell, M.D.
Resident, Department of Neurology

The Oliver M. Nisbet Teaching Award

This award is given to an outstanding volunteer faculty member. Dr. Nisbet, late professor emeritus of surgery, was on the volunteer faculty from 1926 until his death in 1967.

Kevin A. Johnston, M.D.
Affiliate Assistant Professor
Department of Family Medicine

The David W. E. Baird Award

This award recognizes excellence in a junior faculty member and was named after Dr. Baird, Dean of the School of Medicine from 1943 to 1968.

Laszlo N. Kiraly, M.D.
Assistant Professor, Department of Surgery
Division of Trauma, Critical Care and Acute Care Surgery

The J. David Bristow Award

The Bristow award was established by the class of 1977 to recognize a faculty member who exemplifies the ideals of the true physician as he or she conducts clinical practice with patients and colleagues. The late Dr. Bristow chaired the Department of Medicine from 1971 to 1977.

Patrick H. Brunett, M.D.
Assistant Dean for Graduate Medical Education
Associate Professor, Department of Emergency Medicine

The Allan J. Hill, Jr. Awards

These awards recognize excellence in teaching by honoring two full-time faculty members, one in basic science and one in clinical science. The Allan J. Hill Award is named for a former chairman of the Department of Pediatrics, who died in 1964.

Buddy Ullman, Ph.D.
Professor, Department of Biochemistry
& Molecular Biology

Marc V. Gosselin, M.D.
Professor, Department of Diagnostic Radiology

Faculty Mentor Award

This award is made by the Dean and recognizes a faculty member, who demonstrates outstanding skill and dedication to advising and mentoring medical students.

Lalena M. Yarris, M.D.
Assistant Professor, Department of Emergency
Medicine

The Community Preceptor Award

This award is made by the Dean and recognizes a physician or physician group that has demonstrated outstanding dedication to the education of medical students in the community setting.

Andrew G. Janssen, M.D.
Strawberry Wilderness Community Clinic
John Day, OR

THE JOHN A. RESKO RESEARCH ACHIEVEMENT AWARDS

These awards recognize outstanding contributions to biomedical research in the School of Medicine and are presented to a graduate student in recognition of research leading to completion of an outstanding thesis and to a faculty member for outstanding accomplishments in research and in the mentoring of graduate students and postdoctoral fellows. The awards are made in honor of John A. Resko, Ph.D., Chairman and Professor Emeritus of the Department of Physiology & Pharmacology, for over 30 years of excellence in research, mentoring and dedicated leadership of the basic science graduate studies program.

Outstanding Doctoral Thesis Award

Kinrin Yamanaka, Ph.D. Candidate

THE LEONARD TOW HUMANISM IN MEDICINE AWARDS PRESENTED BY THE ARNOLD P. GOLD FOUNDATION

These awards are presented to a graduating medical student and to a physician faculty member who are judged by his or her peers to best exemplify the humanistic qualities of a physician. The following individuals are recognized for their consistent expression of compassion, empathy, respect and sensitivity toward their patients and colleagues, while maintaining the highest professional and ethical standards and devoting themselves to the welfare of our citizens who are most vulnerable and in need of their care.

Lori Lyn Cardwell
Christopher Clement Denton
Jonathan W. Larrabee
Mathew Tyler Snodgrass
Andrew Thomas Young

The Edward S. Hayes Gold-Headed Cane Award of the OHSU School of Medicine, with the trust it symbolizes, is presented annually to a member of the graduating medical class who has been selected for this high honor by a vote of his or her peers and teachers. The award is given to a student in recognition of compassionate devotion and effective service to the sick, with the conviction that its holder will forever epitomize and uphold the traditions of the true physician.

The gold-headed cane represents the spirit of service which is based upon the precepts of the Oath of Hippocrates, Prayer of Maimonides, and the Golden Rule. In addition to the cane and a commemorative plaque, a monetary gift is awarded to support the furtherance of the recipient's postgraduate education.

A tradition at a number of American medical schools today, this award originated with the late Dr. William J. Kerr of the University Of California School Of Medicine. He noted that there were many awards for scholarship or other similar accomplishments, but none for the qualities of mind, heart and hand that are so much a part of the true physician.

A gold-headed cane was selected to symbolize the award because it is rich in historical significance.

The physician of the late seventeenth century, of whom Dr. John Radcliffe is an example, was distinguished by his silk coat, breeches and stockings, buckled shoes, lace ruffles, full-bottomed wig and his gold-headed cane. Symbolic of the wand of Aesculapius, the physician's cane was usually of considerable length and was provided with a knob or bar containing a vinaigrette that was held to the nose to ward off noxious vapors arising from the sick room.

But Radcliffe's cane was somewhat different. It was of the variety known as Malacca, with long metal ferrule and gold handle, measuring in all only three feet, three inches in length. Its ends were indented and not removable and its shape suggested that it was used for support.

Radcliffe's cane became known as the gold-headed cane. It was passed on to five distinguished British physicians in succession and now rests in the Hall of the Royal College of Physicians, London. It carries the coat of arms of Radcliffe and those of Pitcairn, Baillie, Mead and Askew, all of whom carried the cane in their daily activities.

These men were famed and had no peers in the care of their patients. Their clinical acumen had to be developed to a high degree because in their day there was little of the sound scientific knowledge of medicine that is available in such quantity today.

Because of his interest in promoting and preserving the high stature of medical practice and the care of patients in future physicians, the late Edmund Hayes of Portland made a gift for this purpose in 1966 to the Medical Research Foundation of Oregon in memory of his father, Dr. Edward S. Hayes, who for many years was a dedicated and respected practitioner of medicine in Eau Claire, Wisconsin.

It was decided by the Board of Trustees of the Foundation and the executive faculty of the School of Medicine, that because of uniquely related historical significance, the Gold-Headed Cane Award would recognize and support the vitally important ideals expressed by Dr. Hayes.

The cane, while not an exact replica of Radcliffe's cane, is similar and traditional in its form and is permanently displayed in the History of Medicine Room at Oregon Health & Science University, with a statement of the award's history and intent. The engraved head is solid gold. Here appear the words, "The Edward S. Hayes Award" and the rod of Aesculapius. The emblem of the School of Medicine is engraved on the end. The ferrule is designed with branches of laurel, symbolizing honor and fame, and with four illustrations of important episodes in the history of medicine in Oregon. The first two illustrations honor the men who pioneered and populated this country and who came by land and by sea. They were closely followed by physicians, often circuit riders, who made their rounds astride a horse. The open book with the date 1867 signifies the beginning of medical education in Oregon.

- 1968 - *John Edward Berland, M.D.*
- 1967 - *William Henry Bush, Jr., M.D.*

The Oath of Geneva

At the time of being admitted as a member
of the medical profession:

I solemnly pledge myself to consecrate my life to the
service of humanity;

I will give to my teachers the respect and
gratitude which is their due;

I will practice my profession with
conscience and dignity;

The health of my patient will be my
first consideration;

I will respect the secrets which are
confided in me;

I will maintain by all means in my power,
the honor and the noble traditions of the
medical profession; my colleagues will be
my brothers and sisters;

I will not permit considerations of religion,
nationality, race, party politics or social standing
to intervene between my duty and my patient;

I will maintain the utmost respect for human life,
even under threat;

I will not use my medical knowledge contrary
to the laws of humanity.

I make these promises solemnly, freely and upon my honor.

THE SCHOOL OF MEDICINE

The OHSU School of Medicine is the direct descendent of the University of Oregon School of Medicine that first opened its doors in Portland in 1887 and graduated its first class the following year. Only one other medical school in the West has a longer lineage; only 33 of the present 137 medical schools in the United States existed prior to the founding of the School of Medicine in Oregon. Today the school is widely recognized for excellence and its mission continues to be the enhancement of human health through programs in education, research, health care delivery and public service. It is where healing, teaching and discovery come together in Oregon.

The school's faculty is dedicated to preparing physicians for the medical, ethical and humanistic responsibilities of their calling, while also providing outstanding care to patients from Oregon and elsewhere. Along with the art of teaching and healing comes the responsibility for discovery. The School of Medicine faculty are widely recognized nationally and internationally for its pursuit of new knowledge in a breadth of investigative areas ranging from molecular biology and cancer to heart disease, behavioral science, issues of public health and more. In addition to maintaining a high standard of basic and clinical research, the faculty also guide the graduate studies programs that educate the next generation of biomedical scientists.

The challenges for physicians and scientists in this century grow by the year as opportunities increase for new knowledge, for better disease treatment, and for a health care system that provides for the needs of the individual in a manner that is affordable and available to all. OHSU and its School of Medicine are committed to meeting the health professions and science education, biomedical research and health care needs of the people, the state and the nation it has been proud to serve for more than 100 years.

ACADEMIC HOODING

The academic hood has its origins in the Middle Ages as a part of ecclesiastic rather than civilian dress. Begging friars wore the hood, or tippet, over the shoulders and also used it as a head covering in inclement weather. In the late 1800s the hoods with identifiable regalia became part of academic dress in conjunction with the cap and gown. The American Intercollegiate Commission standardized academic regalia in 1895, and those standards remain essentially unchanged to the present.

The hood is made of the same material as the gown. The inner lining of the hood represents the colors of the university that confers the degree. OHSU colors are light blue, dark green and white. The colored inside border indicates the academic discipline—green-trimmed with a green tassel for physician assistant studies, pink for public health, golden yellow for science, green for medicine and dark blue for philosophy.

The hood is awarded by the faculty of the school upon completion of the required course of study. Members of the faculty are selected each year by the graduates for the honor of awarding this insignia of academic achievement. These hoods can be displayed by their recipients at academic ceremonies throughout their lifetimes.

The University

OHSU is the state's only health and research university. It also is Oregon's only academic health center, which means it has the multifaceted responsibility of providing healing, teaching and discovery. It is Portland's largest employer with nearly 14,000 employees, and its size contributes to its ability to provide many services and community support activities not found anywhere else in the state.

The university is a conduit for learning for more than 2,800 students. Additionally, OHSU educates people through joint programs with other universities, provides training to interns, residents and fellows in postgraduate medical and research training, and delivers continuing education to thousands of health care professionals each year. It is the only place in Oregon that grants doctoral degrees in medicine, dentistry and nursing.

As Oregon's primary educator of health professionals, OHSU is creating and developing new partnerships and programs to expand medical, dental and nursing education to other communities in Oregon, and to boost the number of students being taught. One measure of OHSU's work toward these goals is a unique project, with construction now under way, that will combine the resources of three nationally respected institutions. The OUS/OHSU Collaborative Life Sciences Building will place portions of OHSU, Oregon State University and Portland State University under one roof with lecture halls, classrooms, labs and specialty research centers.

Patients from every county in Oregon are cared for at OHSU, and they often receive specialized services not available anywhere else in the state. Without these services many Oregonians would have to travel out of the region to have their complex medical needs met. Together, the dental, medical and nursing clinics offered by OHSU provide an interdisciplinary network of expertise that results in care to more than 235,000 patients each year.

OHSU attracts leading scientists and top students who share the drive to explore the unknown. It also attracts money for research — \$358 million in the past year — to fund promising studies that often lead to discoveries and add to the body of knowledge about prevention, detection and the treatment of disease. OHSU has more than 3,000 active research projects and disclosed 128 inventions in 2011 alone.

Like other academic health centers, OHSU takes a leadership role in contributing to solutions involving the health of the state and the nation. OHSU investigates problems such as access to health care, care for the uninsured, health care transparency, ethics in health care, the health care workforce shortage, increased health care needs for the elderly, the use of technology in health care, compliance, patient privacy and much more.

In many ways, OHSU reaches every corner of the state with more than 200 active outreach and public service programs to address geographical, cultural and economic challenges throughout Oregon. Whether it's improving access to health care for vulnerable and underserved populations, bringing educational programs to people where they live, expanding science education opportunities for school-age children or volunteering staff time and expertise, no other Oregon institution touches the lives of so many.

Inclusion in this program does not, by itself, denote proof of graduation from OHSU. Graduates named in this program either completed degrees at OHSU in the period July 1, 2011 - June 4, 2012, or are recommended by their school to satisfy minor degree requirements by September 1, 2012. Graduates in clinical laboratory science, dietetic internship, paramedic education, radiation therapy and physician assistant programs are scheduled to complete their programs by December 31, 2012.

Graduation Pictures

The City of Portland Fire Marshall requires that audience members remain in their seats during the ceremony. Sitting, standing or taking photographs from the aisles or passageways is not permitted, and Portland Center for the Performing Arts ushers are required to enforce these regulations. Some students have ordered pictures from a professional photographer who will photograph them receiving their diploma. For those students, order forms and proofs will be mailed shortly after the ceremony.
