

The Rare Disorders Research Consortium Conference invites you to attend an evening event to showcase OHSU's rare disorders research excellence:

“Innovation and Opportunities in Rare Disease Research”

Wednesday, February 29, 2012

4:00 to 8:30 p.m.

The Joseph Vey Conference Center

***Keynote Speaker: William Gahl, MD, PhD
Clinical Director, National Human Genome Research Institute and
The NIH Undiagnosed Diseases Program***

Appetizers, drinks and an iPad giveaway

This conference brings together OHSU's top scientists to showcase our portfolio of rare disease research. The event includes Dr. Gahl's keynote address, a scientific poster session by faculty and trainees, and 'speed' talks highlighting outstanding rare disease research programs at OHSU.

To RSVP for this event, please follow this link: <https://www.surveymonkey.com/s/S6QCD2P>

To reserve a slot in the poster session link here: <https://www.surveymonkey.com/s/S6FZ3NL>
Poster presenter deadline is Wednesday, February 15th. Please share information about this event with trainees and other members of your research group and collaborators. We welcome both faculty and trainee posters!

Sponsored by the Oregon Clinical & Translational Research Institute, the Office of Technology Transfer and Business Development, and the Departments of Molecular and Medical Genetics and Pediatrics
