Thank You For Your Interest!

Tracy Bumsted, MD, MPH
Associate Dean, Undergraduate Medical Education

George Mejicano, MD, MS
Senior Associate Dean, Education
Principles of Our New Curriculum

- Learner-centered
- Competency-based
- Core knowledge, skills and attitudes with opportunities for individualization
- Active learning methods
- Fully integrated basic, clinical, & healthcare delivery sciences
- Critical thinking, inquiry, and lifelong learning
- Systems and Safety Science
Goal of Our New Curriculum

Effectively prepare the MD graduate for residency training and professional practice to best serve and meet the needs of society in the 21st century
Your MD is for:

- **Students** – customized path to M.D.
- **Faculty** – developed by faculty
- **Society** – produce physicians with knowledge, skills and attitudes that society needs most in 21st century
Foundations of Medicine Phase

7 Integrated and Spiraled Blocks

Weekly Preceptorship

Scholarly Projects – Developing the Proposal
Clinical Experiences Phase

Transition to Clinical Experiences – 2 weeks

Clinical Experiences – all 4 weeks long except Continuity Experience – min 8 weeks

Intersessions – 2 weeks, integration
- Cancer
- Cognitive Impairment
- Infection
- Pain
Clinical Experiences Phase

Required Clinical Experiences

Core
- Family Medicine
- Internal Medicine
- Neurology
- OB/Gyn
- Pediatrics
- Psychiatry
- Surgery

Continuity experience

New!

Rural experience(s)

Elective experiences
Schedule: Allows Flexibility

Examples of Continuity Experiences – 8 weeks

**OB/Gyn Continuity**
- Obstetrics
- Gynecology
- Peds – MBU, NICU
- Perinatology
- Post-hospital follow up

**Internal Med Inpt-Outpt**
- Ward
- Clinic
- Transitions of Care

**Multidisciplinary Approach to Pulmonary Disease**
- Pulm/Critical Care
- Diagnostic Radiology, Radiation Oncology, Path
- CT surgery
- Multidisciplinary Lung Cancer Clinic
- OHSU—VA--Adventist
Examples of (New) Electives

**Pediatrics Quality Improvement & Patient Safety**
- Improvement Science
- Teamwork
- Quality improvement in practice
- Kaizens
Mentored Scholarly Project

“…goal of creating critical thinkers and lifelong learners”

Heidi Nelson, MD, MPH, Director
Research Professor, Vice Chair OHSU
Medical Informatics and Clinical Epidemiology
Medical Director, Cancer Prevention & Screening, Providence
nelsenh@ohsu.edu

Scholarly Project Concentration Areas:

Basic Science                      Biomedical Engineering
Clinical Research           Ethics                     Quality Improvement
Law   Health Policy       Education         Epidemiology
Global Health        Community   “Other”
43 OHSU Competencies for MD degree

Students will need to be “entrusted” for all 43 in order to graduate

Plus AAMC 13 Core EPAs

**Patient Care and Procedures:** Provide patient-centered care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health.

1. Gather essential and accurate information about patients and their conditions through history taking, physical examination, review of prior data and health records, laboratory data, imaging, and other tests.

2. Interpret and critically evaluate historical information, physical examination findings, laboratory data, imaging studies, and other tests required for health screening and diagnosis.

3. Construct a prioritized differential diagnosis and make informed decisions about diagnostic and therapeutic interventions based on patient information and preferences, up-to-date scientific evidence, and clinical judgment.

4. Develop, implement, and revise as indicated, patient management plans.

5. Apply personalized healthcare services to patients, families, and communities aimed at preventing health problems and maintaining health.

6. Perform all medical, diagnostic, and surgical procedures considered essential for the specific clinical practice context.
Entrustment Committee: Award EPA Badges
We Will Come to You to Provide More Information for Your Faculty
