# Table of Contents

## Core Clinical Experiences

- **Family Medicine**
  - FAMP 730 FM Core Clinical Experience
  - FAMP 731A FM Continuity Core
  - FAMP 731B FM Continuity Core-Rural Immersive

- **Internal Medicine**
  - IMED 730 IM Core Clinical Experience
  - IMED 731A IM Continuity Core: Hospital-based
  - IMED 731B IM Continuity Core: Inpatient/Ambulatory

- **Neurology**
  - NEUR 730 Neurology Core Clinical Experience

- **Obstetrics and Gynecology**
  - OBGY 730 OBGYN Core Clinical Experience
  - OBGY 731 OBGYN Continuity Core

- **Pediatrics**
  - PEDI 730 Pediatrics Core Clinical Experience

- **Psychiatry**
  - PSYC 730 Psychiatry Core Clinical Experience

- **Surgery**
  - SURG 730 Surgery Core Clinical Experience

## Intersessions and Scholarly Project

- INTS 770 Assessment
- INTS 770 Policy: Adding/Dropping Testing Intersessions
- INTS 771 Cancer
- INTS 772 Cognitive Impairment
- INTS 773 Infection
- INTS 774 Pain
- NEPH 771 Nephrology Intersession
- SCHI 702 Scholarly Project

## Elective Experiences
**Anesthesiology & Perioperative Medicine**

- ANST 701A Anesthesiology Research
- ANST 709A Anesthesiology
- ANST 709B Anesthesiology-Obstetrics
- ANST 709D Anesthesiology ICU
- ANST 709E Global Anesthesia
- ANST 709H Anesthesiology - PeaceHealth Sacred Heart
- ANST 709N Neuroscience Critical Care
- ANST 709P Pain Management
- ANST 709SC Anesthesiology - St. Charles Bend
- ANST 709X Anesthesia Special Elective

**Dermatology**

- DERM 701A Research in Dermatology
- DERM 709A Clinical Dermatology
- DERM 710A Clinical Dermatology
- DERM 709B Dermatopathology
- DERM 710B Dermatopathology
- DERM 709C Subspecialty Dermatology
- DERM 709H Dermatology - PeaceHealth Sacred Heart

**Diagnostic Radiology**

- RADD 701A Diagnostic Radiology Research
- RADD 709A Diagnostic Radiology - General
- RADD 709B Dotter Interventional Institute-Interventional Radiology
- RADD 709D Breast Disease
- RADD 709E Advanced Interventional Radiology
- RADD 709F Multidisc Approach to Pulm Dis
- RADD 709X Radiology Special Elective
- RADD 741G Multidisciplinary Approach to Pulm Disease Continuity Elective
- RADD 741X Radiology Special Continuity Elective

**Emergency Medicine**

- EMED 709A Sub-I Emergency Medicine - OHSU
- EMED 709CB Rural Emergency Medicine/Urgent Care - Campus for Rural Health - South Coast
EMED 709D Pediatric Emergency Medicine
EMED 709F Emergency Ultrasound
EMED 709G Emergency Medicine - Legacy Good Samaritan
EMED 709H Emer Medicine - PeaceHealth Sacred Heart
EMED 709J Emergency Med - Rogue Regional
IMED 710K Clinical Ultrasound
EMED 709SC Emergency Medicine-St. Charles
EMED 709X Emergency Medicine Special Elective
EMED 710A Introduction to Emergency Medicine
EMED 741X EM Continuity Clinical Special Elective
ETOX 709A Medical Toxicology

Family Medicine

FAMP 709A Sub-I Family Medicine
FAMP 709AB Family Medicine Inpatient
FAMP 709D Community FamMed-PeaceHealth Sacred Heart
FAMP 709J Sports Medicine - PeaceHealth Sacred Heart
FAMP 709KF Rural Inpatient Family Medicine - Campus for Rural Health – Klamath Falls
FAMP 709L Rural Sub-I Family Medicine – Campus for Rural Health – Klamath Falls
FAMP 709M Integrative Medicine Clinic
FAMP 709P Sub-I Family Med at Providence Milwaukie
FAMP 709ST Rural Hospice - St. Charles Prineville
FAMP 709S Sports Medicine - OHSU
FAMP 709T Focused Clinical Elective
FAMP 709U Rural Integrative Behavioral Health
FAMP 709W Sub-I Fam Med at SWWMC
FAMP 709X Family Medicine Special Elective
FAMP 710R Rural Family Medicine Experience

FAMP 730 FM Core Clinical Experience

Family Medicine

Course Purpose Statement: The purpose of the Family Medicine core clinical experience is for students to learn how access, continuity, comprehensiveness, coordination, and context of care improves the health of individuals, families, and communities. Students will also learn about the patient centered medical home, population health and the role of the physician in health policy advocacy. Students will care for patients of all ages in a variety of settings, which may include ambulatory clinics, nursing facilities, hospitals, athletic training rooms, and urgent care.

Special Notes: If placed at a rural site, travel reimbursements may be provided, dependent upon availability.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Various
Grading Method: 5-tiered Letter Grade
Type: Core
Credit: 6
Available through the Lottery: Yes

Core Clinical Experiences
FAMP 731A FM Continuity Core

Family Medicine

Course Purpose Statement: The purpose of the Family Medicine Continuity Core clinical experience is to augment the Family Medicine Core experience with an additional four weeks in the same clinical environment to allow for an enhanced continuity experience. Working with their clinic, students tailor the experience to allow exploration of specific aspects of the field of Family Medicine in greater depth (for example additional adolescent, maternity, or geriatric care, inpatient, procedures, or sports medicine). Students will learn how access, continuity, comprehensiveness, coordination, and context of care improve the health of individuals, families, and communities. Students will also learn about the patient centered medical home, population health and the role of the physician in health policy advocacy and will complete a clinic-based project. Dedicated time is built in for project work and medical knowledge study. Students should approach this experience with flexibility of schedule and transportation as students will care for patients of all ages in a variety of settings, which may include ambulatory clinics, nursing facilities, hospitals, home visits, group visits, athletic training rooms, and urgent care. Students will simultaneously satisfy requirements for: Family Medicine core experience and the continuity experience.

Required Prerequisite(s): None

Duration: Eight Weeks

Core Clinical Experiences
Course Purpose Statement: The Family Medicine Rural Immersive experience will allow students an opportunity to immerse themselves in, and to explore the career choice of, rural Family Medicine. Students will work with select FM rural preceptors for twelve consecutive weeks at one rural site. As student skills progress, a high level of autonomy is allowed and students care for the full spectrum of patients and participate in the multitude of procedures available to the field of Family Medicine. Students will be engaged with the community through work on a community project and dedicated time is incorporated to complete this work as well as medical knowledge study. Students who complete the Rural Immersive will gain a comprehensive understanding of Family Medicine in a rural context and will learn concepts in rural medicine, FM Core, and community health. Continuity concepts will span the twelve weeks. Students will simultaneously satisfy requirements for: Family Medicine core experience, the rural experience, and the continuity experience.

Special Notes: Communicate rural site preference to Course Coordinator. Site preference is not guaranteed. Housing is provided. Travel reimbursements may be provided, dependent upon availability.

Required Prerequisite(s): None

Duration: Twelve Weeks
Site(s): Various
Grading Method: 5-tiered Letter Grade

Internal Medicine
IMED 730 IM Core Clinical Experience

Internal Medicine

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or dangerous conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

Core Clinical Experiences

**IMED 731A IM Continuity Core: Hospital-based**

Internal Medicine

**Course Purpose Statement:** In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or dangerous conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

Students will develop a longitudinal relationship with key faculty, and focus on interdisciplinary care, evidence-based medicine, quality improvement and patient safety in the hospital setting. Safe transitions of care from the unit to home/ICU/skilled nursing will be an emphasis.

**Required Prerequisite(s):** None

**Duration:** Eight Weeks  
**Site(s):** Various  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Continuity Core

**IMED 731B IM Continuity Core: Inpatient/Ambulatory**

**Internal Medicine**

**Course Purpose Statement:** The purpose of the Internal Medicine continuity core clinical experience is for students to develop clinical diagnosis, reasoning and communication skills in the care of adult patients with a wide range of acute and chronic, multi-organ system disease in both the ambulatory and hospital settings, with a focus on transitions of care. Students will have the opportunity to see post-hospitalization patients in clinic and to see hospitalized patients during their clinic weeks in order to better understand the patient context of complex transitions of care. They will work in an interdisciplinary team to better understand everyone’s role in both settings. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans.

As part of this clinical experience students will work one on one with outpatient attendings in a fast paced outpatient practice where they will further enhance their time management and agenda setting skills. In addition, students will experience full breadth and depth of the practice of general internal medicine.

Neurology
**NEUR 730 Neurology Core Clinical Experience**

**Neurology**

**Course Purpose Statement:** The purpose of the Neurology core clinical experience is for students to learn the principles and skills underlying the recognition and management of the neurologic diseases that a general medical practitioner is most likely to encounter in practice. These include acute and chronic diseases of the brain, spinal cord, peripheral nervous system, and muscles. Students will be able to perform a neurological history and examination across the developmental spectrum to create an ordered differential diagnosis and initial treatment plan. This includes the ability to interpret common neurological diagnostic testing, and apply basic neuroscience principles as they care for patients. Students will understand the role of a consultant in the care of patients with neurological disease in both inpatient and outpatient settings.

Obstetrics and Gynecology
# OBGY 730 OBGYN Core Clinical Experience

**Obstetrics and Gynecology**

**Course Purpose Statement:** The purpose of the Obstetrics and Gynecology core clinical experience is for students to 1) develop a basic understanding of the care of pregnant women including prenatal care, labor and delivery and postpartum care and; 2) to acquire a basic knowledge of gynecology including fertility and family planning. Students will learn to evaluate and manage obstetric and gynecologic conditions using medical and surgical treatments in both inpatient and outpatient settings.

**Required Prerequisite(s):** None

**Duration:** Four Weeks

**OBGY 731 OBGYN Continuity Core**

**Obstetrics and Gynecology**

**Course Purpose Statement:** The purpose of the Obstetrics and Gynecology Continuity Core clinical experience is to offer individualized learning experiences that are relevant to a variety of future specialty choices. Students will develop a basic understanding of the care of pregnant women including prenatal care, labor and delivery and postpartum care and; acquire a basic knowledge of gynecology including fertility and family planning. Students will learn to evaluate and manage obstetric and gynecologic conditions using medical and surgical treatments in both inpatient and outpatient settings. This clinical experience will allow students to individualize their learning experience to be relevant for a variety of a future specialty interests. These options may include: a. Mother-Baby care (Pediatrics or Family Medicine), b. High risk obstetrics and prenatal diagnosis, NICU, c. OB Anesthesia, d. Women's radiology, e. Cancer, chemotherapy, radiation therapy, f. Family planning and abortion care, g. Reproductive endocrinology and infertility, h. Minimally invasive surgery (General Surgery/Urology), i. Adolescent medicine (Pediatrics or Family Medicine)

The longer timeline of this rotation will promote the likelihood of more frequent involvement in vaginal and operative deliveries, office procedures, and surgery.

Pediatrics
PEDI 730 Pediatrics Core Clinical Experience

Pediatrics

Course Purpose Statement: The purpose of the Pediatric Core clinical experience is for students to learn the basics of history-taking, perform age-appropriate physical exams, and develop assessments and plans for infants, children and adolescents. Students will develop an understanding of the unique healthcare needs of pediatric patients. Students will identify age specific milestones in children and learn basic management of children with special healthcare needs. Students will be exposed to both general and specialty pediatric patients in inpatient and outpatient settings.

Psychiatry
PSYC 730 Psychiatry Core Clinical Experience

Psychiatry

Course Purpose Statement: The purpose of the Psychiatry Core clinical experience is for students entering any field of medicine to perform a thorough mental status evaluation, learn the basics of psychiatric disease and psychopathology, utilize appropriate psychopharmacology and perform a psychiatric risk assessment. Students will participate in the management of complex psychiatric patients. Students will work effectively within a multidisciplinary team, demonstrate appropriate management of boundaries with psychiatric patients and demonstrate professionalism in their interactions with patients, colleagues and staff. Students may see patients in both inpatient and outpatient settings.

Students will be assessed in the below competencies as well as those assessed in the Core experience corresponding to their RSP 741 primary care speciality.

Surgery
SURG 730 Surgery Core Clinical Experience

Surgery

Course Purpose Statement: The purpose of the Surgery Core clinical experience is for students to participate in the care of the surgical patient along the continuum of pre-operative assessment, intraoperative and non-operative management, and post-operative care. Students will learn various methods of wound care and gain experience in suturing and knot tying. Students will learn basic trauma care by participating in the evaluation and stabilization of the acutely-ill or injured patient. Students will see patients in both inpatient and outpatient settings.

Intersessions and Scholarly Project
**INTS 770 Assessment**

School of Medicine

**Course Purpose Statement:** Students will demonstrate their knowledge and understanding on established biomedical scientific and clinical science principles fundamental to the healthcare of patients and populations. The following seven Subject Examinations must be completed by week 2 of Block 17: MedU Family Medicine Assessment, Internal Medicine Shelf, Pediatrics Shelf, Psychiatry Shelf, Neurology Shelf, OBGYN Shelf, and Surgery Shelf (Shelf Exams administered by NBME). Exams will be held on the Friday of the week you select and begin at 9am. Exams are 2 hours 45 minutes plus a 15 minute optional tutorial, totaling 3 hours. Start times and exam duration for students with reasonable accommodations will vary. Please contact CASA for accommodation times. More information on the NBME Clinical Science Exams can be found here.

**Special Notes:** Any dates for this course that have an astrick * next to them will have AM and PM testing sessions available. You must take an AM testing session in order to take a PM testing session.

Approximately three weeks prior to your exam time, CASA staff will email you a survey requesting important information about your upcoming exams. You must indicate which exam you wish to take no later than the deadline indicated on the email. Failure to do so will result in a 'W' on your transcript. You may enroll in two concurrent testing intersessions or a testing intersession concurrent with a scholarly project block. To do so, please contact Matthew Rempes at rempes@ohsu.edu after the close of the Core and Test Intersession lottery.

**Required Prerequisite(s):** None

**Duration:** One Week

**Site(s):** OHSU

**Grading Method:** Scaled Percentage Score and Pass/No Pass

**Type:** Shelf Exams

**Credit:** 1

**Available through the Lottery:** Yes

Intersections and Scholarly Project
**INTS 770 Policy: Adding/Dropping Testing Intersessions**

Students may add an available testing intersession to their schedule up to eight weeks prior to the start of the session. A student wishing to add testing intersession to their schedule with less than eight weeks’ notice will require the approval of the Assessment Coordinator.

Students may drop a testing intersession no later than Friday 2 weeks prior to the exam date (approx. 2 weeks)*, after which they will not be allowed to drop without resulting in a “W” on their transcript.

*Students who drop a testing intersession with less than eight weeks’ notice, will not be eligible to add clinical coursework. They may be eligible to register for Scholarly project work if they have submitted a proposal and it has been approved or Intersessions if space is available.
**INTS 771 Cancer**

School of Medicine

**Course Purpose Statement:** Students who complete this intersession will be able to integrate basic and clinical science knowledge and principles of health care delivery related to cancer and oncology. Students will begin by reviewing cases presented during the Foundation of Medicine blocks, and any relevant cases encountered during their clinical experiences. In didactic sessions and small groups, they will examine recent literature to understand the mechanisms underlying development of cancer and its progression, including those mechanisms associated with cancer treatment and prevention. Several types of cancer will be explored, discussed and compared. Students will participate in a variety of activities in the OHSU clinical and scientific enterprise to support the application of knowledge to the delivery of health care for patients. This intersession will emphasize key basic science concepts of cancer and may build on some or all of the following threads: anatomy, embryology, histology, cell biology, genetics, biochemistry, nutrition, physiology, pathology, pharmacology, microbiology and immunology threads as well as communication, ethics, professionalism, epidemiology, bio statistics, informatics, evidence-based medicine, and health policy, quality and safety that were introduced during the Foundation of Medicine blocks.

**Required Prerequisite(s):** None

**Duration:** Two Weeks

**Site(s):** Various

**Grading Method:** Pass/No Pass

**Type:** Required Intersession

**Credit:** 2

**Available through the Lottery:** Yes

INTS 772 Cognitive Impairment
School of Medicine

Course Purpose Statement: Students who complete this intersession will be able to integrate basic and clinical science knowledge and principles of health care delivery related to cognitive impairment. Students will begin by reviewing cases presented during the Foundation blocks, and any relevant cases encountered during their clinical experiences. In didactic sessions and small groups, they will examine recent literature to understand the neuropathological mechanisms underlying development of cognitive impairment across the lifespan. Methods and tools to assess the degree of impairment and prognosis for recovery will be discussed. Impairments associated with different cognitive functions (e.g., memory, attention), will be explored, discussed and compared. Students will participate in a variety of activities in the OHSU clinical and scientific enterprise to support the application of knowledge to the delivery of health care for patients. This intersession will emphasize key basic science concepts of neural functioning and may build on some or all of the following threads: anatomy, embryology, histology, cell biology, genetics, biochemistry, nutrition, physiology, pathology, pharmacology, microbiology and immunology threads as well as communication, ethics, professionalism, epidemiology, bio statistics, informatics, evidence-based medicine, and health policy, quality and safety that were introduced during the Foundation of Medicine blocks.

NEPH 771 Nephrology Intersession
School of Medicine

Course Purpose Statement: The Nephrology Intersession is a two week elective course and will provide interested students with an opportunity to more deeply engage with the basic and clinical science required for the care and treatment of patients with kidney disease and diseases associated with fluid and electrolyte imbalances or hypertension. The structure of the course will involve both case-based foundational knowledge review and clinical rotations. Week 1: Basic science and clinical pathophysiology review delivered via pre-assigned independent reading, didactics, and small group discussion of cases. Week 2: Clinical applications with opportunities to participate on the Renal Consult, ESRD, or Renal Transplant services.

Required Prerequisite(s): Successful completion of USMLE Step 1

Course Director will not waive prerequisites for this course.

Duration: Two Weeks
Site(s): Various
Grading Method: Pass/No Pass
Type: Elective Intersession

SCHI 702 Scholarly Project

School of Medicine

Course Purpose Statement: Scholarly Projects is an in-depth investigation of topics of interest to medical students during the course of their undergraduate medical education (UME) experiences with the goal of creating critical thinkers and lifelong learners. Students who complete Scholarly Projects will be able to think critically about complex clinical problems; expand beyond the established curriculum to investigate topics and problems in more depth; identify, define, and answer important questions relevant to clinical practice and healthcare delivery; and work effectively within a learning community. Students will also understand and apply principles of professionalism, ethics, communication, and collaboration while pursuing their projects.

Required Prerequisite(s): Introduction to Scholarly Projects (Year 1)

Duration: One Week
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Scholarly Project
Credit: 1
Available through the Lottery: Yes

Elective Experiences
Anesthesiology & Perioperative Medicine
ANST 701A Anesthesiology Research
Anesthesiology & Perioperative Medicine

Course Purpose Statement: The Research Elective Request form must be signed off by the faculty member, department clerkship coordinator and the Curriculum and Student Affairs office prior to starting. Students may arrange for laboratory or a clinical research experience in anesthesiology, primarily in the pulmonary and cardiovascular physiology or pain management. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 4 weeks on a project. The research elective is intended for students who think they might be interested in pursuing a career in academic anesthesiology who would like more experience with the scientific process. Please refer to the department website (www.ohsu.edu/anesth) “Research” for topics and mentors.

Special Notes: Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Research Elective Request Form

- Duration: Four Weeks
- Site(s): OHSU
- Grading Method: Pass/No Pass
- Type: Research
- Credit: 4
- Available through the Lottery: No

ANST 709A Anesthesiology
Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either a faculty physician or both a faculty physician and an anesthesiology resident. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. This elective requires weekly written assignments and a final exam, submitted through Sakai.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

ANST 709B Anesthesiology-Obstetrics
Anesthesiology & Perioperative Medicine

**Course Purpose Statement:** Students will receive instruction on anesthetic management of obstetric patients. Instruction will include management of complicated delivery and other obstetric related issues.

**Required Prerequisite(s):** OBGY 730 and ANST 709A

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.*

**Duration:** Four Weeks

**Site(s):** OHSU

**Grading Method:** 5-tiered Letter Grade

**Type:** Clinical (Patient Care)

**Credit:** 4

**Available through the Lottery:** Yes

**ANST 709D Anesthesiology ICU**  
Anesthesiology & Perioperative Medicine

**Course Purpose Statement:** Students receive supervised instruction in components of critical care medicine specific to post-operative care of surgical and cardiac and thoracic patients. The rotation emphasizes: 1) airway management, 2) circulatory support, 3) metabolic demands, 4) infection prevention in critically ill patients. This will emphasize the physiological changes that occur in our post-operative patients and give the students good understanding of said applied physiology. The medical student will be expected to review and present patients on a daily basis, make up a sound, evidence-based plan on care, and work with the ICU team to implement the care of patients currently in the ICU. The student is expected to be prepared to start team ICU rounds at 0800, and to participate in patient care until dismissed by the attending or fellow after afternoon sign out. The student is expected to come in to round, including both weekday and weekend days, following the below schedule.

- Week 1: Monday through Friday
- Week 2: Sunday through Thursday
- Week 3: Monday through Saturday
- Week 4: Monday through Friday

**Required Prerequisite(s):** SURG 730 and IMED 730

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. **ANST 709E Global Anesthesia**

Anesthesiology & Perioperative Medicine

**Course Purpose Statement:** One MS4 each year is offered the opportunity to travel to an underserved international community and do anesthesia along with an OHSU faculty. The purpose of the elective is to learn about some of the issues and barriers to global health in general, and global anesthesia specifically. There are typically several available trips per year, so the selected student can choose among them for a date range that fits with their schedule and a country/culture in which they are interested. This opportunity is funded by a fellowship created by retired physicians John and Betty Thompson, and requires attending a pre- and post-dinner, as well as keeping a journal during the trip. Students must submit a CV and statement of interest to Dr. Dawn Dillman by May 15th of their MS3 year, and will be notified by May 31st.

If there is a travel warning, we will not be offering this elective.

(http://travel.state.gov/content/passports/english/alertswarnings.html)

**Special Notes:** Department approval is required for this elective. It will not be available for registration through the lottery. Please follow the directions above to apply. If approved for this elective, please forward your approval to Kaitlin Seymore at seymore@ohsu.edu

**Required Prerequisite(s):** Application to program and instructor consent

*Course Director will not waive prerequisites for this course.*

Elective Experiences
ANST 709H Anesthesiology - PeaceHealth Sacred Heart
Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either an attending faculty physician. This elective requires weekly written assignments and a final exam, submitted through Sakai. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): Site approval

Course Director will not waive prerequisites for this course.

Elective Experiences
ANST 709N Neuroscience Critical Care
Anesthesiology & Perioperative Medicine

Course Purpose Statement: The medical student is expected to attend all activities in the Neurosciences Critical Care Unit (NSICU) during this rotation. Rounds are structured toward active participation with distinct roles for each member of the team (attending, fellow, resident, nurses, pharmacist, and social worker). Detailed critical care rounds occur with a "systems-approach" to each patient and special emphasis is laid on bedside teaching as it pertains directly to patient care. Multiple goal-directed rounds occur through the course of the day (Combined Neurosurgical rounds, Critical Care rounds, Radiology rounds, Evening rounds). The expectation is to provide exposure to a few procedures during this rotation. These procedures would include lumbar puncture, intubation, and arterial and central venous line placements. Medical students are expected to keep an ongoing log of procedures that they have observed over the course of their training. Medical students are expected to participate actively in patient care and under the direction of housestaff, fellows and attendings in the NSICU. Overnight call will be required once weekly.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

ANST 709P Pain Management
Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction in clinical aspects of pain management including post-operative and post traumatic acute pain problems managed by epidurals, patient-controlled analgesia (PCA), various regional blocks (i.e., intercostal, brachial plexus, etc.), and management of a full range of chronic pain and cancer pain problems. The multidisciplinary approach to pain control is emphasized. Students must have completed their Medicine and Surgery clerkships prior to entering the elective.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. ANST 709SC Anesthesiology - St. Charles Bend

Anesthesiology & Perioperative Medicine

Course Purpose Statement: Students receive supervised instruction and gain experience with the clinical aspects of anesthesiology by working in the operating room with either an attending physician. This elective requires weekly written assignments and a final exam, submitted through Sakai. The course emphasizes: 1) perioperative patient care with a focus on intraoperative anesthetic and non-operative pain management, 2) using scientific principles and practices of anesthesiology to develop individual patient plans, and 3) developing technical skills involved with airway management, tracheal intubation, and IV infusion therapy. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center. Pioneer Memorial Hospital (Prineville) is a Level IV Trauma Center.

Special Notes: Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class elective course number and name, your top three choices of block dates, if you will have met all prerequisites, and if you need housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Kaitlin Seymore. Generate one email per course. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): Completed Site Coordinator Pre-Approval Form

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

ANST 709X Anesthesia Special Elective
Anesthesiology & Perioperative Medicine

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of Anesthesia. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting.

Special Notes: Students must complete the Special Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Special Elective Request Form

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. Dermatology
DERM 701A Research in Dermatology

Dermatology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of Dermatology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

Special Notes: Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Research Elective Request Form; approvals from Course Director after a plan for study has been completed with consultation with department faculty and reviewed by same.

**DERM 709A Clinical Dermatology**

**Dermatology**

**Course Purpose Statement:** This general elective is intended for those students pursuing primary care or non-dermatologic subspecialties who are interested in learning the basics of Dermatology. Students are exposed to the breadth of Dermatology and spend the majority of their time in the busy OHSU and VA faculty clinics. Clinics are also held at the OHSU Lake Oswego and Beaverton Clinics, and students may be expected to travel to these sites which are approximately within 10 miles of the main OHSU campus. Rotations on the inpatient consultation service, dermatologic surgery (including exposure to the Mohs procedure) and dermatopathology are also provided. Attendance at weekly departmental Grand Rounds, educational conferences, and student-directed didactic sessions is required. Evaluation is based on clinical interactions, a written examination and an oral presentation required at the end of the rotation which is given to the course director and residents. There is no overnight or weekend call.

**Required Prerequisite(s):** None

**DERM 709C Subspeciality Dermatology**

**Course Purpose Statement:** This advanced elective is intended for those students interested in pursuing a career in Dermatology. Students spend much of their time in the OHSU faculty clinics focused on subspecialty areas of Dermatology including psoriasis, atopic dermatitis, contact dermatitis, pediatric dermatology, autoimmune dermatology and Mohs surgery. Experience in the Dermatology VA clinics and Dermatopathology may also be provided. Clinics are also held at the OHSU Lake Oswego and Beaverton Clinics, and students may be expected to travel to these sites which are approximately within 10 miles of the main OHSU campus. Students will interact with a variety of faculty to ensure exposure to both common and uncommon dermatological problems. Attendance at weekly departmental Grand Rounds and educational conferences is required. Evaluation is based on clinical interactions, a written examination and an oral presentation required at the end of the rotation to the course director and residents. There is no weekend or overnight call.

**Required Prerequisite(s):** DERM 709A

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.*

**Duration:** Four Weeks  
**Site(s):** OHSU; VA, Doernbecher Children's Hospital, Portland area Dermatology clinics  
**Grading Method:** Pass/No Pass  
**Type:** Special Elective  
**Credit:** 4  
**Available through the Lottery:** Yes

**DERM 709H Dermatology - PeaceHealth Sacred Heart**

**School of Medicine**

**Course Purpose Statement:** The purpose of the Eugene Dermatology elective is for students to gain experience and proficiency in the care of patients with a wide range of dermatological diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology and common procedures. Students will perform KOH slide preparations, biopsies, and excisions. Students will see patients in both the office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will contribute to a weekly clinical case conference. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

**Required Prerequisite(s):** Site approval

**Duration:** Four Weeks  
**Site(s):** PeaceHealth Sacred Heart Medical Center, Eugene

RADD 709A Diagnostic Radiology - General

Diagnostic Radiology

Course Purpose Statement: This elective includes 12 hours per week didactic instruction in film reading and appropriate radiologic procedures in patient work-up. Students are expected to attend daily conferences, and spend time on rotations in Chest, Bone, CT, Neuroradiology. Students will also choose a topic of their own interest on which they will prepare a presentation that will be presented at the end of the elective.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

RADD 709B Dotter Interventional Institute-Interventional Radiology

Course Purpose Statement: To gain basic understanding of the minimally invasive, image guided diagnostic and therapeutic techniques that the specialty of interventional radiology can provide to the current healthcare patients. Procedural experience includes: interventional oncology, peripheral vascular and aortic interventions, embolizaion, TIPS, central venous catheter placement, drainage and feeding tube management, as well as venous/lymphatic interventions. Clinical experience includes: IR outpatient clinic for pre and post procedural patient management as well as IR inpatient management in collaboration with many health care teams including several multidisciplinary patient management groups.

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. **RADD 709D Breast Disease**

**Diagnostic Radiology**

**Course Purpose Statement:** This month-long clinical elective targeted to advanced level medical students will provide an in-depth exposure to multiple key disciplines relating to breast disease including radiology, pathology, surgery, medical genetics, medical oncology, radiation oncology and specialized clinical breast examination. Participants will also be linked to patients with breast cancer and longitudinally follow these patients throughout the elective to learn about interdisciplinary decision-making in managing breast cancer at various stages of the disease and experience the process from the patient’s perspective.

**Required Prerequisite(s):** Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. RADD 709E Advanced Interventional Radiology

Diagnostic Radiology

Course Purpose Statement: This is an advanced four week elective for students who have already completed the basic interventional radiology elective (RADD 709B) and are looking to delve deeper into the patient care and research aspects of the field. Rotation highlights will include time in the Interventional Radiology Clinics, attending multidisciplinary case conferences, serving on the inpatient IR consult service, with possible additional time in the translational research lab. This is not a primary procedural based rotation, but rather, focuses on the evaluation of patients before and after their procedures, and on the critical role of clinical decision making. Students will be expected to take “buddy call” on one weekend per week and one weekend with the scheduled on call resident/fellow during the elective. Additionally, the student will prepare one didactic lecture on a topic of their choosing to present at weekly Friday IR didactic conference.

Required Prerequisite(s): RADD 709B

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

RADD 709F Multidisc Approach to Pulm Dis
Diagnostic Radiology

Course Purpose Statement: This organ-based four-week elective is targeted to advanced level medical students interested in a comprehensive multidisciplinary learning experience focusing on pulmonary diseases. Trainees will spend time in multiple clinical specialties including pulmonary medicine, pulmonary (non-cardiac) surgery, pulmonary medical and radiation oncology, pulmonary pathology and chest radiology and actively participate in the weekly OHSU Multidisciplinary Lung Cancer Clinic. This course will combine a traditional clinical experience at multiple sites including OHSU, VAH, and Adventist Medical Center with exposure to a rich array of electronic resources. This format will provide a more flexible approach to learning.

Required Prerequisite(s): IMED 730
Course Director will not waive prerequisites for this course.

Duration: Four Weeks

RADD 741X Radiology Special Continuity Elective

Diagnostic Radiology

Course Purpose Statement: The purpose of this continuity clinical elective is for students to have more in-depth experience in Diagnostic Radiology. Students must make special arrangements with a faculty member and the department for an individual program of study. To fulfill Continuity Clinical Experience graduation requirement, the experience must be minimum 8 full-time weeks in duration or equivalent effort over a longer duration if experience is not full-time. Experience must allow students to maintain continuity in at least 2 of the following 3 ways:

- Continuity with the same patient(s)
- Continuity with the same health system
- Continuity with the same preceptor(s)

Special Notes: The Continuity Special Elective Request form must be signed off by the faculty member, department Clinical Director, portfolio coach, Associate Dean for UME, and the Curriculum & Student Affairs office prior to starting. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form.

Required Prerequisite(s): Completed Continuity Special Elective Request Form

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Continuity Clinical (Patient Care)
Credit: 8
Available through the Lottery: No

Emergency Medicine
EMED 709A Sub-I Emergency Medicine - OHSU

Emergency Medicine

Course Purpose Statement: This sub-internship elective provides students with an introduction to all aspects of Emergency Medicine. Students participate in the daily care of emergency patients with attending staff and residents, attend the departmental conference, and attend weekly lectures covering a broad range of topics in Emergency Medicine. An introduction to pre-hospital care and toxicology will also be included. Students will be assigned shifts at OHSU and DCH.

Required Prerequisite(s): Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**EMED 709CB Rural Emergency Medicine/Urgent Care - Campus for Rural Health - South Coast**

**Emergency Medicine**

**Course Purpose Statement:** This elective provides students with an introduction to all aspects of Emergency Medicine. Students participate in the daily evaluation, treatment and management of patients with attending staff in an urgent care clinic or emergency room or a combination of both. Students will gain an understanding of health care in a rural context. Students in this rotation are expected to participate in a community student project as well as a one hour weekly didactic class.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

**Required Prerequisite(s):** Site Approval

**Duration:** Four Weeks  
**Site(s):** South Coast  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Rural Clinical (Patient Care)

**EMED 709F Emergency Ultrasound**

Emergency Medicine

**Course Purpose Statement:** This 2 week hands-on rotation will serve as an introduction to emergency bedside ultrasound (US). Rotating students will be introduced to the core Emergency Medicine applications of bedside US (FAST, Cardiac, RUQ, Renal, DVT, Thoracic, Pregnancy and procedures) and will receive training in general ultrasound physics and principles as well as image acquisition and interpretation. Students will be expected to demonstrate competency in all three areas by the end of the rotation. The skills gained during the rotation will be applicable not just in the Emergency Department but in other fields utilizing bedside US. Rotation Guidelines and Curriculum: The rotation consists of three components: formal didactics, clinical time and self-study. Clinical Time: Will consist of 6-8 hour supervised scanning shifts in the ED. Students will be expected to complete 4 shifts per week in order to perform 75 ultrasounds by the end of the rotation. During scanning shifts, students will be supervised by the current ultrasound fellow and the fellowship director as well as other Emergency Department faculty and residents. Didactics: Didactics will take place in the form of weekly lectures covering the basic principles and applications of emergency ultrasound. In addition, students will participate in weekly QA and review processes that will allow for additional instruction and also serve as a way of assessing students’ progress. Self-Study: Students will be expected to complete assigned readings in Emergency Ultrasound Textbooks and to review instructional DVD. Students will also be expected to give a 15 minute presentation on a topic of their choice. Evaluation: Rotation will be graded on a pass/fail basis and grades will be determined by performance on all aspects of the rotation.

EMED 709H Emer Medicine - PeaceHealth Sacred Heart

Emergency Medicine

Course Purpose Statement: Students will be assigned shifts in the Emergency Departments at Sacred Heart Medical Center at RiverBend, a 432 bed quaternary care, Level II trauma facility, and at University District offering students an excellent educational and clinical experience. You will have an introduction to all aspects of Emergency Medicine; working one-on-one with Board certified Emergency Medicine physicians. Students participate in the daily care of emergency patients with attending staff and attend weekly lectures covering a broad range of topics in Emergency Medicine. An introduction to pre-hospital care and toxicology will also be included. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

EMED 709J Emergency Med - Rogue Regional

Emergency Medicine

Course Purpose Statement: A month at the Asante Rogue Regional Medical Center in Medford offers students an excellent educational and clinical experience. We are a 50K visit/year community hospital, and act as the trauma referral center for a large swath of southern Oregon and northern California. Students here work directly with board certified ED attendings--there are no residents or other students to compete with. Our emphasis is on clinical learning: you'll get direct one-on-one lectures, see lots of patients, and get immediate feedback on presentation skills. We prefer students who are planning on a residency in Emergency Medicine--this will be a great rotation for you to broaden your horizons and to complement your academic center learning experience. Housing may be available, depending on the month. Please inquire.

Required Prerequisite(s): Either FAMP 730 or IMED 730 as well as either SURG 730 or OBGY 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements.

IMED 710K Clinical Ultrasound
Emergency Medicine

Course Purpose Statement: This clinical course provides foundational skills in the use of ultrasonography to augment the physical examination. Basic ultrasonography skills for the assessment of normal anatomy and physiology will be learned and applied to the differentiation of normal from basic pathologic states commonly encountered in the primary care setting. Students will learn the limitations of ultrasonography and when further imaging is appropriate for the care of the patient. The goal of the course is to provide foundational skills in limited ultrasonography that can be further developed during residency training. The course will include didactic sessions, simulation modules, deliberate practice in the simulated and supervised clinical settings, and small group discussions. Concurrent and summary feedback will be provided by ultrasonographers, real time virtual performance assessment tools such as the SonoSim device, peers, residents, and faculty.

EMED 709SC Emergency Medicine-St. Charles

Emergency Medicine

Course Purpose Statement: This elective provides students with an introduction to all aspects of Emergency Medicine. Students participate in the daily care of emergency patients with attending staff. Students will be assigned shifts in the Emergency Departments at St. Charles Bend, St. Charles Redmond, or Pioneer Memorial Hospital. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center. Pioneer Memorial Hospital (Prineville) is a Level IV Trauma Center.

Special Notes: Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) you name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), wheher or not you have met all prerequisites, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Kaitlin Seymore. Generate one email per one course. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): Completed Site Coordinator Pre-Approval Form

Duration: Four Weeks
Site(s): St. Charles Health System, Bend;
St. Charles Redmond, Redmond;
Pioneer Memorial Hospital, Prineville
Grading Method: 5-tiered Letter Grade

Elective Experiences
EMED 709X Emergency Medicine Special Elective

Emergency Medicine

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of Emergency Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting. Special Notes: Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval. If you are approved, forward the email confirming this to Marcia Decaro at decaro@ohsu.edu.

Students must also complete the Special Elective Request form in order to take this course. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro at decaro@ohsu.edu.

Required Prerequisite(s): Department approval and completed Special Elective Request Form

Duration: Four Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade

EMED 710A Introduction to Emergency Medicine

Emergency Medicine

Course Purpose Statement: This elective provides students with an introduction to the field of Emergency Medicine. Students participate in the daily care of patients with attending staff and residents, attend weekly lectures covering a broad range of topics in Emergency Medicine, and participate in a suturing skills, splint application, and basic ultrasound lab with a PGY3 EM resident. Students will be assigned shifts at OHSU and possibly the Peds ED in Doernbecher.

Required Prerequisite(s): FAMP 730 or IMED 730 or SURG 730 or OBGY 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Two Weeks
Site(s): OHSU; DCH
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: Yes

**EMED 741X EM Continuity Clinical Special Elective**

**Emergency Medicine**

**Course Purpose Statement:** The purpose of this continuity clinical elective is for students to have more in-depth experience in Emergency Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study. To fulfill Continuity Clinical Experience graduation requirement, the experience must be minimum 8 full-time weeks in duration or equivalent effort over a longer duration if experience is not full-time. Experience must allow students to maintain continuity in at least 2 of the following 3 ways:
- Continuity with the same patient(s)
- Continuity with the same health system
- Continuity with the same preceptor(s)

**Special Notes:** The Continuity Special Elective Request form must be signed off by the faculty member, department Clinical Director, portfolio coach, Associate Dean for UME, and the Curriculum & Student Affairs office prior to starting. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form.

**Required Prerequisite(s):** None

**Duration:** Eight Weeks  
**Site(s):** OHSU  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Continuity Clinical (Patient Care)  
**Credit:** 8

ETOX 709A Medical Toxicology

Emergency Medicine

Course Purpose Statement: The Oregon Poison Center Medical Toxicology rotation is highly recommended for students with interests in Emergency Medicine, Pediatrics, Family Medicine, Internal Medicine, Psychiatry, or Occupational medicine. The students role will be in discussing cases throughout our calling area (Oregon, Alaska, and Guam) and participating in conferences, bedside consultations, and assigned reading materials. A weekly presentation on an historical toxic event is required. This is an excellent review of basic pharmacology as it applies to therapeutic use of medications and overdose situations. Additional topics covered include environmental toxicology, occupational toxicology, drug abuse toxicology, and laboratory screening for drugs. Oregon Poison Center staff provide students with an excellent opportunity to become familiar with the recognition and management of acute toxicologic emergencies. Mon-Fri didactics and conference. If space is available after the lottery, this course may be able to offer students two week rotations. Contact the CASA office to set this up.

Required Prerequisite(s): None

Duration: Four Weeks  
Site(s): OHSU  
Grading Method: Pass/No Pass  
Type: Non-Clinical

Family Medicine
FAMP 709A Sub-I Family Medicine

Course Purpose Statement: A four-week sub-internship in Family Medicine is available for medical students interested in a family medicine residency who have completed the core. The sub internship is an intensive, rigorous experience in which students will spend two weeks on inpatient service and two weeks in one of four OHSU Family Medicine outpatient clinics. As much as possible, sub interns will be given opportunities to demonstrate skills at the level of an incoming intern. On inpatient service students will be responsible for closely following patients, managing their care under the guidance and supervision of residents and faculty, and presenting their patients at morning report. Students will also be expected to work with their teams on early evening coverage of patient calls, ER visits, and inpatient care. In clinic, students will work with a senior resident or faculty preceptor, seeing a wide variety of patients independently and observing or being observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and/or do dictations and to help provide ancillary care such as interpreting x-rays, reading ECGs, etc.

Required Prerequisite(s): All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes, rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

FAMP 709AB Family Medicine Inpatient

Family Medicine

Course Purpose Statement: The purpose of the Family Medicine Inpatient Elective is for students to develop clinical diagnosis, reasoning and communication skills in the care of adult, pediatric and potentially obstetric patients with a wide range of acute, chronic, and multi-organ system disease in the inpatient hospital setting. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans. On the Family Medicine service, students will learn how access, continuity, care coordination, and psychosocial factors affect the health of individuals and families and learn how to apply these factors to the care of individuals in the inpatient setting. If there are no openings available, please contact family medicine course coordinator for up-to-date information regarding open slots.

FAMP 709D Community FamMed-PeaceHealth Sacred Heart

Family Medicine

**Course Purpose Statement:** The course will provide a community experience with a Family Medicine/Osteopathic physician clinic. Students will spend time with mostly chronic disease management, osteopathic manipulative treatment, or preventative care. As much as possible, students will be given opportunities to demonstrate skills at the level of an incoming intern. In clinic, students will see patients independently and observe or be observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and to help provide ancillary care. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, Oregon (locations are approximately 100 miles south of the main OHSU campus). Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no residents practicing at these hospitals or community clinics so students may have greater opportunity for hands on care and one to one mentoring with physicians.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

FAMP 709J Sports Medicine - PeaceHealth Sacred Heart

Family Medicine

Course Purpose Statement: Students will actively participate in patient care in the Slocum Center for Orthopedics and Sports Medicine. This elective is clinically oriented with emphasis placed on examination techniques and the diagnosis and treatment of common orthopedic and sports injuries. Students will participate in both surgical and non-surgical approaches to injuries. Opportunities may exist for students to participate with their attending physician at local school athletic events. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, Oregon (locations are approximately 100 miles south of the main OHSU campus). Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics, so students may have greater opportunity for hands on care and one to one mentoring with physicians.

Special Notes: Site approval is required. This elective is not available through the lottery. FAMP 709KF Rural Inpatient Family Medicine - Campus for Rural Health - Klamath Falls

Family Medicine

Course Purpose Statement: The purpose of this elective is for students to develop clinical diagnosis, reasoning, and communication skills in the care of adult patients with a wide range of acute and chronic, multi-organ system disease in the hospital setting. Students will be able to use their knowledge and clinical reasoning skills to perform basic history and physical examinations, develop differential diagnoses, order and interpret diagnostic studies, and devise basic treatment plans. Students will focus on quality improvement and patient safety in the hospital setting. Attendance at noontime lectures, morning report, inpatient rounds, and regular independent study is expected.

Special Notes: Students completing clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required inter-professional community-based project course on their first Campus for Rural Health rotation and have the option of enrolling again in subsequent rotations.

Required Prerequisite(s): IMED 730 or IMED 731A or IMED 731B

Duration: Four Weeks

Site(s): Campus for Rural Health - Klamath Falls

**FAMP 709L Rural Sub-I Family Medicine – Campus for Rural Health – Klamath Falls**

**Family Medicine**

**Course Purpose Statement:** The Klamath Falls Family Medicine Sub-Internship is an intensive, rigorous experience in which students spend one week on the inpatient wards of Sky Lakes Medical Center with the resident medical team. This elective will introduce the medical student to ambulatory medicine in a rural family practice setting. Students have the option of doing one week of maternal and newborn care in the Family Birth Center. For the remainder of the time, students will see patients in the Cascades East Family Practice Clinic, under a faculty or resident preceptor. The medical student will have the opportunity to explore the career choices in family medicine and directly experience a family practice residency program. Students are supervised by faculty and family medicine residents during their clerkship. They will be given the opportunity to interview and examine clinic patients independently and with the assistance of faculty/residents. They will attend daily noon teaching conferences as well as Grand Rounds and other learning opportunities. Thursday afternoon workshops should also be attended. There is some flexibility in order to meet the student’s specific objectives.

**Special Notes:** Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Kristi Coleman, MD prior to registering in the Dean’s Office. To apply, please contact Dr. Coleman at (541) 274-6733, coleman@ohsu.edu and forward your approval to Marcia Decaro at decaro@ohsu.edu in order to register for this elective during the dates you were approved for.

Housing is provided. Travel reimbursements may be provided dependent upon availability.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

**Required Prerequisite(s):** All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730).

**Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.**

FAMP 709M Integrative Medicine Clinic

Family Medicine

Course Purpose Statement: In this elective, students will gain an understanding of the term integrative medicine, gain confidence in the ability to access information resources for knowledge of complementary and alternative medicine modalities, and choose one complementary and alternative practice or topic for in-depth study and understanding. Students will participate in the integrative medicine clinic at the CWH, the Family Medicine Clinic at CHH, and will visit each of the participating CAM schools (National College of Naturopathic Medicine, Oregon College of Oriental Medicine, and Western States Chiropractic College).

Required Prerequisite(s): FAMP 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes, rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Duration: Four Weeks

FAMP 709P Sub-I Family Med at Providence Milwaukie

Family Medicine

Course Purpose Statement: A four-week sub-internship in Family Medicine is available for students who meet the required prerequisites. The sub internship is an intensive, rigorous experience in which students will spend two weeks on inpatient service and two weeks at either PMG Milwaukie Clinic or PMG Southeast Clinic. As much as possible, sub interns will be given opportunities to demonstrate skills at the level of an incoming intern. On inpatient service students will be responsible for closely following patients, managing their care under the guidance and supervision of residents and faculty, and presenting their patients at morning report. Students will also be expected to work with their teams on early evening coverage of patient calls, ER visits, and inpatient care. During the two weeks on the inpatient service students will take two overnight calls with the family medicine night float team and participate in admissions with our hospitalists. In clinic, students will work with a senior resident or faculty preceptor, seeing a wide variety of patients independently and observing or being observed by their preceptors during the course of patient care. Under the supervision of their preceptors, students will be expected to write chart notes and/or do dictations and to help provide ancillary care such as interpreting x-rays, reading ECGs, etc.

Special Notes: Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Ms. Kara Castro prior to registering in the Dean's Office. To apply, contact Kara Castro, 503-513-8930, kara.castro@providence.org and contact Kaitlin Seymore at seymore@ohsu.edu once approved in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

**FAMP 709ST Rural Hospice - St. Charles Prineville**

**Family Medicine**

**Course Purpose Statement:** This elective offers students the opportunity to work in a rural setting (Prineville, OR) with a hospice director and an interdisciplinary team. This 4-week rotation will cover communication, the interdisciplinary team, and the physician’s role (week 1); the hospice/palliative medicine approach to terminal illness (week 2); pain management (week 3), and non-pain symptom management (week 4). Highly motivated students will have the option of “working ahead” into psychological, spiritual, and ethical issues at end of life care. Students are assigned a five-patient panel (generally a cancer patient, an end-stage cardiovascular disease patient, end-stage lung disease patient, end-stage dementia or neurodegenerative disease patient, and a patient with complex psychosocial issues). The student will be expected to become conversant in the patients’ underlying disease processes, their common symptoms, late-stage manifestations, treatment strategies, and medication management. The student will be expected to see their patients on a regular basis with pastoral staff, social workers, nursing staff, and the hospice medical director. The student is expected to be actively involved in constructing and revising each patient’s plan of care. Students will be expected to attend weekly Grand Rounds (via live broadcast from St. Charles Medical Center) and other continuing medical education activities as assigned by their attending. This is a high intensity, rigorous elective experience. Ideal students are highly self-motivated, independent, and able to handle stress effectively.

**Required Prerequisite(s):** FAMP 730 or IMED 730 (certain FM or IM electives may count instead) and department approval.

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

**Duration:** Four Weeks

**Site(s):** St. Charles Hospice, Prineville

**Grading Method:** 5-tiered Letter Grade

**Type:** Rural Clinical (Patient Care)

**FAMP 709S Sports Medicine - OHSU**

**Family Medicine**

**Course Purpose Statement:** Students will actively participate in patient care in the OHSU Sports Medicine Clinics. This elective is clinically oriented with emphasis placed on physical examination techniques, and the diagnosis and treatment of musculoskeletal injuries as well as care of the athlete. These concepts will be applied to the care of professional and elite athletes, as well as grade school, high school, college and recreational athletes in the Portland Metro area. Opportunities will exist for the student to participate with their attending physicians at Portland State University, Lewis and Clark College sports medicine clinics and events. Experience may also include medical coverage for several other athletic events here in Portland. The student will also attend sports medicine conferences, family medicine grand rounds and case conferences. Some weekend commitments may be required. This rotation is for those students with a strong interest in Primary Care Sports Medicine whose goal is to provide a link between the rapidly expanding core of knowledge related to sports medicine and its application to patients in the primary care setting.

**Required Prerequisite(s):** FAMP 730

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes, rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.*

# FAMP 709T Focused Clinical Elective

**Family Medicine**

**Course Purpose Statement:** This elective is geared toward students who wish to either augment their family medicine experience with clinical experience or add exposure to outpatient clinical care. Students will have a myriad of clinic possibilities and Spanish-speaking clinics are potentially available. The students will be matched to a clinic pending a survey of their specific interests, which will be administered after students sign up for the elective. Student will gain exposure to common diagnoses in an environment that encourages problem solving and use of electronic information resources. Students will also learn about the patient centered medical home, population health and the role of the physician in health policy advocacy. Students will care for patients of all ages in an ambulatory clinic. Workload expectations for this elective will include six total clinic sessions per week plus independent study for preceptor related tasks and simulated case practice.

**Required Prerequisite(s):** None

**Duration:** Four Weeks  
**Site(s):** OHSU; Various Community Clinic Sites: Oregon and SW Washington  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** Yes

FAMP 709U Rural Integrative Behavioral Health

Family Medicine

Course Purpose Statement: Students will gain a better understanding of both the availability of resources and the delivery system of mental health services. Students will gain exposure to integrated behavioral health in a community mental health and the justice system. This elective includes inter-professional interactions with family medicine behavioral health consultants, LCSW’s, doctoral students, consulting psychiatrists, community mental health, parole and probation, and child abuse assessment center staff. Partnering agencies include Columbia Community Mental Health, Amani Center; and Columbia County Parole and Probation. Students will gain experience with an Inter-professional approach to psychiatric rehabilitation, outpatient counseling, crisis evaluation, substance abuse treatment, forensic child abuse evaluations; and parole and probation. There may be a requirements of this rotation to include the ability to attend daily (M-F) activities in Columbia County (approximately 30 min drive from OHSU).

Required Prerequisite(s): FAMP 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes, rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

FAMP 709W Sub-I Fam Med at SWWMC

Family Medicine

Course Purpose Statement: SW Washington Family Medicine Sub-Internship is an intensive, rigorous experience in which the students will spend the mornings rounding on patients and afternoons in the outpatient clinic. The medical student will do one brief presentation per week to the family medicine team. The student will write hospital progress notes on patients as directed by the FM rounding faculty. The medical student may elect to round with the adult internal medicine service on 2-4 mornings during the four week rotation to get additional exposure to inpatient adult internal medicine. Afternoon clinics - the student will have 2-4 patients per session, depending on skill level of the student.

Special Notes: Department approval is required prior to registering for this elective to ensure availability of this Sub-I. Students must have approval from Ms. Angel prior to registering in the Dean’s Office. To apply, contact Krista Angel, 360-514-7560, kangel2@peacehealth.org and forward your approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): All required clinical Core except Neurology are required (FAMP 730, IMED 730, OBGY 730, PEDI 730, PSYC 730, SURG 730). For the purpose of prerequisite requirements, continuity core and Rural immersive core are equivalent to the four week core experiences and fulfill the same prerequisites even if not specified in the catalog.

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

FAMP 741R Rural Family Medicine

Family Medicine

Course Purpose Statement: This elective is geared toward students who wish to have a robust experience working with family physicians in rural Oregon. The rural clinics arranged for this experience provide an in-depth educational experience and are approved by the department of Family Medicine. The community allows the student to learn common diagnoses in an environment that encourages hands-on problem solving at the site and use of electronic information resources. Students will be expected to attend all clinical events and participate in the community.

Special Notes: Housing may be provided dependent upon clinic site. Travel reimbursements may be provided dependent upon availability.

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): Rural sites as approved by department of FM
Grading Method: Pass/No Pass
Type: Continuity Rural Clinical (Patient Care)

Internal Medicine
AMBL 709B Ambulatory Primary Care
Internal Medicine

Course Purpose Statement: The purpose of the Ambulatory Internal Medicine elective is for students to develop skills in patient communication, population management, clinical diagnosis/reasoning and management in the care of both acutely ill and complex chronically ill adults. In this experience students work one-on-one with experienced faculty in the outpatient internal medicine clinic. Students will see patients independently, obtain an accurate history and physical exam, develop a differential diagnosis and plan. They will interpret labs and others test results and communicate with patients and care givers. As part of this experience, students will work collaboratively in an interprofessional team as part of patient centered medical home.

Required Prerequisite(s): FAMP 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V, IMED 730

AMBL 709G Ambulatory Practice

Internal Medicine

Course Purpose Statement: In this multi-specialty clinic, students work with the Internal Medicine Faculty in their private practices. They are exposed to patients of multiple social and economic backgrounds and gain experience in hands-on primary care of complex patients. During the rotation, the student will spend time with our geriatrician as well. Their sessions with the Internal Medicine faculty will expose them to the diverse opportunities of internal medicine including HIV care and preventive medicine. The electronic medical record and interdisciplinary approach to patients will expose them to innovative methods of outpatient medicine. The emphasis on evidence-based approaches and availability of real-time electronic information resources enhance the learning experience. Students participate in our noon conference lecture series as well as continuity clinic conference.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having completed one of the required electives listed in the prerequisites.

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Legacy Good Samaritan
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship
Credit: 4
Available through the Lottery: No

Course Director (name / email): Rebecca Harrison / harrisor@ohsu.edu
Course Coordinator (name / email): Marcie Evans / evanma@ohsu.edu
Qualified Assessor (name / email): Rebecca Harrison / harrisor@ohsu.edu

### AMBL 709S Ambulatory Practice

**Internal Medicine**

**Course Purpose Statement:** Three months advance notice to sign up or cancel. Students learn the principals of longitudinal care of adults. Students are exposed to a unique model for ambulatory education that emphasizes continuity of care among patients, residents, attending, and care teams in a patient-centered medical home. The demography of our patients include the full range of ethnicity, socioeconomic status, and disease burden and acuity. Excellent access to medical information allows students to answer everyday medical questions in real time. Students attend daily morning reports and noon conference. Exceptional exposure to community based practice setting that emphasizes intellectual curiosity and provides students an opportunity to participate in primary care internal medicine.

**Special Notes:** Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator. Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having completed on of the required electived listed in the prerequisites.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and two of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INF 709A, INF 709H, INF 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) or course director approval.

*Course Director will not waive prerequisites for this course.*

ARTh 709H Arthritis/Rheumatology - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students are expected to learn diagnosis/therapy of common rheumatic disorders, interpretation of lab tests and musculoskeletal x-rays, and simple procedures such as joint injections. Problems commonly seen include osteoarthritis, rheumatoid arthritis, systemic lupus erythematosus, osteoporosis, gout, bursitis, vasculitis and fibromyalgia. Students participate in approximately five outpatient clinics per week averaging 1-2 new patients each clinic or 4-5 return patients. No call responsibilities. Students assist and possibly perform joint aspiration/injection, tendon injections, and bursa injections. Conferences include medical Grand Rounds at Sacred Heart Medical Center, Rheumatology journal club, and daily tutorials based on assigned reading. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): Site approval

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)

CARD 709A Cardiology Consult

Internal Medicine

Course Purpose Statement: Students are expected to refine their skills at taking a cardiac history and performing an examination of the cardiovascular system. They will learn how to perform a consultation on a patient at the request of another physician and to interact productively with other physicians who have primary responsibility for the care of the patient. They will learn the role of common diagnostic tests used in cardiology for management of patients. They will gain experience in interpretation of electrocardiograms and be exposed to the role of non-invasive testing as needed. It may be possible to arrange experience watching exercise treadmill testing (primarily VA rotation). Commonly seen conditions include evaluation of chest pain syndromes, coronary artery disease, heart failure, risk assessment prior to non-cardiac surgery, valvular heart disease, and infective endocarditis. Students respond to requests for consultation by evaluating the patient, analyzing the data, preparing a diagnostic and management plan, record a note in the patient record, and present the patient to the attending physician. Students regularly interpret electrocardiograms and review them with the attending physician. No call responsibilities. Students may observe performance of treadmill exercise tests, cardiac catheterization procedures and other cardiac diagnostic tests. Students are encouraged to attend cardiology conferences that include, Multidisciplinary (Clinical Case) Conference, Cardiac Catheterization Conference, ECG Conference, Pathophysiology Conference, and other subspecialty conferences. Students work with a cardiology consulting resident (if one is assigned), a fellow, and an attending. Evaluation includes informal feedback and standard evaluations by the attending physician. The student also evaluates the educational experience during the rotation. At the end of the rotation, students will have increased skills in the assessment of patients with heart disease.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

CARD 710D Preventive Cardiology
Internal Medicine

Course Purpose Statement: This elective course will give learners exposure to clinical evaluation and management of patients at different levels of risk for ischemic cardiovascular disease, including standard care diagnostic approaches and therapeutic decisions ranging from life style changes and supplemental therapy, to use of medications, to invasive procedure such as cholesterol dialysis (LDL Apheresis). Through one-on-one or small group settings in journal club, data club, or case discussion format, students will develop ability to critically analyze literature and understand background, motivations, and political nuances of current guidelines. This elective rotation will give learners opportunities to individualize learning goals according to their background, interests and needs. The final outcome is practical knowledge on the standard-of-care approach to cardiovascular risk assessment and management.

Elective Experiences
CARD 709G Cardiology Arrhythmia

Internal Medicine

Course Purpose Statement: Cardiology/Arrhythmia Consult at Good Samaritan Hospital. Daily work with Attending Cardiologist. Objective is to gain basic experience in clinical cardiology, particularly electrophysiology. Student responsibilities include seeing patients in the hospital and in clinics, and attending/assisting in procedures such as pacemaker or defibrillator placement, electrophysiology studies, and ablation procedures. Students also practice reading approximately five EKG’s per day, and review with attending physician. Daily internal medicine conference and weekly cardiology conference.

Special Notes: This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register for this course.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

CARD 709H Cardiology - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students will be working with physicians from Oregon Cardiology, a high volume practice. They will be exposed to a full spectrum of cardiac pathology including heart artery disease, cardiac dysrhythmias, heart valve disease, and heart failure. They will see both new and follow-up patients in a variety of hospital and clinical settings such as the ICU, office, catheterization lab, and operating room. Students will be expected to learn how to organize and present a routine cardiac history and physical exam. Students will formulate assessments and plans based on their patient encounters. Focused reading of guidelines, textbooks and pertinent literature should support these assessments. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): IMED 730 and Site approval

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene; Oregon Heart & Vascular Institute
Grading Method: 5-tiered Letter Grade

Students also practice reading approximately five EKG’s per day, and review with attending physician. Daily internal medicine conference and weekly cardiology conference.

**Special Notes:** This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register for this course.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Duration:** Two Weeks
**Site(s):** Legacy Good Samaritan
**Grading Method:** Pass/No Pass
**Type:** Clinical (Patient Care)
**Credit:** 2
**Available through the Lottery:** No

CARD 709V Cardiology Consult
Internal Medicine

Course Purpose Statement: Students are expected to refine their skills at taking a cardiac history and perform an examination of the cardiovascular system. They will learn how to perform a consultation on a patient at the request of another physician and to interact productively with other physicians who have primary responsibility for the care of the patient. They will learn the role of common diagnostic tests used in cardiology for management of patients. They will gain experience in interpretation of electrocardiograms and be exposed to the role of non-invasive testing as needed. It may be possible to arrange experience watching exercise treadmill testing (primarily VA rotation). Commonly seen conditions include evaluation of chest pain syndromes, coronary artery disease, heart failure, risk assessment prior to non-cardiac surgery, valvular heart disease, and infective endocarditis. Students respond to requests for consultation by evaluating the patient, analyzing the data, preparing a diagnostic and management plan, record a note in the patient record, and present the patient to the attending physician. Students regularly interpret electrocardiograms and review them with the attending physician. No call responsibilities. Students may observe and potentially assisting with performance of treadmill exercise tests, cardiac catheterization procedures and other cardiac diagnostic tests. Students are encouraged to attend cardiology conferences that include, Multidisciplinary (Clinical Case) Conference, Cardiac Catheterization Conference, ECG Conference, Pathophysiology Conference, and other subspecialty conferences. Students work with a cardiology consulting resident (if one is assigned), a fellow, and the attending assigned for the month. Evaluation includes informal feedback and standard evaluations by the attending physician. The student also evaluates the educational experience during the rotation. At the end of the rotation, students will have increased skills in the assessment of patients with heart disease.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

Duration: Four Weeks

CARD 741E Advanced Heart Failure Continuity Experience
Internal Medicine

Course Purpose Statement: The purpose of the Advanced Heart Failure continuity experience is for students to learn the principles of heart failure management across the spectrum of disease. Students will work with the advanced heart failure team and will follow patients in both the ambulatory and inpatient settings. In the advanced heart failure clinic they will see patients with heart failure in all stages as well as patients receiving follow-up care after left ventricular assist device placement or heart transplant. On the inpatient advanced heart failure service they will care for patients with cardiogenic shock, acute on chronic heart failure, pre- and post left ventricular assist device and pre and post cardiac transplantation. Students will have the opportunity to observe procedures in the cardiac catheterization laboratory and operating room. This continuity experience will be superb for those desiring surgery or medicine as a career with in depth learning of cardiac physiology and treatment.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

**ENDC 709A Endocrine Metabolism**

**Internal Medicine**

**Course Purpose Statement:** Students learn essentials of the evaluation and management of inpatient and outpatient clinical endocrinology and metabolism. Problems commonly seen include diabetes, lipid diseases, metabolic bone disease, disorders of thyroid, pituitary, adrenal and gonadal functions. Outstanding opportunity to learn about many disorders frequently not seen or discussed in other areas. Students see 5-12 patients per week in the University and VA Med Center General Endocrinology, Diabetes, Bone and Mineral and Obesity clinics, as well as 5-10 patients per week on the inpatient Endocrine consult service. Conferences include Journal Club and Clinical Case Conference. Students will work as part of a team of residents, fellows, and attendings. No call responsibilities. Evaluation is by observed clinical performance, case presentations, and knowledge of the subject area.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

GERI 709H Geriatrics • PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students will receive in-depth exposure to clinical geriatrics across the spectrum of care settings. They will develop and refine skills in caring for older patients and acquire knowledge and understanding of how to recognize, assess, and manage conditions common in elderly patients. The students’ time will generally include two days a week at the outpatient clinic, Senior Health and Wellness Center, two days a week in care facilities, and one day for independent learning and exposure to other disciplines, such as hospice, neuropsychiatry, and wound care. In the clinic, students will have the opportunity to interview and examine patients, present and discuss the patients’ care with the attending, and participate in weekly interdisciplinary team meeting. In the skilled nursing facility, students will work-up and follow patients weekly in sub-acute rehab (post-hospitalization), independently develop assessments and plans for these patients and create ‘shadow charts’ to follow them. They will participate in family meetings/care planning discussions as these arise. The student will present and discuss a patient at the care facility “Grand Rounds”, an educational in-service for nurses and other staff, weekly case discussions and didactic sessions, and read/self-direct learning to cover common geriatric conditions. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): Site approval

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene

Elective Experiences
GMED 701A Internal Medicine Research

Internal Medicine

Course Purpose Statement: The research elective is intended for students who think they might be interested in pursuing a career in academic internal medicine or who would like more experience with the scientific process. Students may arrange for laboratory or a clinical research experience in Internal Medicine. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 4 weeks on a project.

Special Notes: Students must submit a completed Research Elective Request Form in order to take this course. The form can be found on the Student Portal under ‘Medicine’ and ‘Forms’ or in the appendix of this catalog. Students will be enrolled once their request has been approved and the form has been submitted to Marcia Decaro.

Required Prerequisite(s): Completed Research Elective Request Form

Duration: Four Weeks
Site(s): OHSU and/or VAMC
Grading Method: Pass/No Pass
Type: Research
Credit: 4
Available through the Lottery: No

Course Director (name / email): Rebecca Harrison / harrisor@ohsu.edu

Electives are offered on a space-available basis. Please contact site coordinator for availability and list your preference of block dates when applying for this course.
GMED 709E Sub-I Hospitalist

Internal Medicine

Course Purpose Statement: Hospitalist rotation is primarily about improving clinical reasoning and medical knowledge in the arena of Internal Medicine in patient care. Each student will round with one of the Legacy faculty hospitalists in the morning. Most afternoons are spent in didactics reviewing about 100 articles over the 4 weeks and doing clinical reasoning cases. A week of geriatric hospitalist is available for those interested in the experience.

Special Notes: Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having taken any of the required electives listed in the prerequisites. Please contact Matthew Rempes at rempes@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

**GMED 709F Palliative Care**

**Internal Medicine**

**Course Purpose Statement:** This elective offers students the opportunity to work with an interdisciplinary team to develop skills and expertise in the palliative care of patients living with life-threatening illnesses. Students will explore clinical practice of Palliative Care through inpatient and outpatient experiences. Most teaching occurs in the course of supervised patient care. Examples of typical experiences include: performing palliative care assessments of hospitalized patients, participating in a family meeting, or seeing patients in the Supportive Oncology and Palliative Medicine outpatient clinic. Focus is on teaching palliative care assessment (including pain/symptom management, psychosocial assessment, prognosis, and goals of care), effective opioid use, broaching difficult subjects with care, effectively using advance directives and POLST, self-care, and an interdisciplinary approach to care. Students will see patients and experience both bedside teaching and time alone with patients to assess them and discuss living with serious illness. In the hospital, students will have the opportunity to participate in consultations and family conferences. The Palliative Care team includes – Sue Best LCSW, Jessica Bordley MD., Tiffany Culbertson RN,NP., Erik Fromme MD., Jeff Myers PA., Terri Schmidt MD., Mary Denise Smith RN, CNS, and Eric Walsh MD.

**Special Notes:** This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register for this course.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Elective Experiences
GMED 709J SubI Hospitalist

Internal Medicine

Course Purpose Statement: The sub-internship rotation with the Clinical Hospitalist Service (CHS) provides a supervised, but highly-independent experience that is designed to prepare students for any categorical or medicine preliminary intern year. The CHS manages a wide variety of patient populations including medicine and peri-operative consultation, post-procedural care, solid tumor oncology, and core internal medicine. The group includes 19 faculty members who collectively provide direct daytime and nighttime supervision without any concurrent resident presence. During the elective, sub-interns will gain experience admitting ED and outside hospital admissions on swing and nighttime shifts in addition to rounding on a personal census of ~6 patients during daytime shifts. The rotation is 5 days per week, roughly 10-12 hrs per day, and is flexible with regard to days off. Procedural experience (paracentesis, thoracentesis, lumbar puncture, etc.) is also included on the rotation as much as possible. At the end of the rotation, students are expected to give an informal ~20 minute presentation on a clinical topic of their choosing that involves a critical analysis of the literature.

Special Notes: Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having taken any of the required electives listed in the prerequisites. Please contact Matthew Rempes at rempes@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INF D 709A, INF D 709H, INF D 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

Elective Experiences
GMED 709L Coffee Creek Correctional Facility

Internal Medicine

Course Purpose Statement: Coffee Creek Correctional Facility (CCCF) is a state prison located in Wilsonville, Oregon. This facility serves as the statewide Intake Center for all male and female inmates who have been sentenced to more than a year in Oregon. It also is the only prison for female inmates in the state. Most women remain here for their full sentence, except for a very small number who are eligible for a boot camp program. The men are here briefly for assessment, and are then sent to the male-only prison best suited to their needs. We house roughly 700 women in our medium security facility and 600 in our minimum security facility and 400 men. Most physicians do not have direct knowledge about health care in prisons. There are currently about two million incarcerated Americans, and several million more on probation or parole. Adults-in-custody (AIC) usually come from an underserved population, and are a medically high risk population. Being incarcerated gives them a constitutional right to medical care. Thus jail and prison may provide their only access to regular health care. Most AIC serve less than three years, and then re-enter the community whence they came. Therefore, our practice setting is unique, but we share this high risk population with the community. Our facility has clinics and an Infirmary. We have a staff which includes nursing, dental, and medical professionals. We have mental health professionals and a Special Management Unit for inmates with severe mental health issues. We practice in an HMO-like system, with a formulary, strong primary care, and controlled access to specialist services. This elective will serve to orient the medical student to correctional health care and to a managed care model of delivery. The medical student will provide clinical care to patients with a broad range of pathology in the clinic and in the infirmary under the supervision of two internal medicine physicians. The medical student will also attend and present his or her cases at therapeutic level of care meetings.

Special Notes: This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register for this course.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V, Pediatric inpatient experience (PEDI 709A, PEDI 709B, PEDI 709D, PEDI 709F, PEDI 709G, PEDI 709H, PEDI 709I, PEDI 709J, PEDI 709M, PEDI 709N, PEDI 709R, PEDI 709S, PEDI 709U, PEDI 710B, PEDI 710G)

Course Director will not waive prerequisites for this course.

Elective Experiences
GMED 709N Transitional Care for Socioeconomically Vulnerable Adults

Internal Medicine

Course Purpose Statement: The purpose of this elective is to familiarize students with community health needs of adults across the care continuum within Washington, Multnomah, and Clackamas Counties. The student will coordinate care for adults with a variety of chronic medical conditions, mental illnesses, substance use disorders, and socioeconomic barriers. Patients may be seen in settings including: nursing homes, clinics, substance abuse treatment facilities, transition housing, patient homes, and in the community (shelters, homeless camps, under bridges etc.). Students will participate with outreach activities along with attend community meetings and inpatient rounds. Students are expected to participate in a two part reflection paper at the beginning and end of the rotation.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): One of the following: EMED 709A, EMED 709CB, EMED 709D, EMED 709G, EMED 709H, EMED 709J, EMED 709SC, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V, IMED 730, PSYC 730, PSYC 709C, PSYC 709D

Course Director will not waive prerequisites for this course.

Elective Experiences
GMED 709T Advanced Illness Care
Internal Medicine

Course Purpose Statement: The student will gain proficiency in the practice of primary care internal medicine in a community setting. Students will develop clinical diagnosis, reasoning and communication skills in the care of adults with a wide range of acute and chronic diseases. Students will be active participants in patient care, taking the initial focused history and physical exam, developing a differential diagnosis and management plan prior to discussing with their preceptor(s).

This elective offers students the opportunity to work with an interdisciplinary team to develop skills and expertise in the palliative care of patients living with life-threatening illnesses who are receiving either home based palliative care or hospice services. Students will explore clinical practice of Palliative and Hospice Care through home care experiences. Teaching occurs in the course of patient care provided with a supervising hospice physician or interdisciplinary team member. Examples of typical experiences include: performing palliative care assessments of patients in the home and/or long-term care facility setting, participating in family meetings, participating in interdisciplinary team conferences, or seeing patients in the outpatient oncology setting. Focus is on teaching palliative care assessment (including pain/symptom management, psychosocial assessment, prognosis, and goals of care), effective opioid use, effective use of adjuvant pain therapies and modalities, supporting family caregivers, assisting patients/families to achieve developmental goals and milestones at end of life, managing grief and loss, broaching difficult subjects with care, effectively using advance directives and POLST, self-care, and an interdisciplinary approach to care. Students will see patients and experience both bedside teaching and time alone with patients to assess them and discuss living with serious illness. Students will participate in weekly interdisciplinary team care conferences. Students will have the opportunity to participate in clinical quality improvement projects. Students will have opportunity to interact with pharmacy interns from Pacific University School of Pharmacy and work with hospice leaders with over 35 years of hospice and palliative care experience. Attending physicians include Jeanne LaMont, MD, (OB/GYN/Hospice), Gerald Gibbs, MD (Hematology/Oncology/Hospice).

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Care Partners, Hillsboro and patient residences throughout the Portland Metro Area
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

GMED 709V Sub-I Hospitalist

Internal Medicine

**Course Purpose Statement:** The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. The VA provides students with an exposure to a unique patient population and healthcare delivery system. Students will provide clinical care to patients with severe mental health, substance abuse and psychosocial problems and will learn how the VA supports patients in those aspects of their lives. Students will have a unique opportunity to watch faculty interact with each other in a shared team-room and develop models for lifelong learning and peer-teaching. Supervising Attendings are all OHSU faculty, many with roles in the School of Medicine and Internal Medicine Residency Program. Depending on availability students may have the opportunity to interact with Foundations years students, practice procedures in the Simulation lab, and develop or practice point-of-care ultrasound skills. There are often opportunities to observe coronary angiograms, bronchoscopies, and upper endoscopies in this setting.

**Special Notes:** Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having taken any of the required electives listed in the prerequisites. Please contact Matthew Rempes at rempes@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INF D 709A, INF D 709H, INF D 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

**Elective Experiences**
**GMED 709X Internal Medicine Special Elective**

**Internal Medicine**

**Course Purpose Statement:** The purpose of this elective is for students to have more in-depth experience in a subspecialty of Internal Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study.

**Special Notes:** Students must submit a completed Special Elective Request Form in order to take this course. The form can be found on the Student Portal under ‘Medicine’ and ‘Forms’ or in the appendix of this catalog. Students will be enrolled once their request has been approved and the form has been submitted to Marcia Decaro.

**Required Prerequisite(s):** Completed Special Elective Request Form

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** OHSU and/or VAMC  
**Grading Method:** Pass/No Pass  
**Type:** Special Elective  
**Credit:** 4  
**Available through the Lottery:** No

GMED 710A Physical Diagnosis

Internal Medicine

Course Purpose Statement: This course is designed to improve students’ overall comfort with the physical examination. Students should become more adept at performing the physical exam, understanding the significance of findings, and reporting this information in a succinct and unified presentation. Logistically, students should expect to examine two patients per day with specific exam findings. The course instructors will select the patients. Students will examine the patients on their own in the morning and then present the findings to the large group in the afternoon. When the large group is together, there will be time for additional examination and key points will be highlighted. The breadth of findings will range from patients with heart murmurs to those with splenomegaly. However, the heaviest emphasis will be on the cardiac examination.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): OHSU
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: Yes

GMED 711A Internal Medicine Research

**Internal Medicine**

**Course Purpose Statement:** The research elective is intended for students who think they might be interested in pursuing a career in academic internal medicine or who would like more experience with the scientific process. Students may arrange for laboratory or a clinical research experience in Internal Medicine. Times of year and durations of research electives are flexible and will be determined by the time schedules of students and mentors; however, students should plan on spending a minimum of 2 weeks on a project.

**Special Notes:** Students must submit a completed Research Elective Request Form in order to take this course. The form can be found on the Student Portal under ‘Medicine’ and ‘Forms’ or in the appendix of this catalog. Students will be enrolled once their request has been approved and the form has been submitted to Marcia Decaro.

**Required Prerequisite(s):** Completed Research Elective Request Form

GMED 741B Primary Care and the Social Determinants of Health

Internal Medicine

Course Purpose Statement: This outpatient clinic-based experience in the heart of downtown Portland would be ideal for students considering a career in primary care, psychiatry, or addiction medicine, and those with a passion for care of the underserved. The patient population is beset by mental illness, substance use disorders, and homelessness, and covers a broad range of ages and medical comorbidities, and introduces more diversity than is seen in most of our clinical settings. This experience would enhance your creative problem-solving skills and enrich your understanding of the social determinants of health, and the role of the healthcare provider in the larger system of care and social services. This is a truly interdisciplinary experience including delivering primary care in a patient-centered medical home and opportunities to work with mental health care providers, social workers, addiction specialists, pharmacists, and acupuncturists in addition to the Attending Internists.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): Central City Concern
Grading Method: Pass/No Pass
Type: Continuity Clinical (Patient Care)
Credit: 8
Available through the Lottery: Yes

GMED 741S Internal Medicine Clinic Continuity Elective

Internal Medicine

Course Purpose Statement: This is an 8 week elective that would focus on the medical complex primary care patient. Student would gain skills management of patients multiple complex, interrelated medical problems with special attention to shared decision making, motivational interviewing and team based care. Students will work closely with all different types of practitioners in the clinic as well as pre-identified patient-mentors.

Required Prerequisite(s): IMED 730 or FAMP 730

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade

GMED 741X Continuity Special Elective

Internal Medicine

Course Purpose Statement: The purpose of this continuity clinical elective is for students to have more in-depth experience in General Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study. To fulfill Continuity Clinical Experience graduation requirement, the experience must be minimum 8 full-time weeks in duration or equivalent effort over a longer duration if experience is not full-time. Experience must allow students to maintain continuity in at least 2 of the following 3 ways:
- Continuity with the same patient(s)
- Continuity with the same health system
- Continuity with the same preceptor(s)

Required Prerequisite(s): Completed Continuity Special Elective Request Form

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): OHSU
Grading Method: Pass/No Pass

GSTR 709A Gastroenterology Consult

Internal Medicine

Course Purpose Statement: Students learn an integrated approach to the diagnosis and therapy of gastroenterology diseases with emphasis on pathophysiology and exposure to the utility and application of the various diagnostic therapeutic endoscopic procedures. Problems commonly seen include diagnosis/treatment of GI bleeding, abdominal pain, peptic ulcer disease, gastrointestinal tumors, pancreatitis, chronic liver disease and inflammatory bowel disease. Students see approximately two inpatient consults per day and in addition to other consultations seen as emergencies or in the weekly Tuesday GI clinic. No night call responsibilities. Conferences include Grand Rounds, GI Medical Surgical Conference, GI Pathology Conference, Hematology/Biliary Conference, and GI Research Conference. Students work with a team of medical resident, GI fellow and GI Attending. Evaluation is by observed clinical performance.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

GSTR 709H Gastroenterology - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students learn an integrated approach to the diagnosis and therapy of gastroenterology diseases with emphasis on pathophysiology and exposure to the utility and application of the various diagnostic therapeutic endoscopic procedures. Problems commonly seen include diagnosis/treatment of GI bleeding, abdominal pain, peptic ulcer disease, gastrointestinal tumors, pancreatitis, chronic liver disease and inflammatory bowel disease. Students see approximately two inpatient consults per day and in addition to other consultations seen as emergencies. No night call responsibilities. Conferences include Medicine Grand Rounds and GI Pathology Rounds. Evaluation is by observed clinical performance. Students will be based at Sacred Heart Medical Center at RiverBend, a 432 tertiary care hospital. Sacred Heart Medical Center is located in Eugene and Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations at this site do not interact with OHSU Residents or Residency Program Directors.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

Course Director will not waive prerequisites for this course.

HEMA 709A Hematology/Oncology Consult

Internal Medicine

**Course Purpose Statement:** Students learn to manage, diagnose and treat common hematologic/oncologic diseases. Use and interpretation of chest, abdominal, bone x-rays, CT Scans, MRI, and nuclear medicine scans as well as interpretation of blood and bone marrow smears, and the management of oncologic emergencies. Problems commonly seen include anemia, neutropenia, thrombocytopenia, lung cancer, head and neck cancer, colon cancer, prostate cancer, lymphoma, leukemia, and myeloma. Students manage 2-3 patients per week in the inpatient setting. 1-2 patients per week will be seen in the outpatient setting. The outpatient experience will be scheduled once each week. Opportunities to observe and perform procedures include bone marrow aspirations, biopsies, interpretation of blood smears and bone marrow smears. Conferences include Morning Report, Grand Rounds, Pathology Slide Conference, Hematology Journal Club, Lymphoma Conference, Clinical Case Conference, and Case Management Conference where students present particularly difficult cases. Students work with a team of one full time attending physician, a subspecialty Hematology/Oncology fellow, and often an internal medicine resident or intern. Students are provided with a volume of directed clinical reading to cover essential elements in Hematology/Medical Oncology. Evaluation is by clinical performance, weekly informal oral examinations on the assigned reading, quality of case presentations, and humanistic skills. With the intense involvement of students in both the inpatient & outpatient arenas, with such a cohesive course curriculum, unique skills in Hematology/Medical Oncology should be acquired. Should unique patients be cared for by the students, careful evaluation and documentation may lead to a case report that may be submitted for publication in the medical literature.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

With the intense involvement of students in both the inpatient & outpatient arenas, with such a cohesive course curriculum, unique skills in Hematology/Medical Oncology should be acquired. Should unique patients be cared for by the students, careful evaluation and documentation may lead to a case report that may be submitted for publication in the medical literature.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Duration:** Two Weeks  
**Site(s):** OHSU/VAMC  
**Grading Method:** Pass/No Pass  
**Type:** Clinical (Patient Care)  
**Credit:** 2  
**Available through the Lottery:** No

HEMA 709B Sub-I Bone Marrow Transplant

Internal Medicine

Course Purpose Statement: The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency.

Special Notes: Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this courses without having taken any of the required electives listed in the prerequisites. Please contact Matthew Rempes at rempes@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B or AMBL 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

**HEMA 709H Hematology/Oncology - PeaceHealth Sacred Heart**

**Internal Medicine**

**Course Purpose Statement:** Students learn to diagnose and treat common hematologic and oncologic diseases in a comprehensive community setting. Common problems typically seen include breast cancer, colon cancer, lung cancer, lymphoma, gynecological, head and neck cancer and both benign and malignant hematologic diseases. Rotation will be predominately outpatient medical oncology but students may have the option of rotating through other specialties such as with radiation and/or gynecological oncologists. Goal of the rotation learn the initial diagnosis and follow up care by direct patient contact and interpretation of imaging, labs tests including bone marrow biopsies, genetic tests, etc. Student is expected to attend tumor board conferences and maybe required to present cases that he/she is involved. Evaluation is done mainly by clinical performance. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

**Required Prerequisite(s):** IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

**Course Director will not waive prerequisites for this course.**

HOSP 709A Inpatient Ward  
Internal Medicine

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills.

Required Prerequisite(s): IMED 730 or HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope. Students will participate as full members of the care team in an “Accountable Care Unit,” and lead daily multidisciplinary rounds on their patients. This unique unit provides for an enhanced focus on interdisciplinary team work and patient safety. Patients come from broad demographic ranges of ethnicity, socioeconomic status, medical complexity and acuity.

The HOSP courses are highly recommended to all students regardless of intended specialty. They can be taken prior to the Core Experience in order to build a solid foundation for success, or after, to consolidate and further enrich skills.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Providence St. Vincent

HOSP 709SH Inpatient Ward
Internal Medicine

Course Purpose Statement: In this Experience, students will develop critical knowledge and skills pertinent to inpatient care of the adult patient. They will learn to navigate complex EMRs to obtain accurate and focused data, obtain hypothesis-driven histories, and perform problem-focused exams. They will formulate an overall assessment, prioritized problem list, and triaged differential diagnosis with a focus on common and/or complex conditions. They will communicate their findings, assessment, plan and reasoning both orally and in writing. Students will follow the patients through until discharge (or rotation off service) and will gain an appreciation for the complexity and risks of transitions of care. They will do this in a clinical environment that is diverse but also rich in “common” medical conditions such as pneumonia, COPD, heart failure, decompensated liver failure, pancreatitis, sepsis, and malignancies and their complications. They will develop structured approaches to common inpatient complaints such as abdominal pain, chest pain, acute and progressive dyspnea, fever, failure to thrive and syncope.

IMED 709A Sub-I Ward

Internal Medicine

Course Purpose Statement: The purpose of this course is to further develop clinical diagnosis, reasoning, and communication skills in the care of complex patients with a wide range of acute and chronic, multi-organ system disease. Students will develop targeted history and physical examination skills, refine clinical reasoning skills, and devise comprehensive differential diagnoses and advanced treatment plans. Emphasis will be placed on increased number of patients and patient care responsibilities and autonomy, in order to develop intern-level skills in preparation for residency. Students will be rotating on a one intern, one resident team in a university hospital setting on mainly medicine and oncology dedicated floors. We emphasize multidisciplinary patient focused rounding practice where students will present patient care plans at the bedside. Students also participate in multidisciplinary care management rounds. Students are encouraged to attend noon reports and residents conferences along with weekly didactics sessions.

Special Notes: Students who have or will have completed 8 weeks for IM Core prior to this Sub-I rotation may take this course without having taken any of the required electives listed in the prerequisites. Please contact Matthew Rempes at rempes@ohsu.edu to obtain a prerequisite waiver prior to the end of the lottery.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INF D 709A, INF D 709H, INF D 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Director will not waive prerequisites for this course.

**Course Purpose Statement:** This clinical course provides foundational skills in the use of ultrasonography to augment the physical examination. Basic ultrasonography skills for the assessment of normal anatomy and physiology will be learned and applied to the differentiation of normal from basic pathologic states commonly encountered in the primary care setting. Students will learn the limitations of ultrasonography and when further imaging is appropriate for the care of the patient. The goal of the course is to provide foundational skills in limited ultrasonography that can be further developed during residency training. The course will include didactic sessions, simulation modules, deliberate practice in the simulated and supervised clinical settings, and small group discussions. Concurrent and summary feedback will be provided by ultrasonographers, real time virtual performance assessment tools such as the SonoSim device, peers, residents, and faculty.

**Required Prerequisite(s):** None

**Duration:** Two Weeks

**Site(s):** OHSU; VA

**Grading Method:** Pass/No Pass

**Type:** Clinical (Patient Care)

**Credit:** 2

**Available through the Lottery:** Yes

INFD 709A Infectious Disease Consult

Internal Medicine

Course Purpose Statement: Students learn clinical and laboratory approaches to the diagnosis and therapy of infectious diseases. Students participate in both the OHSU and VAMC infectious diseases rounds. They will work up and present new consultation patients, follow up with patients on the consult service, and participate in Division Conferences. Placement is within a combined OHSU/VAMC rotation.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): OHSU/VAMC
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)

Elective Experiences
INFD 709H Infectious Disease - PeaceHealth Sacred Heart

Internal Medicine

Course Purpose Statement: Students obtain a working knowledge of the management of common infectious diseases. Management will include diagnostic procedures and appropriate use of antimicrobial agents. Students will participate in the ID consultative service which involves both outpatient and inpatient consultation. They will perform 2-3 complete consultations per week. In each instance, they evaluate patients independently and then present their findings to the infectious diseases faculty. They are then obligated to follow the course of the patient’s illness for the duration of hospitalization and outpatient follow-up where appropriate. There are home reading assignments with learning objectives. Students also are required to complete a medical knowledge self-assessment test in the area of infectious diseases. Students will also get to work with the Hyperbaric/Infectious Disease program. It is certified by the Undersea and Hyperbaric Medical Society and it is operated solely by board-certified ID physicians. This is ideal for coordinating treatment with our wound care program and with providers in the region. Treatment is available 24/7 for emergency care. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): IMED 730 or an Inpatient Medicine Experience (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V) and Site approval

INFD 709P Infectious Disease

Internal Medicine

Course Purpose Statement: Students obtain a working knowledge of the management of common infectious diseases. Management to include diagnostic procedures and appropriate use of antimicrobial agents. Students will participate in the ID consultative service which involves both outpatient and inpatient consultation. They will perform 2-3 complete consultations per week. In each instance, they evaluate patients independently and then present their findings to one of the four infectious diseases faculty. They are then obligated to follow the course of the patient's illness for the duration of hospitalization (and outpatient follow-up where appropriate). There are home reading assignments with learning objectives. Students also are required to complete a medical knowledge self-assessment test in the area of infectious diseases. Students will participate in the weekly city-wide infectious diseases conference.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

NEPH 709A Nephrology/Hypertension

Internal Medicine

Course Purpose Statement: Students are expected to learn the clinical approach and therapy of common renal diseases and hypertension. Students are active participants on the nephrology inpatient consultation services at the VA Medical Center and University Hospitals. Problems commonly seen include acute renal failure, glomerulonephritis, nephrotic syndrome, electrolyte and acid-base abnormalities, diabetic nephropathy and hypertension. Students also participate in renal and hypertension clinics. Students average one new patient per day on the inpatient consultative service and generally follow between 3-5 patients. Students may attend clinic one half day per week and see between 2-4 patients. Students may observe placement of central catheters for hemodialysis and renal biopsies. Conferences include Clinical Case Conference, weekly Nephrology Didactic Sessions, Nephrology Journal Club and Medicine Grand Rounds. Students work with a team of two residents, one or two nephrology fellows and an attending nephrology staff. Written evaluation and oral feedback are provided based on observed case presentations and knowledge acquired. Students will acquire a good understanding of the management and diagnosis of renal disease and hypertension.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

NEPH 709C Nephrology/Transplant

Internal Medicine

Course Purpose Statement: Students are expected to learn about the evaluation and management of patients undergoing renal transplantation, including pre-transplant evaluation and post-operative management. In addition, they are expected to learn about short and long term complications of renal transplantation. Activities include participation in all aspects of the service including in-patient rounds, outpatient clinics, operative procedures and organ procurement. Students evaluate 1-2 new patients per day and 4-6 patients in clinic. Students have the opportunity to observe renal transplants and renal transplant biopsies. Conferences include Combine Transplant Conference, Transplant Renal Biopsy Conference and Transplant Selection Conference. Students participate on a multidisciplinary team of transplant Medicine and Surgery specialists. Team members include Transplant Medicine and Transplant Surgery attendings, Transplant Medicine Fellow, Surgery Residents and a Transplant Pharmacist. Evaluation is based on observations of clinical performance and case presentations.

Special Notes: Departmental approval is required prior to registering for this elective. To apply, contact the Course Director and Course Coordinator. Once approved, forward the email to Marcia DeCaro and Kaitlin Seymore.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

PULM 709A Pulmonary MICU

Internal Medicine

**Course Purpose Statement:** The purpose of the pulmonary/medical ICU elective is to develop clinical diagnosis, reasoning and communication skills in the care of the critically ill patient. Students will gain direct experience with key topics in critical care medicine including respiratory failure and ventilator management, acid-base disturbances, overdose assessment and treatment, and the diagnosis and treatment of sepsis and various shock states. Students will work with other healthcare professionals as a member of an inter professional ICU team in the care of complex critically ill patients, and participate in family meetings with may include discussion of end of life issues and withdrawal of life support.

During this rotation, students will be expected to work one week of night shift (weeks 2-4), with a schedule choice of either the attending evening/night shift (4pm-midnight or later) or the resident/fellow overnight shift 6pm-6am. Each student will predetermine their week with the course coordinator prior to the course starting. If you are unable to complete a week of nights for a particular reason, please notify the course coordinator. Students are expected to attend weekly didactic session while on night shift.

**Required Prerequisite(s):** All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709H, HOSP 709G, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

**PULM 709C Pulmonary Consult**

**Internal Medicine**

**Course Purpose Statement:** Pulmonary Consult – OHSU: Students may participate full-time in the consultation service of the Pulmonary and Critical Care Division. This experience includes workup of patients for whom pulmonary consultations have been requested, consultation rounds, bronchoscopy sessions, Pulmonary clinic, attendance at three weekly pulmonary conferences, and reading in pulmonary and critical care medicine. The service (staff Pulmonologist, PCCM fellow and an IM resident most months) sees outpatients in the morning in our subspecialty urgent care clinic. Inpatient consultations are staffed in the afternoons. We perform bronchoscopies and thoracenteses most days as well. The service interprets all pulmonary function tests and supervises review of a high volume of abnormal thoracic imaging studies. Depending on the student’s interest, there may be opportunities to observe care in our multidisciplinary lung cancer and multidisciplinary ALS clinics. There are three Pulmonary conferences weekly, along with opportunities for directed reading in Pulmonary medicine.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

**Elective Experiences**
PULM 710C Pulmonary Consult

Internal Medicine

**Course Purpose Statement:** Pulmonary Consult – OHSU: Students may participate full-time in the consultation service of the Pulmonary and Critical Care Division. This experience includes workup of patients for whom pulmonary consultations have been requested, consultation rounds, bronchoscopy sessions, Pulmonary clinic, attendance at three weekly pulmonary conferences, and reading in pulmonary and critical care medicine. The service (staff Pulmonologist, PCCM fellow and an IM resident most months) sees outpatients in the morning in our subspecialty urgent care clinic. Inpatient consultations are staffed in the afternoons. We perform bronchoscopies and thoracenteses most days as well. The service interprets all pulmonary function tests and supervises review of a high volume of abnormal thoracic imaging studies. Depending on the student’s interest, there may be opportunities to observe care in our multidisciplinary lung cancer and multidisciplinary ALS clinics. There are three Pulmonary conferences weekly, along with opportunities for directed reading in Pulmonary medicine.

**Required Prerequisite(s):** One of the following: FAMP 730, IMED 730, PEDI 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

*Course Director will not waive prerequisites for this course.*

PULM 709CV Pulmonary Consult

Internal Medicine

**Course Purpose Statement:** The purpose of this rotation is to introduce students to the evaluation, diagnosis, and treatment of patients with respiratory disease, building on the basic science and pathophysiologic aspects of respiratory disease taught in years 1-2. Students will participate as full-time members of the Pulmonary Consult Service at the Portland VA Medical Center. The team includes a fellow, one or two medical residents, nurses, and an attending. Working closely with the fellow/attending, students will evaluate patients in the hospital and in the outpatient clinic, observe procedures such as bronchoscopy and thoracentesis, attend clinical conferences, and read about topics specific to their patients. Specific goals for students during this rotation include:

1) To describe pathophysiology in patients with respiratory disease by interpreting symptoms and physical findings, chest imaging, lung pathology, and pulmonary function tests;

2) To learn the basic approach to evaluation and management of patients with respiratory diseases such as chronic obstructive pulmonary disease, asthma, lung cancer, interstitial lung disease, occupational and environmental lung disease, and pulmonary infections.

**Required Prerequisite(s):** One of the following: IMED 730, HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V

PULM 709E Pulmonary MICU
Internal Medicine

Course Purpose Statement: The purpose of the pulmonary/medical ICU elective is to develop clinical diagnosis, reasoning and communication skills in the care of the critically ill patient. Students will gain direct experience with key topics in critical care medicine including respiratory failure and ventilator management, acid-base disturbances, overdose assessment and treatment, and the diagnosis and treatment of sepsis and various shock states. Students will work with other healthcare professionals as a member of an interprofessional ICU team in the care of complex critically ill patients, and participate in family meetings with may include discussion of end of life issues and withdrawal of life support.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709SH, HOSP 709V)

Course Purpose Statement: The purpose of the medical and cardiac ICU elective is to develop skills in the recognition, resuscitation and longer-term management of the critically ill patient. Specifically, the student will enhance their skills in clinical diagnosis, reasoning and communication skills in the care of the critically ill patient. Students will gain direct experience with key topics in critical care medicine including respiratory failure and ventilator management, acid-base disturbances, overdose assessment and treatment, and the diagnosis and treatment of sepsis and various shock states. Students will work with other healthcare professionals as a member of an inter-professional ICU team in the care of complex critically ill patients, and participate in family meetings with may include discussion of end of life issues and withdrawal of life support.

Required Prerequisite(s): All required clinical Core (IMED 730, FAMP 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) and one of the following: Medicine Consult elective (ARTH 709H, CARD 709A, CARD 709H, CARD 709G, CARD 709H, ENDC 709A, GERI 709A, GERI 709H, GMED 709C, GMED 709F, GMED 741S, GSTR 709A, GSTR 709H, HEMA 709A, HEMA 709H, INFD 709A, INFD 709H, INFD 709P, NEPH 709A, NEPH 709C, NEPH 709H, PULM 709C, PULM 709CV), Medicine Ambulatory experience (AMBL 709B, AMBL 709S, GMED 709S) or Inpatient Medicine elective (HOSP 709A, HOSP 709B, HOSP 709E, HOSP 709G, HOSP 709H, HOSP 709M, HOSP 709P, HOSP 709S, HOSP 709S, HOSP 709V)

Course Director will not waive prerequisites for this course.

Medical Genetics
MGEN 709A Medical Genetics

Medical Genetics

Course Purpose Statement: Students will participate in outpatient services for evaluation of patients with birth defects, syndrome identification, hereditary cancer syndromes and other suspected genetic disorders. Participate in a variety of genetics clinics including Pediatric Genetics, Metabolic Genetics, Perinatal Genetics, Cancer Genetics, other sub specialty genetics clinics as available. They will be expected to attend the regularly scheduled Departmental Clinical conference. In addition, students will accompany the on-call geneticists for inpatient consults from the University, Doernbecher, and Grand Rounds presentations. Additional educational and didactic opportunities may be available as time allows.

Required Prerequisite(s): One of the following: FAMP 730, IMED 730 or PEDI 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

MULT 705A Quality Improvement in Rural Health Care - Campus for Rural Health - South Coast

School of Medicine

Course Purpose Statement: The purpose of the South Coast Quality Improvement in Rural Healthcare elective is for students to gain experience and proficiency in the science of quality improvement in a rural healthcare system. Students will participate in performance improvement initiatives and will work with an interprofessional team of clinicians and administrators to improve patient care and prevent medical errors. Students will learn and apply system solutions to improve rural healthcare delivery.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Campus for Rural Health - South Coast (Coos Bay/North Bend)
Grading Method: Pass/No Pass
Type: Non-Clinical
Credit: 4
Available through the Lottery: Yes

**MULT 705D Biotechnology Innovation Experience**

**School of Medicine**

**Course Purpose Statement:** The purpose of the Biotechnology Innovation elective is for students to gain experience and proficiency in the commercialization of ideas to help patients. Students will participate on a defined research/product development project with a biotechnology startup company at the OTRADI (Oregon Translational Research and Development Institute) Bioscience Incubator (OBI). Students will learn the basics of biotechnology innovation through experiential learning and a comprehensive curriculum delivered in both lecture and small group formats. Students will understand the challenges unique to life science entrepreneurship and successful implementation. Students will interact with the Portland area bioscience community and attend meetings and events at the OBI. Required readings during the course will include The Startup Owner’s Manual by Steve Blank, Business Model Generation by Alexander Osterwalder, The Lean Startup by Eric Reis, and How to Build a Startup by Steve Blank (https://www.udacity.com/course/how-to-build-a-startup--ep245).

MULT 709A Multidisciplinary Care of the Underserved - Bend Volunteers in Medicine Clinic

School of Medicine

Course Purpose Statement: The purpose of the Multidisciplinary Care of the Underserved elective is for students to gain experience and proficiency in the comprehensive care of at-risk patients in a volunteer clinic for the uninsured. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases, including health maintenance, while gaining an appreciation of the unique challenges of the underserved. Students will create and implement care management plan under the supervision attending physicians across multiple specialties, including family medicine, internal medicine, and gynecology. Students will work seamlessly with an interprofessional team of nurses, pharmacists, counselors, social workers, and interpreters.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Bend, OR (Volunteers in Medicine Clinic)

MULT 709B Rural Multidisciplinary Hospital Medicine - Campus for Rural Health - South Coast

School of Medicine

Course Purpose Statement: The purpose of the Rural Multidisciplinary Hospital Medicine elective is for students to gain experience and proficiency in the multidisciplinary care of patients in a rural critical access hospital. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases. Students will see patients across all arenas of a critical access hospital, including ED, OR, ICU and Wards. Students will learn about the unique challenges faced by a limited resource hospital, when to transfer patients to a higher level of care and telemedicine.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. School of Medicine

Course Purpose Statement: The purpose of the Interprofessional Rapid Response Team elective is for students to gain experience and proficiency in the urgent and emergent care of hospitalized patients. Students will participate in the diagnosis and treatment of unstable patients, including the resuscitation of cardiac and respiratory arrest. Students will respond to patients in acute distress as a member of an interprofessional rapid response team. Students will learn airway and ventilator management, vascular access, cardiac rhythm interpretation, and pharmacotherapy.

Special Notes: This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Please contact the Course Coordinator after the lottery to register for this course.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: No

MULT 715C Quality Improvement in Rural Healthcare - Campus for Rural Health - Klamath Falls
School of Medicine

Course Purpose Statement: The purpose of the Quality Improvement in Rural Healthcare elective is for students to gain experience and proficiency in the science of quality improvement in a rural healthcare system. Students will participate in performance improvement initiatives. Students will work with an interprofessional team of clinicians and administrators to improve patient care and prevent medical errors. Students will learn and apply system solutions to improve rural healthcare delivery.

Special Notes: This elective will be offered on a space-available basis after the lottery. It will not be available for registration through the lottery. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): Campus for Rural Health - Klamath Falls

MULT 741A Perioperative Valvular Heart Disease Continuity Experience

School of Medicine

Course Purpose Statement: The purpose of the Perioperative Valvular Heart Disease Continuity elective is for students to gain experience and proficiency in the multidisciplinary care of patients with valvular heart disease in the perioperative period. Students will participate in the diagnosis and surgical treatment of valvular lesions, as well as, hypertrophic obstructive cardiomyopathy. Students will see patients across the continuum (clinic, OR, CVICU, and ward) and work with cardiologists, cardiac surgeons, anesthesiologists, and intensivists. Students will learn the pathophysiology of structural heart disease, basic preoperative echocardiographic evaluation, surgical and transcatheter treatment modalities, and postoperative care.

NEUR 701A Neurology Research

Neurology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any areas of neurology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

Special Notes: Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Research Elective Request Form

Duration: Four Weeks
Site(s): OHSU; VA
Grading Method: Pass/No Pass
Type: Research
Credit: 4
Available through the Lottery: No

**NEUR 709A Advanced Clinical Neurology**

**Neurology**

**Course Purpose Statement:** The purpose of this elective is for students to participate in depth in the care of patients with neurological disease. The student will be assigned to work on an inpatient neurology team and participate in the care of patients with complex neurological diseases. Students will have the option of participating at a sub-intern level of functionality within the neurology team. Availability of this experience will depend on enrollment numbers for NEUR 721 for the block requested.

**Required Prerequisite(s):** NEUR 730

*Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.*

**Duration:** Four Weeks

**Site(s):** OHSU; VA; Remote sites available only for advanced elective and only with prior approval of clerkship director and site preceptor.

**Grading Method:** Pass/No Pass

**Type:** Clinical (Patient Care)

**Credit:** 6

**Available through the Lottery:** Yes

**NSUR 709A Neurosurgery**

Neurosurgery

**Course Purpose Statement:** This intensive exposure to clinical neurosurgery is intended for students with a serious interest in the clinical neurosciences. Students work closely with the resident team in day-to-day patient care taking call, working up new patients in both the outpatient clinic and inpatient setting, scrubbing with the residents and faculty in the operating room, and following patients through their postoperative courses. Head and spine trauma, brain tumors, stroke, aneurysmal subarachnoid hemorrhage, chronic pain syndromes, degenerative spine disease, hydrocephalus, spina bifida, movement disorders, and medically intractable epilepsy are the more common clinical problems encountered. The ICU management of critically ill neurosurgical patients is an integral part of the rotation. Placement is at OHSU.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

Obstetrics and Gynecology
OBGY 701A Obstetrics/Gynecology Research

Obstetrics and Gynecology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any areas of OBGYN. Projects are pre-established, planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department course director, and the Curriculum & Student Affairs office prior to starting.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator. Once approved, students must complete the Research Elective Request form in order to take this course. Please visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after you receive department approval.

Elective Experiences
**OBGY 709A Sub-I Maternal-Fetal Medicine**

**Obstetrics and Gynecology**

**Course Purpose Statement:** This elective focuses on the clinical care of high-risk obstetric patients, both outpatient and inpatient care. Students participate in antenatal testing and ultrasound and see patients in clinic with fellows, residents and faculty perinatologists. Night call is every Thursday at OHSU. Students are each expected to present a case conference during the final week of their elective clinical experience. If they wish, they may also participate in animal surgeries and/or prenatal diagnosis clinics.

**Required Prerequisite(s):** OBGY 730

*Course Director will not waive prerequisites for this course.*

OBGY 709F Sub-I OBGYN/Oncology

Obstetrics and Gynecology

Course Purpose Statement: Students will be responsible for the pre-operative, operative, and post-operative care of gynecologic oncology patients, which includes both inpatient and outpatient elements. They will scrub in for surgery 1-4 days per week. The focus will be on the surgical care of patients with gynecologic masses / malignancies, and the surgical implications of the clinical issues for these patients. Additionally, students will be involved with the work up and management of patients which will include understanding the differential diagnoses of presenting clinical signs and symptoms common to a Gyn ONC practice. In the outpatient setting, students may also be involved in ongoing cancer surveillance, application of chemotherapy and radiation therapy of gyn/onc patients. Students will attend gynecologic oncology tumor conferences and may be on call during the week and weekends to attend emergency surgeries and consults.

Required Prerequisite(s): Departmental approval as well as IMED 730/731A/731B, OBGY 730/731 and SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Legacy Good Samaritan
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship

OBGY 710H Family Planning
Obstetrics and Gynecology

Course Purpose Statement: The elective will focus on contraception and abortion in the outpatient setting. Students will see patients at OHSU in the Ryan Family Planning Clinic and at Planned Parenthood. There is assigned reading and weekly didactic sessions. This elective is not open to students who have taken OBGY 731 continuity core as the experiences are largely duplicated. Dr. Maureen Baldwin is the faculty preceptor.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): OBGY 730 and department approval

Course Director will not waive prerequisites for this course.

Duration: Two Weeks

**OBGY 709K Sub-I Maternal Fetal Medicine - PeaceHealth Sacred Heart**

*Obstetrics and Gynecology*

**Course Purpose Statement:** This elective focuses on the clinical care of high-risk obstetric patients, both outpatient and inpatient care. Students participate in antenatal testing and ultrasound and see patients in clinic with faculty perinatologists. They will take call one night per week. Students are each expected to present a case conference during the final week of their clerkship. Students will be involved in the prenatal diagnosis and consultative management clinics. PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you. You must be in good academic standing in order to take this elective.

OBGY 709M Advan GYN/ONC Surg - PeaceHealth Sacred Heart

Obstetrics and Gynecology

Course Purpose Statement: Students will be responsible for the post-operative care of gynecologic oncology patients and will be involved in the pre-operative work up of their Surgery patients. They will scrub in for surgery 2-4 days per week for 5-12 major surgeries. The focus will be on the surgical care of patients with a pelvic mass and the differential diagnosis and surgical implications of the differential for these patients as well as the work up and management of patients with post-menopausal bleeding, especially patients with endometrial cancer. While s/he is in clinic, s/he will also be involved in the ongoing cancer surveillance of these patients and all patients with gynecologic oncologic issues. As such, s/he will attend gynecologic oncology tumor conferences, and the breast tumor conference. S/he will be on call by cell phone during the week and on at least one weekend during the month for consults and emergency surgeries.

PeaceHealth Sacred Heart Medical Center has 2 hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

OPHT 709H Ophthalmology - PeaceHealth Sacred Heart
School of Medicine

Course Purpose Statement: The purpose of the Eugene Ophthalmology elective is for students to gain experience and proficiency in the diagnosis and treatment of common eye problems. Students will learn clinical ophthalmology with an emphasis on obtaining a comprehensive ocular history and performing a basic ophthalmological exam. Students will master basic ocular anatomy and pathophysiology. Students will see patients in both the office and the Oregon Eye Surgery Center, while working under the supervision of an attending ophthalmologist. Students will supplement their clinical education with required readings from Basic Ophthalmology for Medical Students and Primary Care Residents, 8th Edition. American Academy of Ophthalmology. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

ORTH 709A Sub-I Orthopedic Ward
Orthopedics

Course Purpose Statement: This is a sub-internship level elective is designed for students interested in careers in orthopaedics. Placement is at OHSU and is designed to rotate students through several orthopaedic subspecialty services in order to introduce students to a wide variety of orthopaedic surgery. Students participate as members of teams providing patient care. Four Weeks at OHSU inpatient and outpatient orthopaedic services. Students will spend one week on the inpatient trauma or spine service and 3 additional weeks on other services such as, spine, tumor, sports, pediatrics, joints, upper extremity, and foot and ankle. If students have a particular interest in any of those disciplines they should notify the clerkship director. Students will take overnight in-house call at a minimum of one day a week with opportunity for additional call dates. There are daily 30-60 minute didactic/education sessions with the residents and faculty. Students will be graded on their clinical performance as well as a 15 minute structured didactic case presentation given at departmental grand rounds.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. ORTH 709C Introduction to Orthopedics

Orthopedics

Course Purpose Statement: This elective is designed for students interested in gaining exposure to orthopedic surgery and musculoskeletal medicine, but not necessarily planning a career. Placement is at OHSU on a single orthopaedic subspecialty service such as spine, tumor, pediatrics, upper extremity, and foot and ankle. Students participate as members of teams providing patient care. During the month, there will likely be days where the student will have the opportunity to work with other subspecialties as schedules allow. Four Weeks at OHSU inpatient and outpatient orthopaedic services. Two week rotations are allowed with approval of the course director. If students have a particular interest in any of those disciplines, they should notify the clerkship director. Students will take overnight in-house call at a minimum of one day a week with opportunity for additional call dates if the student desires. There are daily 30-60 minute didactic/education sessions with the residents and faculty.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): OHSU

ORTH 709D Pediatric Orthopedics

Orthopedics

**Course Purpose Statement:** This experience provides students with an introduction to common and uncommon diseases of the musculoskeletal systems seen in childhood. They participate in patient-care activities with OHSU’s Pediatric Orthopaedist, Dr. Matthew Halsey, at Doernbecher or at the Shriners Hospital. The elective is designed for students planning careers in primary care or pediatric orthopedics.

ORTH 709E Rehabilitation Medicine
Orthopedics

Course Purpose Statement: The Physical Medicine and Rehabilitation elective provides medical students an exposure to both inpatient and outpatient physical medicine and rehabilitation at OHSU and community hospitals. Outpatient opportunities include musculoskeletal rehabilitation, sports medicine, and neuromuscular and electrodiagnostic medicine. Inpatient exposure depending on career goals is with the local pediatric rehabilitation specialists or adult rehabilitation specialists and provides an overview of rehabilitation. Patients with injuries including spinal cord injury, stroke rehabilitation, and traumatic brain injury. This course is offered for student considering a career in physical medicine and rehabilitation.

**ORTH 709SC Phys Med & Rehab - St Charles Bend**

**Orthopedics**

**Course Purpose Statement:** Students will actively participate in patient care at The Center: Orthopedics and Neurosurgical Care and Research. This elective is clinically oriented with an emphasis on examination techniques and the diagnosis and treatment of common sports injuries. Students will be expected to attend weekly Grand Rounds, clinical conferences, and other continuing medical education activities as assigned by their attending. St. Charles Bend is located in Bend, OR, approximately 160 miles southeast of the main OHSU campus. St. Charles (Bend) is designated as a Level II Trauma Center by the Oregon Public Health Division. Bend is the only Level II Trauma Center east of the Cascades. St. Charles (Redmond) is a certified Level III Trauma Center.

**Special Notes:** Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), wheher or not you will have met all prereq, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Kaitlin Seymore. Generate one email per one course. You must be in good academic standing in order to take this elective.

**Required Prerequisite(s):** Completed Site Coordinator Pre-Approval Form

Elective Experiences
ORTH 709X Orthopedic Special Elective

Orthopedics

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of orthopaedics. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting. Four Weeks at OHSU inpatient and outpatient orthopaedic services. This elective is designed for students interested in careers in orthopaedics. Placement is at OHSU and is designed to rotate students through a single orthopaedic subspecialty services for an in-depth exposure. If students have a particular interest in any of those disciplines they should notify the clerkship director. Students will take overnight in-house call at a minimum of one day a week with opportunity for additional call dates. There are daily 30-60 minute didactic/education sessions with the residents and faculty. Students will be graded on their clinical performance as well as a 15 minute structured didactic case presentation given at departmental grand rounds.

Special Notes: Students must complete the Special Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Otolaryngology
OTOL 701A Otolaryngology Research

Otolaryngology-Head/Neck Surgery

**Course Purpose Statement:** This research offering is intended to acquaint students with the basic pretexts of research project design and execution. Research can be undertaken at any time; rotation can be 4-8 weeks in length. Many opportunities are available; please contact the department to obtain a current list of projects and mentors accepting students. The Research Elective Request form must be signed off by the faculty member, department clerkship coordinator and the CASA office prior to starting.

**Special Notes:** Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

OTOL 709A Sub-I Medical/Surgical Otolaryngology

Otolaryngology-Head/Neck Surgery

Course Purpose Statement: This rotation is an intense clerkship experience, intended for those who are seriously considering a residency in Otolaryngology. Students will rotate on 2 services (head and neck/microvascular, pediatrics, laryngology, facial plastic surgery, VA, sinus, otology) for 2 weeks each. Students may make a special request to spend all 4 weeks on one rotation. Every effort will be made to accommodate rotation preferences, but these cannot be guaranteed. In-house call is expected once per week. Attendance at weekly grand rounds (Monday 7-9am) and resident didactics (Tuesday 6-7pm) is required. The student will be required to complete an oral case presentation at Grand Rounds, including a literature review to answer a specific clinical question illustrated by a chosen case.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): SURG 730 and department approval

Course Director will not waive prerequisites for this course.

OTOL 709B Sub-I Microvascular Reconstruction and Rehabilitation
Otolaryngology-Head/Neck Surgery

Course Purpose Statement: The purpose of the Microvascular Reconstruction and Rehabilitation clinical experience is for students to participate in the care and operative management of patients on the Microvascular Reconstruction service by assuming an active role as a subintern. Students will see patients in the clinic, follow them to the operating room, and care for them during their inpatient hospital stay. Surgical exposure will be intense with an opportunity to first assist. Students will participate in a publishable clinical project. Students will attend weekly didactic teaching sessions and will be required to complete an oral case presentation at Grand Rounds, including a literature review to answer a specific clinical question illustrated by a chosen case.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. OTOL 709CB Rural Otolaryngology/Head and Neck Surgery

Otolaryngology-Head/Neck Surgery

Course Purpose Statement: The purpose of the South Coast Rural Otolaryngology elective is for students to participate in the care and operative management of patients with common diseases of the head and neck. Students will hone their skills in performing a comprehensive examination of the head and neck, gain a better understanding of relevant anatomy and embryology and learn appropriate criteria for referral to an Otolaryngologist specialist. Students will see both surgical and non-surgical patients in various clinics and the operating room, and will gain an understanding of health care in a rural context.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Campus for Rural Health - South Coast (Coos Bay/North Bend)
Grading Method: 5-tiered Letter Grade

OTOL 709J Sub-I Pediatric Otolaryngology

Otolaryngology-Head/Neck Surgery

Course Purpose Statement: This elective has been designed to give students an in-depth experience in ambulatory and operative pediatric Otolaryngology. The student will serve as a sub-intern, and assist the resident with the management of hospitalized patients including morning, afternoon and weekend rounds. They will also attend a variety of clinics, including exposure to several multidisciplinary clinics (aerodigestive, craniofacial, hereditary hearing loss, and vascular anomalies). In-house call is encouraged but not required. Attendance at grand rounds (Monday 7-9am), resident didactics (Tuesday 6-7 pm), and pediatric otolaryngology conference (alternate Wednesdays, 8-9 am) is required.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

OTOL 710C Ambulatory Care in Otolaryngology
Otolaryngology-Head/Neck Surgery

Course Purpose Statement: This elective offers an ambulatory care experience, designed for students planning to enter a primary care field. The goals of the rotation are to learn a comprehensive head and neck examination; to understand basic anatomy and embryology of the head and neck; understand the basic work up and treatment of common otolaryngologic diseases and emergencies; and to gain exposure to the spectrum of otolaryngologic practice. Students will be assigned to outpatient otolaryngologic clinics where they will encounter a variety of non-surgical, pre- and post-operative patients. Requirements include attending grand rounds (Monday 7-9am) and resident didactics (Tuesday 6-7 pm).

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

Required Prerequisite(s): Department approval

Duration: Two Weeks
Site(s): OHSU; VA
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)
Credit: 2
Available through the Lottery: No

Course Director (name / email):
Mark Wax / waxm@ohsu.edu

Course Coordinator (name / email):
Karey Beck / bekar@ohsu.edu

Qualified Assessor (name / email):
Mark Wax / waxm@ohsu.edu

**OTOL 710E Facial Plastic Reconstructive Surgery**

**Otolaryngology-Head/Neck Surgery**

**Course Purpose Statement:** The purpose of the Facial Plastics and Reconstruction clinical experience is for students to participate in the ambulatory care and operative management of facial plastic surgery patients. Students will gain experience in reconstructive surgical techniques. Students will attend weekly didactic teaching sessions and Grand Rounds, complete reading assignments, and view educational videotapes showing operative techniques in facial plastic surgery.

**Special Notes:** Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. OHSU students are required to meet with the program director at least 6 months prior to course to receive approval. Acceptance is contingent upon review of the application and not guaranteed. Please contact the Course Director and Coordinator to seek approval and forward your approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates you were approved for.

**Elective Experiences**
Pathology
PATH 701A Pathology Research

Pathology

Course Purpose Statement: Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of Pathology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

Special Notes: Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Research Elective Request Form

Duration: Four Weeks
Site(s): OHSU
Grading Method: Pass/No Pass

**PATH 709A Introduction to Pathology**

**Pathology**

**Course Purpose Statement:** This is a 4 week elective course designed to introduce students to the field of pathology as practiced in the clinical setting. Students will attend relevant lectures and clinical conferences, including the anatomic pathology and laboratory medicine resident lectures, Department Grand Rounds and the Autopsy Case review. A pathology interesting case of the month submission is required. Scheduling details will be worked out through Stacey Davis and the Clerkship Director prior to beginning the elective. This course is NOT offered in blocks S3, U1 or U2. Preference for August - October slots will be given to students who are applying to pathology residency. Maximum of 3 students per period (including students enrolled in PATH710A).

**Special Notes:** Completion of IMED 730 or SURG 709A is preferred prior to the start of this rotation.

**Required Prerequisite(s):** None

PATH 709X Pathology Special Elective

Pathology

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of Pathology and/or a Pathology-related research project. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting.

Special Notes: Students must complete the Special Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

**PEDI 705E Quality Improvement and Patient Safety in Pediatrics**

**Pediatrics**

**Course Purpose Statement:** The purpose of the Quality Improvement and Patient Safety in Pediatrics elective is to provide medical students with foundational knowledge and experience regarding what it means to be on a quality improvement team and how to undertake a quality improvement project. Students will learn the fundamentals of improvement science, the importance of interprofessional teamwork, and how to incorporate quality improvement methods into clinical practice. The course will include didactic sessions but the primary focus will be experiential learning. Students who complete the course will be adequately prepared to participate in clinical quality improvement projects and will obtain the skills to identify and initiate quality improvement work.

PEDI 709A Sub-I Pediatric Inpatient

Pediatrics

Course Purpose Statement: Doernbecher Children’s Hospital offers a one-month clinical elective sub-internship in inpatient pediatrics. This experience gives students a concentrated view of general and subspecialty inpatient pediatrics, allowing for more in-depth exposure to multiple members of the inpatient team. The Sub-I facilitates a more substantive evaluation of students in an active and challenging hospital environment.

Required Prerequisite(s): PEDI 730

Course Director will not waive prerequisites for this course.

PEDI 709AB Outpatient General Pediatrics

Pediatrics

Course Purpose Statement: The General Pediatric Outpatient Elective is designed to expose students to the world of general pediatrics practiced in the community setting. Utilizing a variety of local private outpatient practices, students will see a wide variety of acute as well as well-child care. Students will work directly with pediatrician preceptors, as well as other members of an interprofessional team including but not limited to RNs, MAs, social workers and lactation consultants. Students will participate in the well child visits for newborns through adolescents, and gain exposure to a variety of core pediatric topics including normal development, growth, developmental screening, vaccine schedules and routine screening for depression and substance use in adolescent patients. While variety and volume of urgent/acute visits in pediatric clinics vary over the course of the year, students will have the opportunity to improve their history taking/data gathering and assessment/plan skills for the following acute illnesses: neonatal jaundice, upper respiratory illness, lower respiratory illness, gastrointestinal complaint, skin complaint and fever. Students will be assessed by preceptors using the pediatric medical student clinical assessment form, with final grade assigned by the elective rotation director.

Special Notes: Students must seek course coordinator’s approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email course coordinator your name, which class you are in (MED19, MED20, etc.), elective course number and name, your preferred block date (for example, 1st choice: Summer 3, 2017; 2nd choice: Fall 1, 2017). Once the coordinator receive your request via email, she/he will reply to you with the block you are approved to take and cc Kaitlin Seymore.

Required Prerequisite(s): PEDI 730 and department approval

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

Duration: Four Weeks
Site(s): Various Outpatient Clinics
Grading Method: Pass/No Pass

Elective Experiences
**PEDI 709AP Sub-I Pediatric Ward Night Team**

Pediatrics

**Course Purpose Statement:** This elective course is designed to expose students to the unique features of overnight care of the hospitalized pediatric patient. Students will have the opportunity to partner with the night resident team and participate in the IPASS handover process, an evidence based structured handover program that has been demonstrated to reduce medical errors and preventable adverse events. Students will have the opportunity to strengthen skills in contingency planning, situational awareness, communication and medical decision making in a busy clinical environment. Students will have ample opportunity to participate in the admission process - performing initial history and physical exams, placing orders, oral presentations and note writing.

**Special Notes:** Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval. If you are approved, forward the email confirming this to Matthew Rempes at rempes@ohsu.edu no later than one day prior to the end of the lottery. This approval will be entered into the lottery and will allow you to list the course as a preference. Please note that the approval does not guarantee you a spot in the course.

To register for this course outside of the lottery, email the course coordinator your name, which class you are in (MED19, MED20, etc.), elective course number and name, your preferred block date (for example, 1st choice: Summer 3, 2017; 2nd choice: Fall 1, 2017). Once the coordinator receives your request via email, she/he will reply to you with the block you are approved to take and cc Kaitlin Seymore.

It is recommended that students complete all other Core Clinical Experiences (FAMP 730, IMED 730, NEUR 730, OBGY 730, PSYC 730 and SURG 730) prior to taking this course.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks

**Site(s):** OHSU

**Grading Method:** 5-tiered Letter Grade

**Type:** Sub-Internship

**Credit:** 6

**Available through the Lottery:** Yes

PEDI 709CB Rural Pediatrics - Campus for Rural Health - South Coast

Pediatrics

Course Purpose Statement: The purpose of the South Coast Rural Pediatrics elective is to learn the basics of history-taking, perform age-appropriate physical exams and develop assessments and plans for infants, children and adolescents. Students will develop an understanding of the unique healthcare needs of rural pediatric patients and their families. Students will identify age specific milestones in children and learn basic management of children with special healthcare needs.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU. Rural Campus-South Coast is located in Coos Bay, OR, approximately 220 miles southwest of Portland. The Rural Campus is geared to provide a rural experience with a focus on interprofessional education.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Campus for Rural Health - South Coast (Coos Bay/North Bend)
Grading Method: Pass/No Pass
Type: Rural Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

**PEDI 709CC General Pediatrics, Clackamas Health Center**

**Pediatrics**

**Course Purpose Statement:** This rotation will expose students to general pediatrics in a County Health Center environment. They will see infants, children, adolescents and young adults in a medical home model. The students will also be exposed to county health policy issues.

**Special Notes:** Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**Duration:** Four Weeks  
**Site(s):** Clackamas Health Center, Gladstone

PEDI 709CD Pediatric Hospital Medicine

Pediatrics

Course Purpose Statement: This elective experience gives students a concentrated view of general inpatient pediatrics in a hospitalist model at Asante Rogue Regional Medical Center. It allows for more in-depth exposure to multiple members of the inpatient team, facilitating a more substantive evaluation of students in an active and challenging hospital environment. RVMC is a large general hospital with a dedicated pediatric unit. The student will be an integral part of the team and experience pediatrics away from a tertiary care hospital.

Required Prerequisite(s): PEDI 730

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

PEDI 709D Sub-I Pediatric Critical Care

Pediatrics

Course Purpose Statement: This elective will expose the student to the critical care of infants, children, and adolescents in a private, free-standing children’s hospital. The student will serve in a sub-intern role, and will assist the attending physicians with admissions as well as the ongoing care of patients. The goal of the course is to teach students how to recognize and stabilize critically ill children and to provide thoughtful, ongoing care.

Required Prerequisite(s): PEDI 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Randall Children’s Hospital
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship

**PEDI 709I Pediatric Infectious Diseases**

**Pediatrics**

**Course Purpose Statement:** The primary objective of this elective is to provide students with experience in several aspects of pediatric infectious diseases. Students will review basic microbiology, learn to perform a complete evaluation of a patient with a possible or proven infectious disease, and gain knowledge in the management of infectious disease patients. Patients will be seen in an outpatient subspecialty clinic and in inpatient consultations. Didactic teaching sessions, an open-book examination, and a suggested reading list are provided to the student.

**Required Prerequisite(s):** PEDI 730

*Course Director will not waive prerequisites for this course.*

**PEDI 709J Sub-I Peds Hematology/Oncology**

**Pediatrics**

**Course Purpose Statement:** The objective of this course is to provide the student with fundamental understanding of the pathophysiology, clinical characteristics and treatment of hematologic and oncologic conditions occurring in childhood. While there is an emphasis on the most common childhood cancers such as leukemias and brain tumors, the student also has the opportunity to learn the full spectrum of malignant solid tumors in children and common hematologic conditions such as aplastic anemia, coagulation disorders and the hemoglobinopathies. In addition, the student is involved in the stem cell transplant program and its role in the treatment of hematologic, oncologic, immunologic and genetic disorders, and will learn the treatment of infection in the immunocompromised patient. Students receive a written evaluation based on observation of performance and attendance at and contributions to the Division’s rounds and conferences. Students will spend time in the clinic or on the ward depending on their learning objectives and the census of the clinic or ward.

**Required Prerequisite(s):** PEDI 730

*Course Director will not waive prerequisites for this course.*

PEDI 709KF Rural Pediatrics - Campus for Rural Health - Klamath Falls

Pediatrics

Course Purpose Statement: The purpose of the Rural Pediatrics elective is to allow students to develop skills that allow for independent evaluation and management of pediatric patients. Students will concentrate on well child checks, growth and development, and common outpatient pediatric problems. Students will develop an understanding of unique healthcare needs of rural pediatric patients and their families. Students will round on inpatient pediatric patients, present patients and offer plan suggestions, and provide at least one brief teaching conference to the team.

Special Notes: Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): PEDI 730

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

Elective Experiences
**PEDI 709N Diag & Manag of Child Abuse**

**Pediatrics**

**Course Purpose Statement:** Educational goals in the Diagnosis & Management of Child Abuse elective will be achieved through a variety of educational experiences. 1. Participation in abuse and neglect consults at DCH and Randall Children’s Hospital. 2. Participation in meetings with CPS and police investigators regarding ongoing abuse evaluation. 3. Attendance at peer review conferences, include state and national teleconferences, and county multidisciplinary team meetings. 4. Participation in outpatient physical and sexual abuse evaluations at CNW, including observation of forensic interviews of children. 5. Shadowing a CPS worker for a day. 6. Attendance at court proceedings in which a medical provider is testifying. 7. Review of journal articles and video presentations on common child abuse topics to ensure a foundation of knowledge independent of the types of consults seen during the rotation. 8. Completion of a series of child abuse case scenarios with an attending physician at the end of the rotation. 9. Development of a child abuse case scenario powerpoint, including photos and imaging studies, to be used by future medical students. 10. Brief presentation on a topic of interest in child abuse.

Approximately 50% of the student’s time will be spent on the inpatient consultation service at DCH and RCH. In between consults, the student will complete the required reading and video list, develop a case scenario, and prepare a presentation. Approximately 30% of the student’s time will be spent participating in outpatient consultations at CNW. Approximately 20% of the student’s time will be spent on field trips to court and meetings and attending peer review conferences.

**Special Notes:** Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** Department approval

*Course Director will not waive prerequisites for this course.*

PEDI 709P Well Newborn Nursery

Pediatrics

Course Purpose Statement: The goal of this rotation is to expose the student to the care of the well newborn. Students can also expect to learn about a variety of common conditions in the newborn period, including neonatal jaundice, neonatal infections, evaluation and management of newborn feeding problems, and the management of infants born to mothers with diabetes, infections, substance use, and other medical conditions. Learning will be accomplished through didactic instruction, reading, and hands-on experience caring for infants in the OHSU Mother Baby Unit.

Special Notes: Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

PEDI 709R Pediatric Surgery-PeaceHealth Sacred Heart

Pediatrics

Course Purpose Statement: Students will be responsible for preoperative evaluation of pediatric patients with surgical disorders, including evaluation of laboratory and imaging information, performance of history and physical examinations, and discussion of differential diagnoses for common presenting chief complaints. The student will acquire operative skills in both simple and complex pediatric surgical procedures; postoperative management skills, including wound care, pain, nutrition and fluid/electrolyte status; and experience with long-term follow-up of patients. The student will spend 30% of their time seeing patients in clinic performing basic clinical procedures in pediatric patients, including primary closure of incisions, management of open and infected wounds, intravenous line placement, and placement of urinary catheters. Students will also spend time in the NICU/Pediatric Unit/ER for rounds and consults. PeaceHealth Sacred Heart Medical Center has 2 hospitals: the University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one-on-one with their attending with increased autonomy. There are no residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): SURG 730 and Site approval

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene

**PEDI 709X Pediatrics Special Elective**

**Pediatrics**

**Course Purpose Statement:** The purpose of this elective is for students to gain in-depth experience in a Pediatrics subspecialty of their choosing. Students must make special arrangements with a faculty member and department for an individual program of study. The Special Elective Request form must be approved by the faculty member, departmental Clerkship Director, and the Curriculum & Student Affairs office prior to the first day of the rotation.

Special Elective options include Camp Starlight, a week-long summer camp for children ages 5-15 infected or affected by HIV. Camp Starlight is held the last week of August. 4th year medical students can be counselors or activity specialists; credit can be arranged for part of the pediatric rotations. Students must commit to the entire camp from Saturday morning through Friday afternoon. Students must be cleared by Camp Starlight’s interview and background check process. Volunteer selection begins in April/May of each year. Contact Camp Starlight for further information: info@camp-starlight.org or www.camp-starlight.org.

**Special Notes:** Students must obtain departmental approval to enroll on this course. Please email the Course Coordinator to obtain approval. If you are approved, forward the email confirming this to Matthew Rempes at rempes@ohsu.edu no later than one day prior to the end of the lottery. This approval will be entered into the lottery and will allow you to list the course as a preference. Please note that the approval does not guarantee you a spot in the course.

Students must also complete the Special Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

**Required Prerequisite(s):** Departmental approval and completed Special Elective Request Form

**PEDI 710G Pediatric Gastroenterology**

**Pediatrics**

**Course Purpose Statement:** This elective offers the student clinical experience in combined inpatient and outpatient settings seeing children with various gastrointestinal disorders. Students will round on the inpatient service and be asked to follow one or two consult patients. Students will see patients on a daily basis and report and present patients' vital signs, lab test results, clinical courses, and plans from the previous 24 hours. When on the outpatient service, the students will see, interview and examine patients and their families and report back to the attending gastroenterologist with their findings. Students should make an attempt at an assessment and plan. Students will also have the opportunity to observe various GI procedures and attend some teaching conferences like path and radiology rounds with the GI team. The rotation will introduce the student to acute and chronic conditions affecting the entire gastrointestinal (GI) tract including nutritional disorders and hepatobiliary-pancreatic systems. Specifically, patients may have a wide array of disorders ranging from acute (e.g., GI bleeding) or chronic disorders (e.g., Crohn's disease) and low (e.g., irritable bowel syndrome) to high (e.g., s/p liver transplant) acuity. The student may observe endoscopic and other diagnostic (e.g., motility) and therapeutic (e.g., foreign body removal) procedures. Some patients have liver failure requiring artificial liver support or hepatic transplants, while others have short bowel syndrome and intestinal failure requiring chronic intravenous nutrition, enteral tube feeding or a small intestinal transplant. The student will work collaboratively with dieticians, speech therapists, psychologists, pulmonologists, otolaryngologists, surgeons, other subspecialists and primary care doctors.

**Special Notes:** Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. PEDI 710PP OHSU DCH PICU Medical Student-Nurse Rotation

Pediatrics

Course Purpose Statement: Collaboration between physicians and bedside nurses is a cornerstone of quality patient care. Despite improved attention to interprofessional education as a means of enhancing understanding and teamwork, there remain few authentic, clinically based interprofessional experiences for students in the inpatient setting.

On this rotation, you will spend three 12-hour shifts per week (1-3 should be night shifts, 7-7) working with the PICU nurses, learning nursing interventions, interacting with patients and families, and generally becoming acclimated to the interdisciplinary environment of the PICU. You will be assigned a nursing preceptor by the PICU charge nurse during the shifts worked. You will spend some time with the PICU pharmacist and PICU-registered dietitian on some of the days as well.

Special Notes: At least 2 weeks prior to the beginning of the rotation, you should contact Dr. Ibsen with the shifts you wish to work and set up a time to orient to the unit.

Required Prerequisite(s): None

Duration: Two Weeks

PEDI 741A Pediatric Critical Care Continuity Experience

Pediatrics

Course Purpose Statement: The student will be part of the Critical Care team for a full 8 weeks as part of a continuity experience, including continuity of faculty and continuity of place. Students will follow patients who are in the ICU for several days to several weeks in order to provide the student with a patient care continuity experience.

Special Notes: Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): PEDI 730 and department approval

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

PEDI 741B Congenital Heart Disease Continuity Rotation

Pediatrics

Course Purpose Statement: This course will expose the student to the depth and breadth of care of the patient with congenital heart disease (CHD). The student will follow patients through pre-natal diagnosis, to the NICU, PICU, surgery, imaging, and follow up. They will also be exposed to adults with congenital heart disease. The student will gain experience with multiple aspects of CHD care, including imaging, surgery, ICU care, clinic, and follow up.

Special Notes: Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**PEDI 741J Pediatric Oncology Continuity Rotation**

**Pediatrics**

**Course Purpose Statement:** This course will expose the student to the wide range of patients, diseases, and treatments for children and young adults with cancer. The student will spend time in the clinic, the wards, and attend clinical conferences. The student will be exposed to the multi- and interdisciplinary nature of pediatric oncology and will follow several patients throughout the rotation.

**Special Notes:** Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** PEDI 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**Duration:** Eight Weeks  
**Site(s):** OHSU  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Continuity Clinical (Patient Care)  
**Credit:** 8  
**Available through the Lottery:** No

PEDI 741U NICH: Novel Interventions in Children's Healthcare Continuity
Elective

Pediatrics

Course Purpose Statement: NICH is a program for children and adolescents with complex medical conditions who struggle to properly manage their health and are repeatedly hospitalized. In collaboration with CareOregon and other insurance providers, we have developed NICH, or Novel Interventions in Children's Healthcare, to provide intensive behavioral health care for young people living with diabetes, cancer, cystic fibrosis, kidney disease and chronic pain. Students will be paired with a Master's prepared Interventionist and will participate in all clinical activities related to that worker’s caseload (typically 5-10 patients). The student will also attend clinical reviews of cases and supervision with PhD psychologists. The Interventionists go to patient homes, attend patients' medical appointments, provide care coordination, work with state agencies, etc. Depending on interest, students can also be involved in research performed by the program and participate in systems-level program development.

Special Notes: Students must have access to a car to drive to off-site locations.

Required Prerequisite(s): None

Duration: Eight Weeks
Site(s): OHSU; Other community sites
Grading Method: 5-tiered Letter Grade
Type: Continuity Clinical (Patient Care)
Credit: 8
Available through the Lottery: Yes

PEDI 741W Neonatal Continuity Elective

Pediatrics

Course Purpose Statement: This course will expose the student to continuity care of the neonatal and infant patient. Students will attend prenatal visits and conferences, follow patients in the NICU, and visit the NICU follow up clinic. Students will be assigned patients and follow those patients through the entire duration of the rotation. Students will also participate in discharge planning and clinical consensus conferences.

Special Notes: Department approval is required prior to registering for this elective; it will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, whether you have met stated prerequisites, the elective you wish to take (name and number), and when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): PEDI 730 and department approval

Psychiatry
PSYC 701A Psychiatric Research

Psychiatry

**Course Purpose Statement:** Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any area of Psychiatry. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting. For options in Psychiatry research, see the research appendix of this catalog.

**Special Notes:** Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

**Required Prerequisite(s):** Completed Research Elective Request Form

**Duration:** Four Weeks  
**Site(s):** OHSU; VA  
**Grading Method:** Pass/No Pass  
**Type:** Research

- PPPD 10
**PSYC 709C Sub-I Psychiatry**

**Psychiatry**

**Course Purpose Statement:** This elective is designed for those students who, having already completed their core psychiatric clinical experience, wish to gain further inpatient psychiatry experience. This experience includes a program of guided reading, patient interviewing, and patient follow-up for the assessment and treatment of acute psychopathology presentations. Students are assigned to an OHSU faculty member at any of several inpatient treatment sites. The student is the primary contact with the patients on their team, with either the second year resident and/or the attending providing supervision on a wide range of patients encountered in acute inpatient psychiatry.

**Special Notes:** Students must contact the Psychiatry Medical Student Coordinator taylorki@ohsu.edu as soon as they are registered to find out their designated site placement. Students assigned to OHSU should email Dr. Gross (gross@ohsu.edu) and Dr. Haupt (haupt@ohsu.edu); students assigned to Unity Hospital should contact Dr. Blekic (blekica@ohsu.edu); students assigned to the VA should email Dr. Buboltz (buboltzm@ohsu.edu) one month prior to the elective start date to ensure all required access paperwork and other required information is completed prior to start date. Please CC taylorki@ohsu.edu on this email.

**Required Prerequisite(s):** IMED 730 and PSYC 730

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

**Duration:** Four Weeks

**Site(s):** OHSU; VA

**Grading Method:** 5-tiered Letter Grade

**Type:** Sub-Internship

**Credit:** 6

**Available through the Lottery:** Yes

Elective Experiences
PSYC 709CB Rural Psychiatry - Campus for Rural Health - South Coast

**Psychiatry**

**Course Purpose Statement:** The purpose of the South Coast Rural Psychiatry elective is to familiarize the student with the community mental health system in rural Oregon and allow the student to participate in various aspects of consultation and patient care in a public mental health center. Students will learn about patterns of mental illness, the nature of mental health care delivery, drug and alcohol treatment programs and the interface of law and psychiatry.

This rotation may focus on juvenile and/or adult patients. There is an option to spend part of the rotation working with pediatric mental health specialists including mental health counselors and a child psychiatrist, and part of the rotation with community general pediatricians. This will allow the student to see the management of pediatric mental health issues in both settings and the collaboration and cooperation between the two types of providers.

**Special Notes:** This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

**Required Prerequisite(s):** None

Psychiatry

Course Purpose Statement: The purpose of the Intercultural Psychiatric Program (IPP) elective is for students to learn about the practice of psychiatry in a unique outpatient setting. IPP provides culturally sensitive mental health services for immigrant, refugee and ethnic communities with an emphasis on individuals and families whose first language is not English. IPP staff includes 16 counselors offering services in over 15 languages including Amharic, Arabic, Bosnian, Burmese, Cambodian, Farsi, Kurdish, Laotian, Mai Mai, Mien, Oromo, Russian, Somali, Spanish (Central and South American), Swahili, and Vietnamese. Students will have the opportunity to observe and participate in patient care, treatment, socialization center activities, and faculty research. Please email Dr. Boehnlein (boehnlei@ohsu.edu) one month prior to the elective start date to ensure all required access paperwork and other required information is completed prior to start date. please CC taylorki@ohsu.edu on this email.

Required Prerequisite(s): None

Duration: Two Weeks
Site(s): Intercultural Psychiatric Program
Grading Method: Pass/No Pass

RADT 741X Radiation Med Special Continuity Elective

Radiation Medicine

Course Purpose Statement: The purpose of this continuity clinical elective is for students to have more in-depth experience in Radiation Medicine. Students must make special arrangements with a faculty member and the department for an individual program of study. To fulfill Continuity Clinical Experience graduation requirement, the experience must be minimum 8 full-time weeks in duration or equivalent effort over a longer duration if experience is not full-time. Experience must allow students to maintain continuity in at least 2 of the following 3 ways:
  - Continuity with the same patient(s)
  - Continuity with the same health system
  - Continuity with the same preceptor(s)

Required Prerequisite(s): Completed Continuity Special Elective Request Form

Course Director will not waive prerequisites for this course.

Duration: Eight Weeks
Site(s): OHSU
Grading Method: Pass/No Pass

Elective Experiences
Rural Scholars
**RSP 741 Oregon Rural Scholars Program**

**Rural Scholars**

**Course Purpose Statement:** The purpose of the Oregon Rural Scholars Program Experience is to provide students who are highly motivated toward rural primary care with an opportunity to experience what their future career path could be. Rural Scholars are competitively admitted into the program during their first year. Each Scholar is matched to a community with which the Scholar will interact throughout his or her training. Depending on the site, students will complete a Core Clinical Experience in a primary care practice during the first 4-weeks (Family Medicine or General Surgery), followed by an 8-week long RSP elective in the same practice. Students will develop a deep and comprehensive understanding of a primary care specialty practiced within a rural community setting, as well as concepts of community and public health, epidemiology, and resource allocation. Rural Scholars will simultaneously fulfill their continuity clinical experience and rural clinical experience graduation requirements.

**Special Notes:** This elective was previously listed in the catalog as RSP 731. This elective’s duration is 12 weeks in total in combination with Core Clinical Experience component.

**Required Prerequisite(s):** Admittance to the Rural Scholars Program

---

**Duration:** Eight Weeks  
**Site(s):** Various  
**Grading Method:** 5-tiered Letter Grade

School of Medicine
CARD 709CB Rural Cardiology - Campus for Rural Health - South Coast

School of Medicine

Course Purpose Statement: The purpose of the South Coast Rural Cardiology elective is for students to gain experience and proficiency in the care of patients with heart disease in a rural community. This elective provides students with a ratio of roughly 75% inpatient work and 25% outpatient work, while working under the supervision of an attending cardiologist at the Prefontaine Cardiovascular Center in Bay Area Hospital. Students will learn basic clinical cardiology with an emphasis on cardiac electrophysiology. Students will participate in pacemaker/defibrillator implantation, mapping studies and ablation procedures.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Required Prerequisite(s): None

ELECTIVE EXPERIENCES

DERM 709H Dermatology - PeaceHealth Sacred Heart

School of Medicine

Course Purpose Statement: The purpose of the Eugene Dermatology elective is for students to gain experience and proficiency in the care of patients with a wide range of dermatological diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology and common procedures. Students will perform KOH slide preparations, biopsies, and excisions. Students will see patients in both the office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will contribute to a weekly clinical case conference. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you.

Required Prerequisite(s): Site approval

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene
Grading Method: 5-tiered Letter Grade

Elective Experiences
DERM 709SC Dermatology - St. Charles Bend

School of Medicine

Course Purpose Statement: The purpose of the Bend Dermatology elective is for students to gain experience and proficiency in the care of patients with a wide range of dermatological diseases. Students will learn basic clinical dermatology with an emphasis on mastering standard terminology and common procedures. Students will perform KOH slide preparations, biopsies, and excisions. Students will see patients in both the office and a multidisciplinary clinic, while working under the supervision of an attending dermatologist. Students will attend weekly Grand Rounds and contribute to a clinical case conference.

Special Notes: Students must seek site approval before registering for this elective. It will not be available for registration through the lottery. To register for this course, email site coordinators at tcrocket@stcharleshealthcare.org (Tonya Crockett) and ssjordan@stcharleshealthcare.org (Sheila Jordan) your name, which class (i.e., MED19, MED18), elective course number and name, your top three choices of block dates (for example, 1st choice: Winter 3, 2017, 2nd choice: Spring 1, 2017, 3rd choice: Summer 1, 2017), whether or not you will have met all preprac, and whether or not you need a housing. Once they receive your request via email, they will reply to you with the block you are approved to take and cc Kaitlin Seymore. Generate one email per one course. You must be in good academic standing in order to take this elective.

GMED 709CB Rural Internal Medicine - Campus for Rural Health - South Coast

School of Medicine

Course Purpose Statement: The purpose of the South Coast Rural Internal Medicine elective is for students to gain experience and proficiency in the comprehensive care of patients in a rural community. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases at a regional medical center, while gaining an appreciation of the unique challenges faced by rural practitioners. Students will see patients in both the hospital and clinic, while working under the direct supervision of selected internists.

Special Notes: This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, martili@ohsu.edu (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitlin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

IS 709A Global Southeast Asia Clinical Field Experience

School of Medicine

Course Purpose Statement: The Global Southeast Asia Clinical Field Experience provides a structured global health immersion experience, introducing medical students to the factors contributing to health and disease globally through the lens of experiential clinical learning in Southeast Asia. Based in Bangkok, Thailand, with potential additional opportunities to visit field sites near Mandalay, Myanmar or Vientiane, Laos, the elective allows students to expand and refine their clinical skills in diverse clinical settings with burdens of disease, resources, diagnostic and treatment algorithms, and health systems that differ, sometimes widely, from US medical settings. More broadly, the course aims to develop students’ ability to understand and conceptualize health as the endpoint of multiple complex processes - including historical, political, economic, and cultural – and to apply these concepts in contrasting settings.

Special Notes: This elective is not available through the lottery. Interested students should contact the Course Director as soon as possible to discuss the application process for the Thai site, which must be completed 6 months prior to planned travel. Upon successful completion of the application process and confirmation of clinical placement in the Faculty of Medicine, Siriraj Hospital, the Course Director will sign off on the International Away Form for IS 709A Global SE Asia Clinical Field Experience (located on the Student Portal under Forms); this form is required for OCA registration and must be submitted as part of the OCA registration process a minimum of 4-6 weeks prior to departure. Please forward the final acceptance email to either Marcia Decaro (decaro@ohsu.edu) or Kaitlin Seymore (seymore@ohsu.edu).

Required Prerequisite(s): Internal Medicine (IMED 730 or Elective) or Family Medicine (FAMP 730 or Elective)

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the Course Director for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to either Marcia Decaro (decaro@ohsu.edu) or Kaitlin Seymore at seymore@ohsu.edu.

Duration: Four Weeks
Site(s): Siriraj Hospital, Bangkok, Thailand
Grading Method: Pass/No Pass
Type: Clinical (Patient Care)
Credit: 4
Available through the Lottery: No

JCON 725 MD/PhD Clinical & Translational Research Clerkship

School of Medicine

Course Purpose Statement: The purpose of the Clinical and Translational Research Experience is to provide a mentored continuity experience with clinical research. It will include direct patient contact with study participants, as well as clinical study staff. They will consent patients, develop a deeper understanding of clinical trials, limitations, regulatory agencies and more. Students will develop an understanding of the institutional review board process, and clinical research design and implementation.

Special Notes: This elective is not available for registration through the lottery. MD/PhD students should enroll in this course by contacting Marcia Decaro at decaro@ohsu.edu

Required Prerequisite(s): All required clinical Core (FAMP 730, IMED 730, NEUR 730, OBGY 730, PEDI 730, PSYC 730, SURG 730) AND Enrolled in the MD/PhD program or Course Director approval

Duration: Eight Weeks
Site(s): OHSU
Grading Method: 5-tiered Letter Grade
Type: Continuity Clinical (Patient Care)
Credit: 8
Available through the Lottery: No

**JCON 799 Self-Directed Learning**

School of Medicine

**Course Purpose Statement:** Students interested in credit for self-directed learning experiences should register for JCON 731. Although a course director is listed here for this class, students may ask any faculty member (faculty sponsor) to work with them and sponsor self-directed learning. This course is only offered on a P/NP basis. To obtain approval for the proposed experience, students should contact the faculty member sponsoring the learning experience in as much advance of the quarter as possible. Students must complete JCON731 Self-Directed Learning Learning Contract Form (Student Portal, under Forms). Workload per course, per term is 12 hours. Students will receive 0.25 credits per course, per term. No more than 1 credit of this course may be used toward a graduation degree.

**Special Notes:** This elective is not available for registration through the lottery. MD/PhD students should enroll in this course by contacting Marcia Decaro at decaro@ohsu.edu. Students must register at least 60 days in advance of their intended start date.

**Required Prerequisite(s):** None

**Duration:** Twelve Weeks  
**Site(s):** OHSU  
**Grading Method:** Pass/No Pass  
**Type:** Non-Clinical  
**Credit:** 0.25  
**Available through the Lottery:** No

Elective Experiences
MULT 709CB Rural Family Medicine - Campus for Rural Health - South Coast

School of Medicine

Course Purpose Statement: The purpose of the South Coast Rural Family Medicine elective is for students to gain experience and proficiency in the comprehensive care of patients in a rural community. Students will participate in the diagnosis and treatment of a wide range of acute and chronic diseases, as well as health maintenance, while gaining an appreciation of the unique challenges faced by rural practitioners. Students will see patients in both the hospital and clinic, while working under the direct supervision of selected clinical faculty.

Special Notes: Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Housing is provided.

Required Prerequisite(s): None

Duration: Four Weeks
Site(s): Campus for Rural Health - South Coast (Coos Bay/North Bend); Campus for Rural Health - South Coast (Coquille/Myrtle Point/Bandon)
Grading Method: 5-tiered Letter Grade
Type: Rural Clinical (Patient Care)
Credit: 4
Available through the Lottery: Yes

OPHT 709H Ophthalmology - PeaceHealth Sacred Heart
School of Medicine

Course Purpose Statement: The purpose of the Eugene Ophthalmology elective is for students to gain experience and proficiency in the diagnosis and treatment of common eye problems. Students will learn clinical ophthalmology with an emphasis on obtaining a comprehensive ocular history and performing a basic ophthalmological exam. Students will master basic ocular anatomy and pathophysiology. Students will see patients in both the office and the Oregon Eye Surgery Center, while working under the supervision of an attending ophthalmologist. Students will supplement their clinical education with required readings from Basic Ophthalmology for Medical Students and Primary Care Residents, 8th Edition. American Academy of Ophthalmology. PeaceHealth Sacred Heart Medical Center has two hospitals; University District in Eugene and RiverBend in Springfield, OR, approximately 100 miles south of the main OHSU campus. Students participating in rotations in this community will work one on one with their attending with increased autonomy. There are no Residents practicing at these hospitals or community clinics.

Special Notes: Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you. You must be in good academic standing in order to take this elective.

Required Prerequisite(s): Completed Site Coordinator Pre-Approval Form

Duration: Four Weeks
Site(s): PeaceHealth Sacred Heart Medical Center, Eugene: Fine, Hoffman & Sims Clinic
Grading Method: 5-tiered Letter Grade
Type: Clinical (Patient Care)

**SURG 709CB Rural Surgery - Campus for Rural Health - South Coast**

**School of Medicine**

**Course Purpose Statement:** The purpose of the South Coast Multidisciplinary Surgery elective is for students to gain experience and proficiency in the multidisciplinary surgical care of patients in a rural community. Students will participate in the diagnosis and treatment of a wide range of surgical conditions across the subspecialties of general surgery, orthopedics, urology, otolaryngology, plastic surgery and gynecological surgery. Students will see patients in both the hospital and clinic, while working under the supervision of selected clinical faculty. Students will assist in performing minor office procedures.

**Special Notes:** This elective is available through the lottery. Site approval is required post-lottery. To register for this course post-lottery, email the site coordinator, [martili@ohsu.edu](mailto:martili@ohsu.edu) (Linda Martin) with your name, class (e.g., MED19), the elective course number and name, and your top three choices for block dates. The site coordinator will let you know which block they have placed you for and will cc Kaitin Seymore and OHSU Coordinator to formally enroll you. Housing is provided by OHSU.

Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Surgery
CSUR 709A Sub-I Cardiothoracic Surgery

Course Purpose Statement: The purpose of the Cardiothoracic Surgery clinical experience is for students to participate in the surgical management of adult cardiac and thoracic surgery patients. Students will learn all aspects of cardiothoracic surgery, including valve replacements, coronary artery revascularization, aortic dissection repair, surgical arrhythmia ablation, heart transplantation, lung resection, esophageal procedures and mediastinal exploration. Students will attend didactic lectures, one-on-one faculty teaching sessions, clinical rounds, and scrub into cases. Students will see patients in the clinic, on the ward, and in the CVICU. Site physician is Dr. Howard Song.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks

SURG 701A Surgery Research

Surgery

Course Purpose Statement: Students will participate in research (arrangement made by student) within the department of surgery. At the completion of the rotation, the student should turn in a summary of the research performed (2-4 pages) which includes background of the process you are studying and the question you are trying to answer, methods (including statistical analysis), results, and a description of your actual research experience. Using preliminary data to write an abstract is encouraged. Students should also include a plan for eventual submission and presentation of your work. Students must fill out a form and have approval from the surgical faculty mentor, the surgery department and the dean’s office prior to signing up. Please contact the surgery coordinator for the requirements for this course.

Special Notes: Students must complete the Research Elective Request form in order to take this course. Please register for the course through the lottery and visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): Completed Research Elective Request Form

Duration: Four Weeks
Site(s): OHSU; VA
Grading Method: Pass/No Pass
Type: Research
Credit: 4
Available through the Lottery: No

SURG 709A OHSU TICU / SICU

Surgery

Course Purpose Statement: Students have the opportunity to participate in the management of complex, critically ill trauma, general surgery, and transplant patients. This is a highly educational experience that combines opportunities for patient management with excellent bedside and didactic teaching. OHSU is a quaternary care center for the state of Oregon and one of the only two Level 1 Trauma Centers, adding to the excellence of this opportunity. Students make daily rounds with trauma surgeons, fellows, residents, and PAs. This is an excellent educational experience secondary to bedside teaching as well as multiple planned conferences to include Trauma Conference, Morbidity and Mortality, and a didactic lecture series. Students also get the opportunity to present a case they have managed at one of the Trauma Conferences. Throughout the rotation, students will be presented with case based modules and will receive feedback on these assignments. Students will take a final exam at the end of the rotation. Site physician is Dr. Martin Schreiber.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director will not waive prerequisites for this course.

SURG 709B Sub-I General Surgery- OHSU- Blue

Surgery

Course Purpose Statement: The rotation focuses specifically on the pancreas, the hepatobiliary system, diseases of the adrenal glands and spleen, and hernias of all types. The physicians are trained in both minimally invasive and open surgery. You will develop skills evaluating, diagnosing and caring for surgical patients. You will be able to identify critical aspects of patient care in patients with diseases of the pancreas, hepatobiliary system, adrenal glands, spleen, and of all types of hernias. You will have hands-on experience in the operating room assisting with operative procedures. Responsibilities include evaluating consult patients in the emergency room, on the hospital wards and in our out-patient clinics. You will round on and present your patients on the wards as well as assist with wound care. You will be able to participate in multidisciplinary tumor conferences and you should be able to deliver effective patient presentations. You will be expected to have the ability and willingness to work in a cooperative manner with all other healthcare personnel who care for our patients. After completing this rotation, you will have an in-depth knowledge of benign and malignant disease of the pancreas, hepatobiliary system and with solid organ disease and hernias of all kinds. Site physician is Dr. Brett Sheppard.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

**SURG 709G Vascular Surgery Subinternship**

**Surgery**

**Course Purpose Statement:** The purpose of this rotation is for students to participate in the evaluation and management of patients with vascular diseases. Students will participate in the continuum of care of patients presenting with vascular diseases including preoperative evaluation and risk stratification/reduction, operative management of vascular diseases, postoperative management (both inpatient and outpatient setting) and surveillance of surgical (open and endovascular) outcomes. Students will be expected to understand the pathophysiology of, and participate in the care of patients with hemodialysis access needs, thoracic and/or abdominal aortic aneurysms, acute arterial occlusion, chronic arterial occlusive disease, extracranial carotid occlusive disease, and acute and chronic venous diseases. Students will attend didactic lectures, participate in clinical rounds, and scrub into open and endovascular cases. Students will see patients in the clinic, on the ward, and in the cardiovascular intensive care unit. Site physician is Dr. Enjae Jung.

Elective Experiences

**SURG 709H General Surgery - PeaceHealth Sacred Heart**

**Surgery**

**Course Purpose Statement:** This rotation is for students who want to further develop a higher level of comfort evaluating, diagnosing, and treating surgical patients. They will learn to identify critical points in inpatient and outpatient care and follow-up of surgical patients. They will have the opportunity to work at two different hospitals, University District in Eugene and RiverBend in Springfield. Students participating in rotations in this community will work one on one with their attending with increased autonomy functioning at an intern level. There are no residents practicing at these hospitals or community clinics. Students will spend the majority of the time in general surgery, but will have exposure to a broad based surgery service. They will also have hands on experience with minor office procedures. This site is subject to availability. You will be notified if there is no place for you to be placed during your requested rotation. Site physician is Dr. David DeHaas.

**Special Notes:** Site approval is required. This elective is not available through the lottery. To register for this course, email the site coordinators, isogge@peacehealth.org (Irene Sogge) / ctraver@peacehealth.org (Chris Traver), with your name, class (e.g. MED19), the elective course number and name, and your top three choices of block dates. Indicate whether you will have met all prerequisites and if you need student housing. The coordinators will let you know which block they have placed you and will cc Kaitlin Seymore to formally enroll you. You must be in good academic standing in order to take this elective.

**Required Prerequisite(s):** SURG 730 and Site approval

*Course Director will not waive prerequisites for this course.*

**Duration:** Four Weeks  
**Site(s):** PeaceHealth Sacred Heart Medical Center, Eugene  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 6  
**Available through the Lottery:** No

SURG 709K Rural General Surgery – Grants Pass

Surgery

Course Purpose Statement: Students will have exposure to a rural general surgery practice and identify the important issues involved in being a rural surgeon (that differ from practicing in a tertiary referral center). They will develop a higher level of comfort evaluating, diagnosing, and treating surgical patients and will learn to identify critical points in inpatient and outpatient care of surgical patients. They will have exposure to the broad spectrum of rural general surgical procedures and will also have hands on experience with minor office procedures. Students will be assigned a preceptor surgeon who will supervise their experience. The majority of the time will be spent in general surgery, but students will have the opportunity to rotate through other surgical specialties. Site physician is Dr. Mark Deatherage.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Grants Pass
Grading Method: 5-tiered Letter Grade
Type: Rural Clinical (Patient Care)

SURG 709KF Rural Surgery - Campus for Rural Health - Klamath Falls

Course Purpose Statement: The purpose of the Klamath Falls General Surgery clinical experience is for students who has completed at least 4 weeks of surgery core clinical experience and interested in a surgical career to participate in the care and operative management of surgical patients in a rural setting. Students will learn the specific issues encountered by a rural surgeon and how they differ from those practicing in an urban or tertiary setting. Students will hone their skills in evaluating, diagnosing, and treating a broad range of surgical patients. Students will see patients in the outpatient clinics, emergency room, and inpatient wards. Students will gain hands-on experience with minor office procedures and assist in the operating room. Site physician is Dr. Stanton Smith.

Special Notes: Students completing clinical and non-clinical experiences at a Campus for Rural Health site will automatically be enrolled in a required interprofessional community-based project course and participate in interprofessional activities on their first Campus for Rural Health rotation. Following successful completion of the community-based project 1 credit course, students will have the option of being enrolled in the course in subsequent rotations.

Completion of IMED 730 prior to taking this course is recommended.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Campus for Rural Health - Klamath Falls

SURG 709L Sub-I Burns/General Surgery - Legacy Emanuel

Surgery

Course Purpose Statement: The rotation includes general surgery, acute burn care and the surgery required thereto (ICU and step-down care), reconstructive burn care, and a variety of complex wound management cases, such as necrotizing soft tissue infections, open abdomen/fistulas, purpura fulminans, pressure ulcers, etc. The burn ICU generally has between 5-7 patients in some phase of their surgical critical care and typically see 80-100 cases per month. In addition, there are plastic surgery admissions to the house staff service. Please note this course is not offered all rotations. Site director is Dr. Niknam Eshraghi.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks
Site(s): Legacy Emanuel
Grading Method: 5-tiered Letter Grade
Type: Sub-Internship
Credit: 6
Available through the Lottery: Yes

SURG 709M General Surgery - Gold Beach

Surgery

Course Purpose Statement: Students will have exposure to a rural general surgery practice and identify the important issues involved in being a rural surgeon (that differ from practicing in a tertiary referral center). Student will develop a higher level of comfort evaluating, diagnosing, and treating surgical patients. The majority of the time will be spent in General Surgery, but they will also have exposure to the broad spectrum of rural surgery procedures. They will evaluate patients in both inpatient and outpatient setting, have hands on experience with minor office procedures and assist in the operating room. Site physician is Dr. Glenn Levine.

Special Notes: It is preferred that students who take this course intend to go into a Surgical specialty.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks  
Site(s): Gold Beach  
Grading Method: 5-tiered Letter Grade  
Type: Rural Clinical (Patient Care)

**SURG 709N Surgical Nutrition**

**Surgery**

**Course Purpose Statement:** Students will spend 5-10 hours per week of discussion/didactic sessions with faculty plus 20-30 hours per week of clinical responsibilities. (They will average 35 hours a week.) Students will be expected to take overnight call on a schedule determined by faculty availability. Student responsibilities include working up patients, participating in operations, and postoperative care rounds with surgical, wound care, nutritional, and multidisciplinary teams. Didactics and discussions will focus on topics and literature relevant to surgical nutrition. In clinical duties, special emphasis will be placed on care of patients with special nutritional needs. At the completions of the rotation, students should be able to design and implement a plan for nutrition management for a patient throughout the course of their surgical condition. Site physician is Dr. Robert Martindale.

**Special Notes:** Only the dates listed in the table below will be available for registration through the lottery. If students want to take this elective during other blocks, please contact Marci Jo Carlton at carltonm@ohsu.edu for availability and Marcia Decaro at decaro@ohsu.edu to enroll in this course after the lottery.

**Required Prerequisite(s):** None

SURG 709PA Providence General Surgery - Providence

Course Purpose Statement: The focus of the rotation will be on the management of a broad variety of malignant and benign general surgical disease using advanced general surgical techniques. Students will have the opportunity to have focused experiences in hepatobiliary/pancreatic, esophageal, or colorectal diseases. They will have the opportunity to participate in other general surgery experiences as well. Students will be assigned a preceptor surgeon who will supervise their experience. Students will participate in outpatient clinics, operating room, and the inpatient ward. They will have the opportunity to gain experience by scrubbing into a wide variety of operations. Site physician is Dr. Paul Hansen.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks

SURG 709Q Transition to Surgical Internship

Course Purpose Statement: The course focuses on teaching technical and patient management skills expected of any surgical intern using a hands-on approach and case-based scenarios. Simulations and labs will be used to teach technical skills with concurrent and summary feedback provided by residents and faculty. The emphasis is on preparing students to manage common problems encountered in surgical patients. Students will be asked to independently assess and form a plan of action of patient care in a number of settings including via mock page scenarios.

Special Notes: It is preferred that students who take this course intend to go into a Surgical internship.

Required Prerequisite(s): SURG 730 and one of the following: CSUR 709A, PLAS 709A, PSUR 709A, SURG 709A, SURG 709B, SURG 709D, SURG 709G, SURG 709GE, SURG 709H, SURG 709K, SURG 709KF, SURG 709L, SURG 709M, SURG 709PA, SURG 709R, SURG 709RE, SURG 709RR, SURG 709S, SURG 709T, SURG 709U, SURG 709V, SURG 709VA

Course Director will not waive prerequisites for this course.

SURG 709R Abdominal Organ Transplant

Course Purpose Statement: This course is designed to educate medical students regarding the surgical management of liver and kidney transplantation as well as hepatobiliary surgery. Exposure to transplant patients will help students appreciate the process of abdominal organ transplantation from the patient perspective. Interaction with experts in the field will allow the student to expand their clinical knowledge in kidney disease, liver disease and transplant surgery. The student will participate in rounds, clinic, selection committee meetings, and tumor board conferences, as well as assist with surgical procedures. The student may have the option of participating in local organ procurement procedures when they occur. Site physician is Dr. Kayvan Roayaie.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

SURG 709RE Sub-I General Surgery - OHSU - Red

Surgery

Course Purpose Statement: This course specifically focuses on conditions and surgery of the foregut (esophagus, stomach and small bowel). The physicians are trained in minimally invasive, bariatric and robotic surgery as well as conventional surgical approaches. You will develop a higher level of comfort evaluating, diagnosing, triaging surgical patients, and working on a multi-functioning specialty team. You should be able to identify critical points in inpatient and outpatient follow-up of surgical patients with morbid obesity or diseases of the esophagus or stomach. You will have hands on experience with minor clinical procedures. Responsibilities include working up patients, pre- and post-operative care, evaluating in the emergency room and outpatient clinics, rounding in wards, assisting in surgeries, postoperative care rounds, and surgical wound care. You will also participate in multidisciplinary conferences. You should be able to design and implement a patient plan, write orders, and give patient presentations. After completing this rotation, you will have an in-depth knowledge of benign esophageal conditions, spastic disorders of the esophagus, esophageal and gastric cancer, metabolic syndrome and the consequences of bariatric surgeries and gallbladder disease. Site physician is Dr. James Dolan.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

SURG 709T Surgery-Trauma - Legacy Emanuel

Surgery

Course Purpose Statement: The purpose of the Emanuel Trauma and Critical Care clinical experience is to allow students to participate in the care and operative management of acutely-injured patients in a Level 1 trauma center. They will care for the critical ill patient in the ICU. Students will hone their skills in evaluating, diagnosing, and treating surgical patients, as well as, delivering patient presentations on the ward, ICU, and at conferences. Students will assist with procedures in the operating room, attend teaching conferences, and assume an active role on a multi-functioning specialty team. Site physician is Dr. Riyad Karmy-Jones.

Required Prerequisite(s): SURG 730 and IMED 730

Course Director will not waive prerequisites for this course.

SURG 709U Sub-I General Surgery - OHSU Green

Surgery

Course Purpose Statement: This course specifically focuses on conditions and surgery of the colon and rectum, and ventral hernias. The physicians are trained in minimally invasive, robotic and open surgery. You will develop a higher level of comfort evaluating, diagnosing, triaging surgical patients, and working on a multi-functioning specialty team. You should be able to identify critical points in inpatient and outpatient follow-up of surgical patients with diseases of the colon and rectum and of all hernias. You will have hands on experience with minor clinical procedures. Responsibilities include working up patients, pre- and post-operative care, evaluating in the emergency room and outpatient clinics, rounding in wards, assisting in surgeries, postoperative care rounds, and surgical wound care. You will also participate in multidisciplinary conferences. You should be able to design and implement a patient plan, write orders, and give patient presentations. After completing this rotation, you will have an in-depth knowledge of benign and malignant disease of the colon and rectum as well as of complex ventral hernias. Site physician is Dr. Kim Lu.

**SURG 710U General Surgery - OHSU Green**

**Surgery**

**Course Purpose Statement:** This course specifically focuses on conditions and surgery of the colon and rectum, and ventral hernias. The physicians are trained in minimally invasive, robotic and open surgery. You will develop a higher level of comfort evaluating, diagnosing, triaging surgical patients, and working on a multi-functioning specialty team. You should be able to identify critical points in inpatient and outpatient follow-up of surgical patients with diseases of the colon and rectum and of all hernias. You will have hands on experience with minor clinical procedures. Responsibilities include working up patients, pre- and post-operative care, evaluating in the emergency room and outpatient clinics, rounding in wards, assisting in surgeries, postoperative care rounds, and surgical wound care. You will also participate in multidisciplinary conferences. You should be able to design and implement a patient plan, write orders, and give patient presentations. After completing this rotation, you will have an in-depth knowledge of benign and malignant disease of the colon and rectum as well as of complex ventral hernias. Site physician is Dr. Kim Lu.

**Required Prerequisite(s):** SURG 730

*Course Director will not waive prerequisites for this course.*

**Duration:** Two Weeks  
**Site(s):** OHSU  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 3  
**Available through the Lottery:** Yes

**Course Director (name / email):** Kayvan Roayaie / roayaie@ohsu.edu  
**Course Coordinator (name / email):** Marci Jo Carlton / carltonm@ohsu.edu  
**Qualified Assessor (name / email):** Kayvan Roayaie / roayaie@ohsu.edu

SURG 709V Sub-I Surgery- VAMC

Surgery

Course Purpose Statement: This is a four week course in general surgery. The VA rotation offers exposure to a wide variety of surgeries and surgical diseases, including surgical oncology, vascular, foregut, biliary, colorectal, minimally invasive, and general surgery. Students will be fully participating members of a team in preoperative and postoperative care, in both inpatient and ambulatory settings, evaluate consults from ED or other services, and assist in surgery and wound care. Students who want to experience a practicing role and responsibilities in ensuring patient care value the VA experience. In addition, you will gain experience evaluating complex patients with significant medical co-morbidities. You should be able to design and implement patient care plans, write orders and give patient presentations. You will be participating in twice weekly student and resident education conferences as well as weekly pre-operative indications conferences. After completing this rotation, you should have an in-depth knowledge of a broad range of surgical diseases and their management. Site physician is Dr. Karen Kwong.

Required Prerequisite(s): SURG 730

Course Director will not waive prerequisites for this course.

Duration: Four Weeks

SURG 709VA ICU Surgical - VAMC

Surgery

**Course Purpose Statement:** The purpose of the VAMC Surgical Intensive Care Unit clinical experience is to allow students to participate in the care of critically ill or injured patients. Students will hone their skills in evaluating, diagnosing, and treating surgical patients, as well as, delivering effective bedside patient presentations. Students will see patients exclusively in the VAMC SICU, attend ICU teaching conferences, and assume an active role on a multidisciplinary critical care team. Site physician is Dr. Mitchell Sally.

**Required Prerequisite(s):** SURG 730 and IMED 730

*Course Director will not waive prerequisites for this course.*

SURG 709X Surgery Special Elective (clinical)

Surgery

**Course Purpose Statement:** The purpose of this elective is for students to have more in-depth experience in a subspecialty of Surgery. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting. Contact the surgery coordinator regarding specific requirements for this course.

**Special Notes:** This elective will be offered on a space available basis after the lottery. It will not be available for registration through the lottery. Contact Course Coordinator regarding specific requirements for this course. This course is not available for registration through the lottery. Complete and return the Special Elective Request Form (found in the Request Forms appendix of this catalog) if requirements are met. Please contact Marcia Decaro at decaro@ohsu.edu after the lottery to register for this course.

**Required Prerequisite(s):** Completed Special Elective Request Form

SURG 741G Vascular Surgery Continuity Elective

Surgery

**Course Purpose Statement:** The purpose of the Vascular Surgery Continuity Clinical Experience is for students interested in a vascular surgical career to experience an in-depth opportunity to participate in the evaluation and management of patients with vascular diseases. This eight-week rotation will allow students to follow patients from their preoperative clinic visit through their surgery and postoperative care. Students will participate in preoperative evaluation and risk stratification/reduction, scrub into open and endovascular cases, participate in clinical ward rounds both on the floor and in the intensive care unit, and learn about surveillance of surgical (open and endovascular) outcomes in an outpatient setting. Students will be expected to understand the pathophysiology of, and participate in the care of patients with hemodialysis access needs, thoracic and/or abdominal aortic aneurysms, acute arterial occlusion, chronic arterial occlusive disease, extracranial carotid occlusive disease, and acute and chronic venous diseases.

**Required Prerequisite(s):** None

**Duration:** Eight Weeks

**Site(s):** OHSU; VA

SURG 741X Continuity Special Elective

Surgery

**Course Purpose Statement:** The purpose of this continuity clinical elective is for students to have more in-depth experience in a subspecialty of Surgery. Students must make special arrangements with a faculty member and the department for an individual program of study. To fulfill Continuity Clinical Experience graduation requirement, the experience must be minimum 8 full-time weeks in duration or equivalent effort over a longer duration if experience is not full-time. Experience must allow students to maintain continuity in at least 2 of the following 3 ways:

- Continuity with the same patient(s)
- Continuity with the same health system
- Continuity with the same preceptor(s)

**Required Prerequisite(s):** Completed Continuity Special Elective Request Form

*Course Director will not waive prerequisites for this course.*

**Duration:** Eight Weeks

Elective Experiences
Urology
**UROL 701A Urology Research**

**Urology**

**Course Purpose Statement:** Students will have the opportunity to learn about either basic or clinical science research through a faculty-supervised project. Research can be in any areas of Urology. Projects are planned, reviewed and approved prior to the beginning of the elective. The Research Elective Request form must be signed off by the supervising faculty member, department clerkship director, and the Curriculum & Student Affairs office prior to starting.

**Special Notes:** Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for.

Students then must complete the Research Elective Request form in order to take this course. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out this form and return it, along with the course coordinator's approval, to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** Completed Research Elective Request Form

**UROL 709A Primary Care Adult Urology**

**Urology**

**Course Purpose Statement:** This rotation is intended for students interested in learning about Urology as it applies to everyday clinical practice and who are not considering a career in Urology or Surgery. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students will be exposed to the full range of urologic diseases in pediatric urology, adult urology, or both in an outpatient and inpatient setting with an emphasis on the diagnosis and treatment of problems encountered in general practice. Students will have extensive exposure to outpatient management of urologic patients, inpatient management and urologic consultation, and the most commonly performed urologic surgeries (i.e., surgery for prostate cancer, kidney stones, prostatic enlargement, urinary incontinence). There will be opportunities to learn basic skills such as Foley insertion, perform microscopic urinalyses, or measure bladder residuals during the rotation. Students may choose to focus primarily on outpatient urology. Students will spend time at OHSU, VAMC, and/or Doernbecher. Students may choose to focus on adult or pediatric urology, or both, by providing advance notice to the department. Students will be asked to complete the National Core Medical Student Curriculum in Urology (online) during their rotation.

**Special Notes:** Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** SURG 730 and department approval

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

**Duration:** Four Weeks  
**Site(s):** OHSU; VA  
**Grading Method:** 5-tiered Letter Grade

UROL 709B Intro to Pediatric Urology

**Urology**

**Course Purpose Statement**: This is a two or four-week rotation intended for students early in their clinical experience who are interested in an introduction to Pediatric Urology. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a variety of pediatric urological disorders in an inpatient, operative, and outpatient setting. Students may be exposed to a wide range of conditions, including urinary tract infections, vesico-ureteral reflux, hydronephrosis, undescended testis, hypospadias, and common pediatric urologic problems. Students will spend 2 or 4 weeks at Doernbecher. Students will be asked to complete the National Medical Student Curriculum in Urology (online) as well as other assigned reading during their rotation. They will complete a short examination based on their readings at the end of the rotation.

**Special Notes**: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. Elective Experiences
UROL 709C Sub-I General Urology

Urology

Course Purpose Statement: This rotation is intended for students considering a career in Urology. Students function in a sub-intern role with house staff and faculty on the urology service and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a wide variety of adult & pediatric urological disorders in an outpatient, inpatient, and operative setting. Students will be exposed to the full range of urologic subspecialties, including urologic oncology, pediatric urology, male infertility, stone disease, female and male reconstructive urology. Students will spend 1-2 weeks at OHSU, 1 week at the VAMC (pending credentialing approval) and 1-2 weeks at Doernbecher. Students will give a presentation at the weekly departmental Grand Rounds at the end of the rotation.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Elective Experiences

### UROL 709D Intro to Adult Urology

**Urology**

**Course Purpose Statement:** This is a two or four-week rotation intended for students early in their clinical experience who are interested in an introduction to Adult Urology. The rotation can be two or Four Weeks in length. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a variety of adult urological disorders in an inpatient, operative, and outpatient setting. Students may be exposed to a wide range of urologic sub-specialties, including urologic oncology, male infertility, stone disease, female and male reconstructive urology, as well as general urology. Students will spend 2 or 4 weeks at OHSU or the Portland VAMC. Students will be asked to complete the National Medical Student Curriculum in Urology (online) as well as other assigned reading during their rotation. They will complete a short examination based on their readings at the end of the rotation.

**Special Notes:** Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

**Required Prerequisite(s):** SURG 730 and department approval

*Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.*

**Duration:** Four Weeks  
**Site(s):** OHSU; VA  
**Grading Method:** 5-tiered Letter Grade  
**Type:** Clinical (Patient Care)  
**Credit:** 4  
**Available through the Lottery:** No

**Course Director (name / email):**  
Jason Hedges / hedgesja@ohsu.edu

**Course Coordinator (name / email):**  
Susi Driscoll / driscols@ohsu.edu

**Qualified Assessor (name / email):**  
Jason Hedges / hedgesja@ohsu.edu

UROL 709X Urology Special Elective

Urology

Course Purpose Statement: The purpose of this elective is for students to have more in-depth experience in a subspecialty of Urology. Students must make special arrangements with a faculty member and the department for an individual program of study. The Special Elective Request form must be signed off by the faculty member, department Clerkship Director and the Curriculum & Student Affairs office prior to starting.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take (name and number), and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Students must also complete the Special Elective Request form in order to take this course. Visit the Student Portal under ‘Medicine’ and ‘Forms’ to find the request form or see the Request Forms appendix of this catalog. Fill out the form and return it to Marcia Decaro as soon as possible after the lottery.

Required Prerequisite(s): SURG 730 and completed Special Elective Request Form

Course Director may waive prerequisites on a case-by-case basis for this course. Please email the course coordinator for approval to waive prerequisite requirements. If waiver is approved, please forward the approval to Matthew Rempes at rempes@ohsu.edu. In order to register for this course through the lottery, the waiver must be received no later than one day prior to the close of the lottery. Please note that the waiver does not guarantee you a spot in the class.

Elective Experiences
UROL 710A Primary Care Adult Urology

Course Purpose Statement: This rotation is intended for students interested in learning about Urology as it applies to everyday clinical practice and who are not considering a career in Urology or Surgery. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students will be exposed to the full range of urologic diseases in pediatric urology, adult urology, or both in an outpatient and inpatient setting with an emphasis on the diagnosis and treatment of problems encountered in general practice. Students will have extensive exposure to outpatient management of urologic patients, inpatient management and urologic consultation, and the most commonly performed urologic surgeries (i.e., surgery for prostate cancer, kidney stones, prostatic enlargement, urinary incontinence). There will be opportunities to learn basic skills such as Foley insertion, perform microscopic urinalyses, or measure bladder residuals during the rotation. Students may choose to focus primarily on outpatient urology. Students will spend time at OHSU, VAMC, and/or Doernbecher. Students may chose to focus on adult or pediatric urology, or both, by providing advance notice to the department. Students will be asked to complete the National Core Medical Student Curriculum in Urology (online) during their rotation.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take, and your preferences of when you'd like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

Required Prerequisite(s): SURG 730 and department approval

Course Director may waive prerequisites on a case-by-case basis. In applying for this course, please state if you have met prerequisites or have had other experiences that may have prepared you for the course.

UROL 710C Intro to Adult Urology

Urology

Course Purpose Statement: This is a two-week rotation intended for students early in their clinical experience who are interested in an introduction to Adult Urology. The rotation can be two or four weeks in length. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a variety of adult urological disorders in an inpatient, operative, and outpatient setting. Students may be exposed to a wide range of urologic sub-specialties, including urologic oncology, male infertility, stone disease, female and male reconstructive urology, as well as general urology. Students will spend 2 or 4 weeks at OHSU or the Portland VAMC. Students will be asked to complete the National Medical Student Curriculum in Urology (online) as well as other assigned reading during their rotation. They will complete a short examination based on their readings at the end of the rotation.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery. To apply, please email the course coordinator and describe your interest in the course. Include your name, your graduation year, if you have met stated prerequisites, the elective you wish to take, and your preferences of when you’d like to take it. The course coordinator will review all requests and will email you if approved. They will specify the block/dates you have been approved for. Forward this approval to Kaitlin Seymore at seymore@ohsu.edu in order to register for this elective during the dates specified by the course coordinator.

UROL 710B Intro to Pediatric Urology

Urology

Course Purpose Statement: This is a two-week rotation intended for students early in their clinical experience who are interested in an introduction to Pediatric Urology. The rotation can be two or four weeks in length. Students work closely with house staff and faculty and participate in all educational activities of the OHSU urology program. Students can expect to observe and participate in the management of a variety of pediatric urological disorders in an inpatient, operative, and outpatient setting. Students may be exposed to a wide range of conditions, including urinary tract infections, vesico-ureteral reflux, hydronephrosis, undescended testis, hypospadias, and common pediatric urologic problems. Students will spend 2 or 4 weeks at Doernbecher. Students will be asked to complete the National Medical Student Curriculum in Urology (online) as well as other assigned reading during their rotation. They will complete a short examination based on their readings at the end of the rotation.

Special Notes: Department approval is required prior to registering for this elective. It will not be available for registration through the lottery.
