The OHSU Physician Assistant Program is a 26-month, full-time course of study leading to a Master of Physician Assistant Studies degree. The program annually accepts a class of 42 students each year and is fully accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). Please refer to the program Web site at www.ohsu.edu/pa for additional information and specific deadline dates.

Admissions Process

- Applications are available each year through the Central Application Service for Physician Assistants (CASPA) beginning mid-April with the application deadline of October 1st. www.caspaonline.org
- An OHSU Supplemental Application is required available each year May 1 through October 1.
- The Graduate Record Exam (GRE) General Test is required. Refer to www.gre.org for testing sites/dates
- Informational Sessions are held during spring/summer months. Information Sessions for 2013: on campus dates 03/11/13, 05/14/13, 08/05/13; plus virtual information sessions April 24-25 and July 16-17. Please refer to www.ohsu.edu/pa for additional information/directions.
- Program Review of Applications once they are received from CASPA and on-campus interviews are required of competitive applicants
- Class Selection: The program utilizes a rolling admission process. Program Begins: mid-June

Program Prerequisites (coursework must be completed by the end of fall term prior to potential matriculation):

- Bachelor’s degree
- Minimum 40 quarter credit hours or 30 semester credit hours of BCP (biology, chemistry, and/or physics) coursework
- Biology - General or Cell Biology (minimum of 2 semesters or 3 quarters); Labs recommended
- Chemistry - General, Inorganic, Organic, Biochem (min. of 2 sem or 3 qtrs); Labs recommended
- Microbiology with Lab (one semester or quarter course with lab; will not accept bacteriology)
- Human Anatomy & Physiology with Lab (completed within 7 years of planned PA Program matriculation; minimum of 2 semesters or 3 quarters of a combined A&P course w/lab or one semester each of Anatomy w/lab and Physiology w/lab; labs are required; online courses/labs are not accepted)
- General Psychology or Developmental Psychology (one semester or quarter course)
- Biostatistics or Statistics (statistics, math, psychology, sociology depts; NOT business statistics)
- Highly recommended - Upper division natural science course work which might include 300 and 400 level courses in organic chemistry, biochemistry, genetics, immunology and pathophysiology

- Graduate Record Exam (GRE) – General Test scores, taken within the past 5 yrs, can be sent to School Code: 4780; Department Code 0634 or 0699. If taken more than 5 years ago, applicant must retake GRE.
- Minimum cumulative GPA and BCP GPA of 2.8
- Minimum of one year (2000 hours as of the October deadline) of experience in a responsible health care position is expected of all applicants. Preference is given to those with health care experience that involves direct patient care. Examples of health care experience: medical assistant, nursing assistant, EMT/paramedic, surgery/OR tech, emergency room tech, medical technologist, hospital corpsman, medic, Peace Corps, phlebotomist, PT aide, researcher, and other positions involving direct patient care.

- International graduates In addition to the above requirements, international graduates must meet the following criteria with courses taken at an accredited U.S. or Canadian college/university:
  - 20 credit hours of natural sciences (may include A&P with lab and microbiology w/lab)
- Human Anatomy & Physiology with Lab (see above for minimum requirements)
- Microbiology with Lab
- English (reading and writing courses) 6 sem hours/9 qtr hours. English coursework may be waived if original coursework or education was taken at an English-speaking institution
- Evaluation of foreign (non-U.S., non-Canadian) academic credentials by an international credentialing agency is required. See CASPA website for a list of credentialing agencies.
- TOEFL results are required of students for whom English is not their native language. Score results must include scores for the TWE and TSE (Test of Written English & Test of Spoken English).

OHSU PA Curriculum – brief summary

Didactic Curriculum (12 months; 4 quarters):
- Includes courses in the Basic Sciences, Clinical Medicine and Behavioral Medicine

Clinical Curriculum (14 months; 5 quarters):
- Supervised clinical experiences will ensure students will acquire the competencies needed for clinical practice. Rotations will provide experiences in: Outpatient and Inpatient Medicine settings, Emergency Department, and Operating Room. Students will have opportunities to work with patients seeking: medical care across the life span, in women’s health, in surgical management (pre, intra-operative and post-operative care) and care for behavioral/mental health conditions.

Estimated Costs – Figures provided are estimates for 2013-14.

All potential applicants are encouraged to apply for federal financial aid through http://www.fafsa.ed.gov/ and visit the OHSU Financial Aid Office website http://www.ohsu.edu/finaid/ for additional information.

Physician Assistant Profession – for more information on the profession, visit www.aapa.org

Physician Assistants are highly trained members of the health care team who practice medicine with the supervision of licensed physicians providing patients with a wide range of services. Physician Assistants are trained to obtain medical histories, perform complete physical examinations and minor surgical procedures, diagnose illnesses, order and interpret routine diagnostic tests, develop treatment plans, suture wounds, set fractures and assist in surgery. PAs also provide education to patients regarding illness, health promotion and disease prevention.
