**Class Deliverables**

1. **Discussion Forums**

   Our philosophy in developing and teaching this course is that we, the instructors, are facilitators of your learning. Your job is to learn—from the readings, the videos, from each other, and from the instructors. As you proceed through the material, we want you to always be thinking about how the material applies to your current or future professional situation.

   The purpose of the forums in the Sakai Collaborative Learning Environment is to deepen your learning by understanding how the other members of your forum group see the particular issues for this week. Each of you will see these issues through the context of your own experience, and sharing your views with each other will significantly enhance your learning. Guidance for each weekly reflection can be found on the Sakai Course Materials for that week.

   You are expected to participate in online discussions and post written contributions to Sakai. All Sakai postings must be in clear, concise, professional business language. The forums will proceed in the following general order:

   - After you have completed the readings, reflect on the assigned questions.
   - Post your reflections to the forum. This posting can be in either one or two paragraphs and should be done in a single thread for the whole group. Due Wednesday.
   - Discuss these points with the group. This discussion is not meant to be a problem solving exercise but is intended to deepen your understanding as to how the material relates to your own individual situation and those of the other members of the group. You do not need to wait until everyone has made his or her individual postings to engage in the discussion. Comments should be limited to 100 words or about 5 sentences. Due Sunday.

   Each weekly forum discussion will be graded on a 10 point integer scale. You will receive a maximum of 7 points for your initial posting and a maximum of 3 points for subsequent discussion. To receive the full 10 points you will provide a significant initial posting per the weekly instructions and at least two significant follow-on comments that advances the discussion by providing new insight. We are looking for insightful and analytical comments, more than simply summarizing the reading for the week.

   **The purpose of the discussion forums is to develop your thinking about business cases in healthcare management.**

2. **Interview a marketing manager and report on your learning**
By week six of the course, meet with a marketing leader in your organization. Ask questions about how they build an effective marketing plan and what type of information is needed from their business partners. Be prepared to share what you learned in the week 5 online forum discussion. Questions will be designed to see how well each person prepared and executed this work.

### Attendance Requirements

Attendance at the face-to-face sessions is required as is participation in the online component of the course. Students are expected to be present and participate in discussions in a professional and respectful manner. Failure to attend or participate in class may adversely affect your final grade.
