FAQS FOR QBB INTERNSHIP:

What are the benefits of the QBB Internship Program?

- Gain direct hands-on research experience.
- Participate in a guided project facilitated by a departmental researcher.
- Develop written and oral communication skills.
- Various networking opportunities with a community of scientists.

What will you do over the course of the internship?

Interns will join a research group for the summer and contribute to a project, guided by a faculty mentor and other laboratory personnel. There will be approximately weekly communal activities, focusing on science at the quantitative / biomedical interface, career opportunities and practice in scientific communication. The capstone activity will be a research symposium at which interns will present their results.

Is a break or vacation allowed during the 10 week program?

No, we ask that if you are selected for the internship that you do not take a vacation or break for the duration of the 10 week program.

Will I get paid?

Students selected for the internship will receive a stipend.

Is housing provided?

No, housing is not provided for this internship.

Where is the internship located?

The internship is typically performed in various departments on the OHSU South Waterfront and Marquam Hill campuses in Portland, OR. Interns must use mass transit or bicycle to get to campus (no on-site parking is available).

What do I need in order to apply?

Submit all required materials by March 15, 2017. ALL application materials must be emailed to Samantha Wagner (qbbintern@ohsu.edu) by the 15th.

Please submit the following materials to be considered for this internship:

- A copy of your CV
- Official transcript(s)
- A list of three (3) QBB faculty with not more than 50 words each explaining your interest in the faculty member’s research
- Two (2) reference letters
- Unfortunately, we are unable to provide visas for foreign students.
