The following list shows vaccine costs and vaccine antibody titer costs. For new students, pre-entrance immunization requirements are not covered under your university sponsored student health insurance. Most travel related vaccines are not covered under health insurance plans. It is your responsibility to check with your individual insurance plan to determine coverage for specific vaccines or procedures. If you are an OHSU registered student through ISIS/BANNER we can put the cost of the vaccine onto your tuition account or we gladly accept cash, checks or Visa/Mastercard. If you wish to submit out of pocket costs to your insurer for reimbursement we are happy to provide you with a detailed coding statement upon request.
