

OHSU FAMILY MEDICINE
OREGON HEALTH SCIENCES UNIVERSITY
SCHOOL OF MEDICINE

SPEAKERS AND TOPICS AVAILABLE: 2010

MARK BAJOREK, M.D.

- Abnormal Pap Smears
- Colposcopy Basics
- Endometrial Biopsy Indications/Limitations
- Evaluation of Panic Attacks
- HIV In Primary Care
- Human Papilloma Virus
- Pediatric Developmental Disorders
- Primary Care Procedures
- Residency Education
- Sigmoidoscopy - Screening for Colon Cancer
- When & Why Breast Cyst Aspiration

FRAN BIAGIOLI, MD ****

- Adolescent Care
- Adolescent Preventive Medicine
- Algorithms for Abnormal Pap Smears and HPV Vaccine
- Balancing Life and the Practice of Medicine
- Belts, Bags, and Boosters – Advising Patients about Automotive Safety
- Billing and Coding for Outpatient Family Medicine
- Child Safety Seat Awareness
- Clinical Resident Precepting- Outpatient and Inpatient Attending
- Clinical Student Precepting – Tips for Being Efficient with Students
- Colposcopy: What the Nursing Staff Needs to Know
- Lactation Basics
- Lactation Issues
- Pediatric Obesity
- Pediatric Visit Pearls
- Primary Care of the Multiple Sclerosis Patient
- Returning to Work and Breastfeeding
- Ten Essentials in a Fanny Pack and Other Wilderness Medicine Tips
- Well Child Care

SHAWN BLANCHARD, MD

- Adolescent Health
- Asthma
- Drug Abuse
- Dyslipidemia
- Erectile Dysfunction
- Hypertension

CAROL BLENNING, MD ****

- Adolescent Assessment
- Depression
- LGBT Issues in Health Care
- Native American Health
- Pharyngitis
- Postpartum Care
- Routine Prenatal Care
- Shoulder Dystocia
- Women's Health Issues

JOSH BOVERMAN, MD

- Alcohol Abuse
- Assessment of Suicide Risk
- Opiate Use and Abuse
- Substance Abuse

JIM CALVERT, MD

- Childhood Physical Abuse
- Childhood Sexual Abuse
- Depression
- Diabetes
- Episiotomy
- Ethics of Managed Care
- Hepatitis
- Hypertension
- Management of HIV Infection in Primary Care
- Personal Financial Planning
- Prevention of Stroke
- Post-Traumatic Stress Disorder
- Rural Health Policy
- The Art of the Insane
- The New Medicare Bill

CLIFFORD COLEMAN, MD **

- African Americans, Trust, and the Patient-Doctor Relationship
- Cross-Cultural Communication in Medicine
- Diabetes and Cognitive Health
- Health Literacy
- Obesity and Public Health
- Prostate Cancer Screening in African Americans
- Race and Ethnicity in Biomedical Research and Literature
- Tuberculosis and Public Health

BENJAMIN G. COX, MBA

- Clinic Finances A/P, A/R, Cash Flow and Borrowing
- Clinic Information Systems
- Clinic Management
- Managed Care
- Marketing a Medical Practice
- Personnel: Hiring, Firing and Supervision
- Physician Compensation Plans: Benefit Packages and Contracts
- Provider/Staff Relationships

JENNIFER DE VOE, MD *

- Childhood Enuresis
- Children's Access to Healthcare in Oregon
- Comparing Major Health Care Systems
- Doing Health Policy Research
- Recent Reforms in the Oregon Health Plan and Their Impacts
- Recommended Preventive Healthcare Screening Tests in Primary Care
- The History of the US Community Health Program
- The Impact of Uninsurance on Access to Care
- Trends in Employer-Sponsored Health Insurance
- Venous Thrombosis
- Who Will Have Health Insurance in 2025?

RICHARD DEYO, MD, MPH ****

- Gaps, Tensions, and Conflicts in the FDA Approval Process: Implications for clinical Practice
- Low Back Pain: An Evidence-Based Approach
- Politics, Marketing and the Media: Do They Trump Good Science?
- Scientific Pitfalls in Musculoskeletal Research
- Surgery for Low Back Pain: Who Needs It?

LISA DODSON, MD ****

- Complying with the Oregon Intractable Pain Law
- Curriculum for Rurally-bound Residents and Students
- Economic Valuation of Physicians in Rural Practice
- Healthcare Workforce Needs in Oregon
- Health Policy Considerations for Creating a Rural Healthcare Workforce
- History of Rural Medicine in Oregon
- Licensure Issues in Oregon
- Procedural Training Topics: Cesarean Section Training, IUD, Endometrial Sampling Techniques
- Rational Office-based Management of Pain Disorders
- Rural Occupational Injuries
- Rural Practice Management and Resources
- Selecting a Rural Practice
- Teaching Students in the Office Setting

RALPH ECCLES, MD ****

- Diabetes – Adult and Children
- Diabetes – The Economic Impact
- Endocrine Issues from a Primary care Perspective (Thyroid, Adrenal, Osteoporosis)
- Health Eating for Pregnancy (Especially with Diabetes – Type 1 and GDM)
- Health Living for the Patient with Chronic Kidney Disease
- Health Concerns of the Female Athlete
- Living with Chronic Diseases
- Obesity – Adult, Children and as a Public Health Issue
- Polycystic Ovarian Syndrome

PATRICE EIFF, MD ****

- Advising & Mentoring
- Crafting an Executive Summary of Your Work
- Curriculum Design
- Evaluation and Management of Common Fractures
- Getting the Mentoring You Need
- Meetings: Leading and Participating
- Navigating Your Academic Career

L. J. FAGNAN, MD ****

- Allergic Rhinitis
- Antibiotics and URIs: Beyond Practice Guidelines
- Care Coordination in Primary Care
- Medical Office Survey of Office Patient Safety
- Office Dermatology Procedures
- Oregon Rural Practice-based Research Network (ORPRN)
- Primary Care and Community Health-based Promotion Interventions
- Primary Care Practice Models: Integration of Non-Physician and Physician Clinicians
- Shared Decision Making in Primary Care
- Screening for Behavioral and Developmental Health Risks in Children
- The Medical Home and the Delivery of Early Childhood Immunizations
- The Influence of Pharmaceutical Representatives on Rural Oregon Primary Care Practice

SCOTT FIELDS, MD ****

- Anorexia - Differential Diagnosis
- Appropriate Use of Laboratory Tests
- Augmentation of Labor
- Business Analytics – What Role Should They Have?
- Chronic Pelvic Pain
- Delivering on Actionable Data
- Dyspnea - Diagnosis and Management
- Ectopic Pregnancy
- Family Physicians and Obstetrical Care
- Health Care Information Systems - The Future is Now
- How to Build a Successful Quality Program
- Induction of Labor
- Multi Disciplinary Approach to Medical Education
- Urinary Tract Infections - Diagnosis and Treatment
- Use of Computer Assisted Learning in Medical Education
- Value Innovation in Health Care

ROGER GARVIN, MD ******Clinical Topics**

- Diabetes – Rational Treatment
- Colorectal Cancer and Screening
- Vasectomy – No Scalpel Techniques
- Hemochromatosis
- Screening Practices in Primary Care
- Adrenal Diseases
- Depression in Primary Care
- Treatment of Chronic Pain
- Vertigo
- Non-alcoholic Fatty Liver Disease
- Atrial Fibrillation – Treatment Options and Decision Making

Medical Education

- Effective Presentation Skills
- Healthcare Ethics
- Giving Feedback to Learners
- Train the Trainer – Techniques for Teaching Procedures Including: Vasectomy, Circumcision, Sigmoidoscopy, IUD Placement, Colposcopy and LEEP, Excision of Skin Lesions
- Evidence Based Medicine – How to Ask Answerable Questions
- Evidence Based Medicine – Finding the Information You Need
- Keeping Up With the Medical Literature
- Apologies in Medicine – How They Help Everyone
- Basic Research Skills
- Learners in difficulty – Learning to Succeed

NICK GIDEONSE, MD **

- Buprenorphine for Office-based Treatment of Opiate Dependence
- Common HEENT Problems in Primary Care
- IUD Contraception: The Basics
- Oregon's Death with Dignity Act
- Primary Care Renewal: creating the Expanded Medical Home

TERESA GIPSON, MD ***

- Abnormal Menstrual Bleeding
- Africa is Not a country – Issues in Cross Cultural Communication with African Immigrant and Refugee Patients
- Contraception – Debunking the Myths
- Cross cultural Communication
- Emergency Contraception
- Endometrial Biopsy
- Evaluating Pelvic Pain
- Evaluating the Infertile Couple
- International Rotations – Tips for a Successful Learning Experience
- Malaria
- Managing Early Pregnancy Failure in the Outpatient Setting
- Medical Abortion
- Menopause
- Neonatal Resuscitation
- Osteoporosis
- Pancreatitis
- PMTCT – Preventing Maternal to Child Transmission of HIV
- Providing Support During Labor
- Sexually Transmitted Infections- Practical Tips
- Surgical Abortion
- The Pap Smear

NANCY GORDON-ZWERLING, FNP

- Smoking Cessation

MEG HAYES, MD *

- Acupuncture
- Adoption Medicine
- Alcohol and Substance Abuse
- Choosing Therapy for Depression
- Domestic Violence
- Integrative Medicine
- International Medicine
- Urinary Tract Infection: Presentation and Treatment Across the Life Span

VALERIE J. KING, MD, MPH **

- A Best-Evidence Approach to Minimizing Perineal Trauma in Childbirth
- Collaborative Practice—Family Physicians and Nurse-midwives
- Common Breastfeeding Issues
- Critical Appraisal of the Medical & Epidemiologic Literature
 - Introduction to Evidence-based Healthcare
 - Screening and Diagnosis
 - Treatments and Interventions
 - Harm
 - Prognosis
 - Systematic Reviews & Meta-analysis
- Diagnosis and Treatment of Bronchiolitis
- Elective Induction of Labor? Helpful or Harmful?
- Evidence-based Approaches to VBAC
- Evidence-based Maternity Care – Principles and Resources for Practice
- FPIN—Family Practice Inquiries Network
- Free-standing Birth Centers
- Group B Streptococcus—Strategies for Mother and Infant
- Hypertensive Disorders in Pregnancy
- Induction of Labor – Evidence-based Approaches
- Labor Support Basics – Evidence and Hands-on Approaches
- Managing Obstetric Malpresentations
- Neonatal Resuscitation
- Newborns with Respiratory Problems
- Non-pharmacologic Labor Pain Strategies
- Patient-choice Cesarean Birth
- Prevention and Treatment of Preterm Labor
- Searching the Medical and Epidemiologic Literature
- Shoulder Dystocia
- The John M. Eisenberg Center for Clinical Decisions and Communications
Science – Translating Evidence for Consumers, Clinicians and Policymakers
- Trial of Labor After Cesarean Birth – Oregon Hospital Policies Study
- Vacuum-assisted Vaginal Delivery
- Vaginal Birth after Cesarean
- Writing Clinical Inquiries

JENNIFER LOCHNER, MD **

- Cardiovascular Disease in Women
- Direct-to-Consumer Advertising by Pharmaceutical Companies
- Effectiveness of Lifestyle Changes in Hypertension
- Nipple Pain in Breastfeeding Women
- Physician/Pharmaceutical Company Interactions
- Sleep Apnea

ALAN MELNICK, MD, MPH

- Biologic and Chemical Terrorism
- Chemical Dependency: Methadone, Antabuse
- Community Based Health Services Research
- Community Health Planning
- Community Oriented Primary Care
- Contraceptive Research
- Environmental Health: Indoor Air, Food Service Inspection
- Epidemiology: Epi Info (Epidemiology software)
- Ethics in Public Health
- Food Borne Illness
- Health Related Data and Its Uses
- Healthy Communities
- Population Based Medicine
- Preventive Medicine
- Public Health
- Public Health Administration and Management
- Public Health Services in a Managed Care Environment
- Public Health in Health Care Reform
- Quality Improvement
- Teen Pregnancy
- Tuberculosis
- Use of Geographic Information Systems for Community Health Assessment & International Health
- Vital Statistics: Death Reporting, Child Fatality

JOHN MUENCH, MD

- Diabetes Overview
- Literature and Medicine
- Obesity and the environment
- Primary Care Approach to Dizziness
- Primary Care Approach to Anemia

REBECCA RDESINSKI ****

- Developing a Budget
- Managing a Randomized Clinical Control Trial
- Melanoma – Population Statistics
- Using SAS
- Using SPSS
- Working with the IRB: Applications, CRQs and Revisions

Amanda Risser, MD ****

- Creative Writing in Medicine
- Public Health surveillance
- Suboxone
- The Baby check Home Visit in the First Week of Life
- Vaccine Refusers

BRUIN RUGGE, MD

- Emerging Infections and the Family Physician
- Hepatitis C: Example of an Emerging Infection
- Hepatitis C in Primary Care
- Hepatitis C: The Basics
- Lyme Disease and Emerging Infections
- Lyme Disease: Diagnosis, Treatment and Prevention
- The Smallpox Vaccination Policy of 2002/03: Sound Policy or Fear Mongering
- Treating Hepatitis C in the Context of Managed Care

JOHN W. SAULTZ, MD ****

- **Clinical Topics**
 - An Introduction to Family Structure and Function
 - Basic and Intermediate ECG Interpretation
 - Congestive heart failure- an evidence-based approach
- **Health Policy Topics**
 - Essential Elements of the Medical Home
 - Family Medicine, Primary Care and the Future of American Health Care
 - Fundamentals of the American Health System
 - Health Reform in America
 - Lessons Learned From the Oregon Health Plan
 - Leadership in Times of Rapid Change
- **Evidence-Based Medicine**
 - Critical Review of the Medical Literature
 - Mathematical Models for Medical Decision Making
 - Patient-Oriented Evidence at the Point of Care- the Family Physicians Inquiries Network
 - Research Studies That Have Changed My Practice - Patient-Oriented Evidence That Matters

- **Family Medicine and Primary Care**
 - Careers in Academic Family Medicine
 - Careers in Family Medicine
 - Caring for Patients in a Family and Community Context
 - Continuity of Care
 - Comprehensive Care in an Information Age
 - Family Medicine Residency Reform
 - Models of Primary Care Delivery in America
 - Research Agendas for Family Medicine
 - The History and Philosophy of Family Medicine
 - The Transformation of Primary Care Practice

ANN SINCLAIR, MS, LCSW

- Balint Groups
- Codependency
- Family Systems
- Grief and Loss
- Mind Body Medicine
- Physician Wellbeing
- Stress Management
- Transference & Countertransference in the Clinical Encounter
- Use of Videotape Review as a Learning and Teaching Tool

ARIEL SMITS, MD, MPH *

- Detection of Breast Cancer
- General Preventive Medicine
- Infertility Workup and Treatment in Primary Care
- Malpractice Reform and effects of Rising Malpractice Costs on the Health Care System
- Reading the Medical Literature
- Residency Length Issues in Family Medicine
- Screening for HIV in Pregnancy
- Screening for HIV in the General Population
- X-rays in Pregnancy

ELIZABETH STEINER, MD ***

- Breast Cancer Risk Reduction
- Clinical Breast Exam
- Doing Research in Medical Education
- Early Detection of Breast Cancer
- Medical Education Topics: Curriculum Development, Implementaiton, Evaluation

ANITA TAYLOR, MA Ed

- Appreciating Differences in Teaching and Learning Styles
- Balancing Personal/Professional Life
- Changing Specialties After Residency
- How to Choose A Medical Specialty
- Medical Family Life
- Mid-Life Medical Career Changes
- Physician Retirement Issues
- Teaching in your Office - A Workshop for Community Preceptors
- Teamwork in the Office Setting
- The Consultation and Referral Process: A Win-Win Situation
- The Ten Truths About a Career as a Health Professional

ROBERT B. TAYLOR, MD ****

- Leadership as a Learned skill
- Leadership Concepts and Skills (Workshop)
- Medical Liability Pitfalls in Family Medicine
- Medical Writing and Editing (Workshop)
- Migraine Headache: Diagnosis and Management
- The Great Zebra Hunt: Searching for the Uncommon Diagnosis
- Uncommon Effects of Commonly Prescribed Medications

WILLIAM L. TOFFLER, MD **

- Behavioral Change in Teenagers - - What Works, What Doesn't
- Common Sports Injuries and Their Treatment
- Compassionate Care for the Dying
- Conscientious Practice: Balancing Patient and Physician Autonomy
- Depression, A Primary Care Approach
- Depression in the Elderly
- Ethical Implications of the Oregon Health Plan
- Ethical Implications of Assisted-Suicide and Euthanasia
- Ethical Issues in Managed Care
- Ethical Issues in Terminal Care
- Fitness in Health and Disease
- Health Promotion
- Immunization Update
- Interdisciplinary Medical Education
- Natural Family Planning: The Forgotten Alternative
- Obesity Update: What Role for Pharmacologic Intervention
- Practical Approaches to Reducing Coronary Risk - Factors
- Reducing Teen Pregnancy - - What Works, What Doesn't
- Stem Cell Research: What Can be Done Ethically?
- The Metamorphosis of Medical Ethics
- Treating Enuresis - - What Works and What Doesn't
- Well-Child Care

Ann Tseng MD ***

- Aspirin for Primary and Secondary Prevention
- Common Anticipatory Guidance in the 0-3 Age Group
- Common Ophthalmologic emergencies
- Fever in Children
- Inpatient Management of Atrial Fibrillation
- Inpatient Management of CHF
- Inpatient Management of GI Bleed
- Inpatient Management of MI
- Inpatient Management of Sepsis
- Inspiratory Stridor in children
- Lead Poisoning
- RSV Bronchiolitis
- Well child Exam

DAVID WAGNER MD ****

- Doing Breast Biopsies, and ordering appropriately for Diagnosis and Economic Care
- How to Avoid Being Sued and What to Expect When You Are
- Office Procedures
- Sacral Iliac Injections for Back Pain
- Using Electric Cautery for Skin Cancers and Plantar Warts
- Vasectomies

JOHANNA WARREN, MD ****

- Abnormal Pap Smears
- Advanced Life Support in Obstetrics (ALSO)
- ALTE evaluation in infants
- Chronic Stable Angina
- Colposcopy Basics
- Contraception Management, Including IUD Insertions
- Family Physicians and Obstetrical Care
- HTN
- Osteoporosis
- Primary Care Office Procedures
- Routine Newborn Care
- Routine Prenatal & Postpartum Care
- Vaginal Birth after Cesarean
- Vasectomies

CHARLES WEBB, DO ***

- Asthma Update for Family Medicine
- The Asthmatic Athlete
- Taking the Fear Out of Fibromyalgia for the Primary Care Physician
- Primary Care Procedures
- Residency Education
- Sigmoidoscopy
- Adolescent Care
- Pediatric Pearls
- Vaccines in Children
- Wilderness Medicine
- Military Medicine
- Combat Medicine
- Exercise in Pregnancy
- IUD Contraception
- Advanced Life Support in Obstetrics
- Shoulder Dystocia
- Post-partum Hemorrhage
- Osteopathic Medicine
- Principles and Practice
- Osteopathic Manipulation
- How to incorporate into practice
- Manipulation for the Allopathic Physician
- Neonatal Resuscitation
- Pediatric Advanced Life Support
- Advanced Cardiac Life Support
 - Unstable Tachycardias
 - Stable Tachycardias
 - PEA, Bradycardia, Asystole
- Trauma Stabilization
- Low Back Pain Treatment
- Sports Medicine
 - Knee Injuries
 - Shoulder Injuries
 - Elbow Injuries
 - Hand Injuries
 - Wrist Injuries
 - Sports Supplements
 - Performance Enhancing Substances
