
BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Bailey, Steffani R.	POSITION TITLE Research Assistant Professor		
eRA COMMONS USER NAME stbailey			
EDUCATION/TRAINING <i>(Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)</i>			
INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	YEAR(s)	FIELD OF STUDY
Linfield College, McMinnville, OR	BA	1996	Psychology
Purdue University, West Lafayette, IN	MS	2003	Clinical Psychology
Purdue University, West Lafayette, IN	PhD	2006	Clinical Psychology
Stanford University, Stanford, CA	Postdoctoral Fellowship	2006-2007	Cardiovascular Disease Prevention

A. PERSONAL STATEMENT

I completed an NHLBI-funded, T32 postdoctoral fellowship in cardiovascular disease prevention at the Stanford Prevention Research Center in 2007 and was subsequently hired as a Research Associate/Project Director for two NIH-funded randomized clinical trials in smoking cessation at Stanford University. I currently am a Research Assistant Professor in Family Medicine at Oregon Health & Sciences University. I have over 10 years of research experience and have worked on survey-only studies, lab-based studies to examine craving processes, and randomized clinical trials to examine the efficacy of extended treatment for smoking cessation.

B. POSITIONS AND HONORS

Positions and Employment

2005-2006 Pre-doctoral Intern, Brown University Clinical Psychology Training Consortium, Behavioral Medicine Track, Brown University, Providence, RI

2006-2007 Postdoctoral Fellow, Stanford University School of Medicine, Stanford Prevention Research Center, Stanford, CA

2007-2011 Research Associate, Stanford University School of Medicine, Stanford Prevention Research Center, Stanford, CA

11/11-3/12 Senior Research Associate, Department of Family Medicine, OHSU, Portland, OR.

4/12-present Research Assistant Professor, Department of Family Medicine, OHSU, Portland, OR.

Honors

1992 Linfield Faculty Scholarship

1992, 1994-1996 Dean's List, Linfield College

1993 Dean's List, University of Oregon

1993-1996 Psi Chi Honor Society, Linfield College

Summer 2004 Purdue Research Foundation Summer Grant, Purdue University

2007-2011 Recipient of the NIH Clinical Research Loan Repayment Program Award and Renewal Awards, National Institute on Drug Abuse

D. RESEARCH SUPPORT (in past 3 years)

Ongoing Research Support

1R01 HL107647 DeVoe, Jennifer (PI) 8/23/2011-3/31/2015
NIH, NHLBI

Assessing a Medicaid Randomized Insurance Experiment with Community clinics
This innovative study will measure the impact of a statewide *randomized* Medicaid insurance “natural experiment” on receipt of cardiovascular disease (CVD) primary and secondary prevention services among established safety net clinic patients.

Role: Co-Investigator/Project Director

R01 HS018569 DeVoe, Jennifer (PI) 07/01/2010-06/30/2014
AHRQ

How Do Changes in Families' Health Insurance Affect Children's Healthcare? The goal of this project is to study how loss of parental health insurance affects children's access to health care services.

Role: Co-Investigator

RC4LM010852 Saultz, John (PI) 09/30/10-09/29/13
NIH, NLM

CREATE Community Capacity

This project brings together a group of community research associates at OCHIN and OHSU for collaborative work to develop and submit research proposals designed to determine how changes in clinical practice influence health outcomes in OCHIN's Practice Based Research Network (PBRN), “Safety Net West.”

Role: Co-Investigator

UB2HA20235 DeVoe, Jennifer (PI) 09/07/10-05/31/15
HRSA

Community Health Applied Research Network, OCHIN

As a Research Node Center (RNC) in the Community Health Applied Research Network (CHARN), OCHIN is partnering with its member affiliates and academic researchers at OHSU to engage in Comparative Effectiveness Research. The research (and its findings) will be shared among the four research nodes to improve the care provided to safety net patients on a National level.

Role: Co-Investigator

Completed Research Support

R01 DA017441 David, Sean (PI) 09/15/09-06/30/14
NIH, NIDA

Extended Treatment for Smoking Cessation

The overall purpose of this randomized clinical trial is to assess the efficacy of a multi-factor extended smoking cessation therapy (CBT, nicotine patch and bupropion; varenicline for non-responders to nicotine patch and bupropion) for the promoting longer-term smoking abstinence among adult smokers.

Role: Consultant (04/05/12-07/15/12); Project Director (09/15/09-11/15/11)

NIH, NCI

Extended Cessation Treatment for Teen Smokers

The overall purpose of this randomized clinical trial was to assess the efficacy of extended smoking cessation therapy for the treatment of nicotine dependence among adolescents. Teen smokers (aged 14-18; ≥ 10 cigarettes/day) attending continuation high schools in the San Francisco/San Jose Bay Area served as the target population for this study. All eligible smokers received nicotine patches and group intervention for 10 weeks. Half of these smokers are randomly assigned to receive an additional 9 weeks of intervention over a 14-week period.

Role: Project Director
