Presentations by Dr. Linn Goldberg

2. Clinical importance of hematuria. Medical Grand Rounds; Oregon Health Sciences University; 1980.

4. The benefits of exercise. Dwyer Hospital; Portland, Oregon; 1981.

5. Exercise: Cardiovascular risks and benefits. Medical Grand Rounds; Oregon Health Sciences University; 1981.

7. Risk factor control and exercise. Family Practice Review Course Program. Oregon Health Sciences University; Marriott Hotel; 1982.

8. Polymyositis. Division of General Medicine Conference; Oregon Health Sciences University; 1982.

10. The exercise prescription. Circuit Course Program; Oregon Medical Association; Pendleton, Oregon; 1982.

11. Exercise and fitness: Physiology, risks, benefits. Oregon Medical Association Continuing Medical Education Circuit Course Program; Oregon Health Sciences University; Bend, Oregon; 1982.

15. Isometric exercise. Exercise and Fitness Program CME Program; Red Lion Motor Inn; Portland, Oregon; 1983.

17. Fitting the exercise to the patient: Risks and benefits. Internal Medicine Update; Marriott Hotel; Portland, Oregon; 1983.

18. Exercise epidemiology, physiology and cardiovascular risks. Family Practice Seminar; Oregon Health Sciences University; 1984.

20. Exercise testing and pre-sport evaluation. Pediatric Tutorial; Oregon Health Sciences University; 1984.

25. The medical consequences of exercise. Medical Grand Rounds; Providence Medical Center; Portland, Oregon; 1985.

28. The exercise prescription. American Heart Association; Kern County Chapter Medical Conference; Bakersfield, California; 1985.

32. Exercise as medical therapy.  Medical Grand Rounds; Oregon Health Sciences University; 1985.

33. Exercise and health.  Marquam Hill Lecture; Oregon Health Sciences University; 1985.

34. Medical evaluation prior to exercise.  Family Practice Review Course; Red Lion Hotel; Portland, Oregon; 1986.

35. Use of the exercise laboratory: A workshop.  Family Practice Review Course; Oregon Health Sciences University; 1986.

36. Exercise testing prior to exercise.  Medical Rounds; Kaiser Hospital; Clackamas, Oregon; 1986.

37. Exercise prescription for the elderly: CME Conference; Fundamentals of Geriatric Care; Red Lion/Lloyd Center; Portland, Oregon; 1986.

39. Upper body exercise and cardiac rehabilitation; Oregon Heart Association Conference; Red Lion/Lloyd Center; Portland, Oregon; 1987.

40. Exercise evaluation - the who, why, when, and how.  Oregon Heart Center Symposium on Exercise; Sacred Heart General Hospital; Eugene, Oregon; 1987.

41. Research and exercise testing.  American College of Sports Medicine Northwest Chapter meeting; Portland, Oregon; 1987.

42. How to make teaching nutrition appetizing (a curriculum on nutrition).  SREPCIM National Meeting; San Diego, California; 1987.

44. Coronary risk factors and exercise.  Preventive Medicine Grand Rounds; Oregon Health Sciences University; 1987.
45. Why and how to prescribe exercise. Primary Care Medicine Conference; Portland Veterans Association Medical Center; 1987.

49. Exercise and diet as modifiers of coronary risk factors. City of Portland Employees; Portland, Oregon; 1988.

51. Metabolic changes occurring with exercise and exercise testing. Comprehensive Management of the Ambulatory Cardiac Patient Conference; Metro YMCA Cardiac Therapy; Portland, Oregon; 1988.

52. Anabolic steroid use among high school athletes. Research Forum; Providence Medical Center; Portland, Oregon; 1989.

53. Anabolic steroids: Uses, side effects and abuse potential. Anabolic Steroid Conferences; Portland State University; Portland, Oregon; 1989.

60. Exercise intensity during cardiac rehabilitation. Oregon Heart Association, Portland, Oregon; 1990.

61. HDL-Cholesterol and Cardiovascular Disease. McKenzie Willamette Hospital, Springfield, Oregon; 1990.

62. Cardiopulmonary adaptation to different training programs. Providence Heart Center and Heart Institute at St. Vincent Symposium; Portland, Oregon; 1990.

63. Exercise limitations: Detecting myopathies. Providence Heart Center and Heart Institute; St. Vincent Hospital; Portland, Oregon; 1990.

64. Exercise and blood pressure control. Eastmoreland Hospital Conference; Portland, Oregon; 1990.

68. Exercise and blood pressure. CME Conference; Woodland Park Hospital; Portland, Oregon; 1991.

70. Dyslipoproteinemia, clinical case management. St. Vincent's Hospital; Portland, Oregon; 1991.

73. Cardiopulmonary exercise testing. Oregon Heart Association/Rehabilitation Committee; Portland, Oregon; 1991.

75. Exercise and dyslipidemia. Meridian Park Hospital CME; Lake Oswego, Oregon; 1991.

82. Antihypertensive therapy for physically active patients. Eastmoreland General Hospital; Portland, Oregon; 1992.

83. Exercise testing and metabolic myopathies. Morbidity and Mortality Conference; Oregon Health Sciences University; 1992.

84. Exercise as non-pharmacologic therapy for hypertension. Medical Grand Rounds; Good Samaritan Hospital; Portland, Oregon; 1992.

85. Exercise training and use of ACE inhibitors among hypertensives. Providence Hospital; Seaside, Oregon; 1992.

89. Exercise as medical therapy. Medical Grand Rounds; St Charles Hospital; Bend, Oregon; 1992.

95. Use of resistive exercise for cardiac rehabilitation. Oregon Heart Association Cardiac Rehabilitation Committee; Portland, Oregon; 1993.

96. Cardiovascular health promotion by exercise. Hospital Grand Rounds; Valley General Medical Hospital; Renton, Washington; 1993.

98. Fitness testing and exercise prescription for older adults. Oregon Geriatric Education Center Conference; Portland, Oregon; 1993.

103. Clinical case conference: Treatment of dyslipidemia. Department of Medicine Case Conference; Oregon Health Sciences University; 1994.

106. Anabolic steroid use among adolescents: 5-year follow-up data. Pediatric Grand Rounds; Oregon Health Sciences University; 1994.

108. The exercise prescription. Internal Medicine Review Conference; Oregon Health Sciences University; 1994.

110. Streptococcal Infections. Clinical Case Conference Series (moderator); Oregon Health Sciences University; 1994.

114. Anabolic steroids and high school athletics. State of Oregon Coaches Conference; Columbia River Red Lion; Portland, Oregon; 1995.

117. Men's health care (moderator and presenter). Oregon Health Sciences University Healthy Talks; Portland, Oregon; 1995.

120. Dangers of the weekend warrior. Issues in Men's Health Care; Oregon Health Sciences University; 1996.

121. Exercise and coronary heart disease. Healthy Heart Conference; Oregon Health Sciences University; 1996.

122. Prevention of adolescent anabolic steroid use. International Pre-Olympic Scientific Congress; Dallas, Texas; 1996.

125. Hows and whys of exercise. Oregon Health Sciences University Healthy Talks; Portland, Oregon; 1997.

132. ATLAS and ATHENA: Gender-specific, school-based sport team-centered programs for drug prevention and health promotion. Society for Prevention Research: 6th annual meeting; Park City, Utah; 1998.

133. Team-centered drug prevention and health promotion: A new paradigm for adolescents. Office of Behavioral and Social Sciences Research and the Office of Disease Prevention, National Institutes of Health; Bethesda, Maryland; 1998.

134. Drug use among adolescent athletes. Pediatric Noon Conference, Oregon Health Sciences University; Portland, Oregon; 1999.

141. Preventing drug use among adolescent athletes: The United States Olympic Committee Crew Chief Recertification Program; Salt Lake City, Utah; 2000.

143. Drug prevention in sport. PRIDE national conference; Louisville, Kentucky; 2000.

152. The ATLAS and ATHENA drug prevention and health promotion program for adolescent athletes. Making the Connection Drug and Alcohol Prevention & Treatment Conference; Oregon Partnership Coalition; Portland, OR; 2001.

161. Reducing the Risk of Substance Abuse Among High School Athletes. North Bend Medical Center (sponsor), North Bend, Oregon, 2002.

162. Drug Use and Young Athletes. Willamette Falls Hospital, Oregon City, Oregon, 2002.

164. Teen Abuse of Anabolic Steroids. Pediatric Grand Rounds, Driscoll Children’s Hospital, Corpus Christi, Texas, 2002.

178. Exercise to Prevent & Treat Diabetes & Other Associated Risks. Salem Memorial Hospital, Salem, Oregon, April 2004.

182. Athletes and Drug Use. Primary Care Conference. Meridian Park Hospital, Tualatin, Oregon, 2005.

187. Healthy Youth. Alcohol & Drug Addiction Services, Board of Lorain County, Annual Community Dinner. Cleveland, Ohio, 2005.
