We are pleased to introduce Sophia Bornstein, M.D., Ph.D., and Jerry Jaboin, M.D., Ph.D., radiation oncologists.

Dr. Bornstein completed her residency in radiation and doctorate in cell and developmental biology at OHSU. She has joined the OHSU Knight Cancer Institute as assistant professor, director of the Division of Translational Research, and program leader of palliative care medicine, in the Department of Radiation Medicine. At OHSU, she will focus on:

- Palliative care radiation medicine
- Clinical translational research, particularly pilot and phase I/II trials
- Treatment of metastatic sites causing symptoms
- Stereotactic treatments

Dr. Jaboin completed his residency in radiation oncology at Vanderbilt University, in Nashville, Tennessee. He has joined the OHSU Knight Cancer Institute as assistant professor in the Department of Radiation Medicine. He is board-certified in radiation oncology. Dr. Jaboin’s clinical focus includes:

- General radiation oncology
- Pediatric, central nervous system and gynecologic radiation oncology
