

## Integrated Hospitals – Kaiser Permanente

Kaiser Permanente is a group practice prepaid health plan providing comprehensive health care in many parts of the U.S. The Northwest Region serves over 480,000 members in northwest Oregon and southwest Washington. Kaiser consistently posts industry-leading scores in several measurable areas of quality of care.

Kaiser Permanente Northwest operates 26 outpatient medical facilities including Ambulatory Surgery Centers. Kaiser has two hospitals: Kaiser Sunnyside Medical Center in Clackamas—considered to be Kaiser’s tertiary care center--and Kaiser Westside Medical Center which is a smaller community hospital. Kaiser works in cooperation with OHSU, Legacy Health System, and the Portland Clinic as a teaching institution for residents and fellows in multiple training programs. There are more than 1,000 physicians representing all specialties who practice at Kaiser Permanente; several hold faculty appointments at OHSU.
