

## Three Rivers Community Hospital

Three Rivers Community Hospital (TRCH), located in the small town of Grants Pass in Southern Oregon, is a community hospital that offers a wide range of high-quality medical care to residents of Josephine County and beyond. It is the site of our Rural Surgery Program. The 98-bed hospital was designed paying careful attention to patient needs and offers a healing environment. The high-tech capabilities of this modern facility will provide excellent health care for many years. The hospital was designed to have a strong link to the community it serves and this can be observed through the fact that each of the floors in the hospital are named after one of the three rivers that flow through Josephine County. It houses an award winning Family Birth Center with an up and coming Surgical and Cancer fighting medical community.
