• Mark A. Richardson, M.D., M.B.A., Dean	07/01/2007-

- *Drs. Kendall's and Benson's appointments as Dean overlap, because Dr. Kendall was on sabbatical leave from 9/1/91-8/31/92. Dr. Kendall remained Dean, but Dr. Benson was appointed Interim Dean to cover his absence. When Dr. Kendall returned he decided to step down on 9/30/92 and Dr. Benson continued on as Interim Dean until 6/30/93.

Our Past....

The History of SOM

We've come a long way!

In 1887, the inaugural class of the University of Oregon Medical School met in the school's lone building - a two-room converted grocery store in northwest Portland. From that small school we have grown into a world-class teaching hospital and research center that draws in students, scientists, and patients from across the country and around the world. At the same time, we retain our strong commitment to serving our local community, and to treating each patient as a unique individual.

Our first permanent Home - 1887

First MD Class Picture - 1889
