

Principles of Clinical Medicine

*"Patient - focused education through
integration of basic and clinical sciences"*

The Preceptorship is a major component of the Principles of Clinical Medicine course. For each of six separate terms, students spend one-half day per week at a physician's office in the community. Please complete this questionnaire and return it to the address listed below.

NAME: _____ **Cell Phone Number:** _____

1. If you had a choice, would you prefer a primary care preceptorship in Family Medicine or General Internal Medicine?

Family Medicine General Internal Medicine

2. If you had a choice, which sub-specialty preceptorship (not General Internal Medicine or Family Medicine) would you prefer?

1. _____ 2. _____ 3. _____

3. Are you interested in a preceptorship with underserved patients?

Yes No

4. Do you speak any foreign languages?

Yes No

If yes, please list: _____

5. Students are responsible for their own transportation, whether public or private. While we may not be able to fully take transportation issues into account, it is helpful to understand your mode of transportation.

Method of transportation you plan to use to travel to/from your preceptor's clinic:

Personal Car Public Transportation Other: _____

Please return this questionnaire

No later than July 31, 2011 to:
