The Hartford Center of Gerontological Nursing Excellence was funded from 2001-2015 by the John A. Hartford Foundation (JAHF). During that time the Center distinguished itself in gerontological research, family caregiving, and enhancing undergraduate and graduate education in gerontological nursing.

Post JAHF funding, we have made it our mission to enhance and sustain the capacity of health professionals to provide quality care to older adults and their caregivers through interprofessional research, education, adoption of best practices, and faculty and leadership development.

The Hartford Center is honored to steward the HARP program made possible through an endowment by the Frances Price Estate Fund.

Proposals of up to \$25,000 will considered. The HARP Program funds up to two studies for the funding cycle.

Purpose

The purpose of the Hartford Award for Research and Practice (HARP) Program is to improve the health and health care of older adults through research and innovations in care by providing support for faculty research or practice change projects. The HARP program core values are innovation, accountability for outcomes, and a plan to leverage these funds into sustainable programs of research or practice improvements. Proposals are evaluated on the following criteria:

Proposal Criteria:

1. *Innovative*: The proposed research or project addresses an important and significant need in a novel way.
2. *Relevant*: The proposal has the potential to improve the health or health care for older adults.

3. *Synergistic*: The proposal leverages existing resources at OHSU through collaboration with others, including interprofessional colleagues; SON and OHSU Centers and Programs; and other aging initiatives.
4. *Merit*: The proposal represents an original idea or approach with strong rationale, well described for the approach, and rigorous methods.
5. *Feasible*: The proposal is appropriately scoped in budget and aims to be completed within one year.

Expected Outcomes

Grantees agree to:

1. Provide a brief report of progress by April 2, 2018 to the Director of the Hartford Center of Gerontological Excellence (HCGE).
2. Complete the HARP study or project within one year and submit a final report within two months of the end date. The final report includes an abstract of findings/outcomes, final budget report, and plans for future funding or sustainability, and dissemination.
3. Present the results of the HARP study or project to the SON community within 6 months of the completion date.
4. Acknowledge the HARP and HCGE as supporters of the funded research project during national and local presentations, lectures and in publications.

Faculty Eligibility Criteria

The HARP Program is available to all OHSU School of Nursing faculty. Preference is given first to faculty who have completed their terminal degrees within the past 10 years, then to faculty who have completed their terminal degree more than 10 years ago, but are developing an interest in nursing care of older adults. Senior faculty members are strongly encouraged to mentor junior faculty on collaborative projects. Funding preference is also given to faculty who have not received previous HARP funding and proposals that engage an interprofessional team. Funding is not transferrable to another institution. In a case when the HARP awardee leaves OHSU, another SON faculty on the study or project team will be appointed in consultation with the Director of the HCGE.

Proposal Process and Timeline

Applicants are encouraged to discuss their ideas with the Director of the HCGE. The Director is also available to serve as a mentor to HARP applicants or help identify other mentors, depending on the applicant's needs and specific content area. Applicants are strongly encouraged to solicit peer review prior to submission of the proposal.

As proposals require internal (SON) approval, please make contact with the School of Nursing Office of Research Development and Support (SNORDS) SNORDS@ohsu.edu as soon as possible to begin working on your application.
