1.0 POLICY STATEMENT

Non-degree students may not enroll in any undergraduate courses (100-499). Selected graduate level courses (500-799) allow non-degree student enrollment with permission of the faculty of record and on a space available basis. Non-degree students are not eligible to register or participate in clinical courses.

In order to be eligible for non-degree enrollment in graduate courses, students must hold a bachelor degree from an accredited school. Students with degrees from foreign colleges or universities must have a bachelor-level degree from a school accredited by the appropriate agency in that country. Non-degree students must have successfully completed any required prerequisites for the course they wish to take in order to enroll.

There is no maximum number of credits student can take as a non-matriculation student; however, students may only transfer 9 credit hours of non-degree course work into an OHSU School of Nursing graduate degree program¹. There is no commitment that non-degree courses will apply toward a graduate degree or that successful completion of courses in a non-degree status qualifies a student for admission.

See policy 50-01.15 for complete information on required compliance requirements for non-degree students.

¹ Students may transfer up to 12 credits into the MPH. However, those may not be for MPH core courses.
2.0 DEFINITIONS
