

OHSU IPE-CP Simulation Program

innovative simulation-based education, training, research and assessment

Interprofessional Education (IPE)

General Clinical Skills

- Undergraduate and pre-doctoral learners
- Clinical foundation skills; significant standardized patient use
- Emphasis on training and competency assessment

Training and competency assessment

Advanced Patient Mgmt Skills

- Generalized sim for all learners
- Scenario (case)-based simulation
- Emphasis on critical care, team, communications-training and assessment
- Significant sim manikin usage

Interprofessional team and communications training

Advanced Individual Technical Skills

- Advanced practice learners
- Virtual reality simulators
- Robotics
- Cadaveric and animal procedures

Specialized skills training

In Situ

- OHSU and external learners
- Internal providers team and process improvements
- Community outreach - rural, telemedicine, etc.
- Continuing education provider

Interprofessional training at patient site

Virtual Patients

- Computer-based simulation for all learners
- Use of EHR (Electronic Health Records), avatars, virtual reality 'gaming', dynamic progressive scenarios

Computer-based

OHSU Simulation will soon be enhanced

20,000 sq. feet in the new Collaborative Life Sciences Building

- Interprofessional and multi-modal simulation on the 3rd and 4th floors of south tower
- Spring 2014 move-in

CLSB Interprofessional Simulation Facility – 4th Floor

~12K sq ft

Program

- (8) Flexible Simulation Rooms
- (2) Multi-Purpose Rooms
- Med Supply Rooms
- Debrief Rooms
- Control Rooms

- Reception / Lobby
- Support and Prep
- Offices
- Biomedical Support

MED / SURG

ED / ICU

L&D / OR

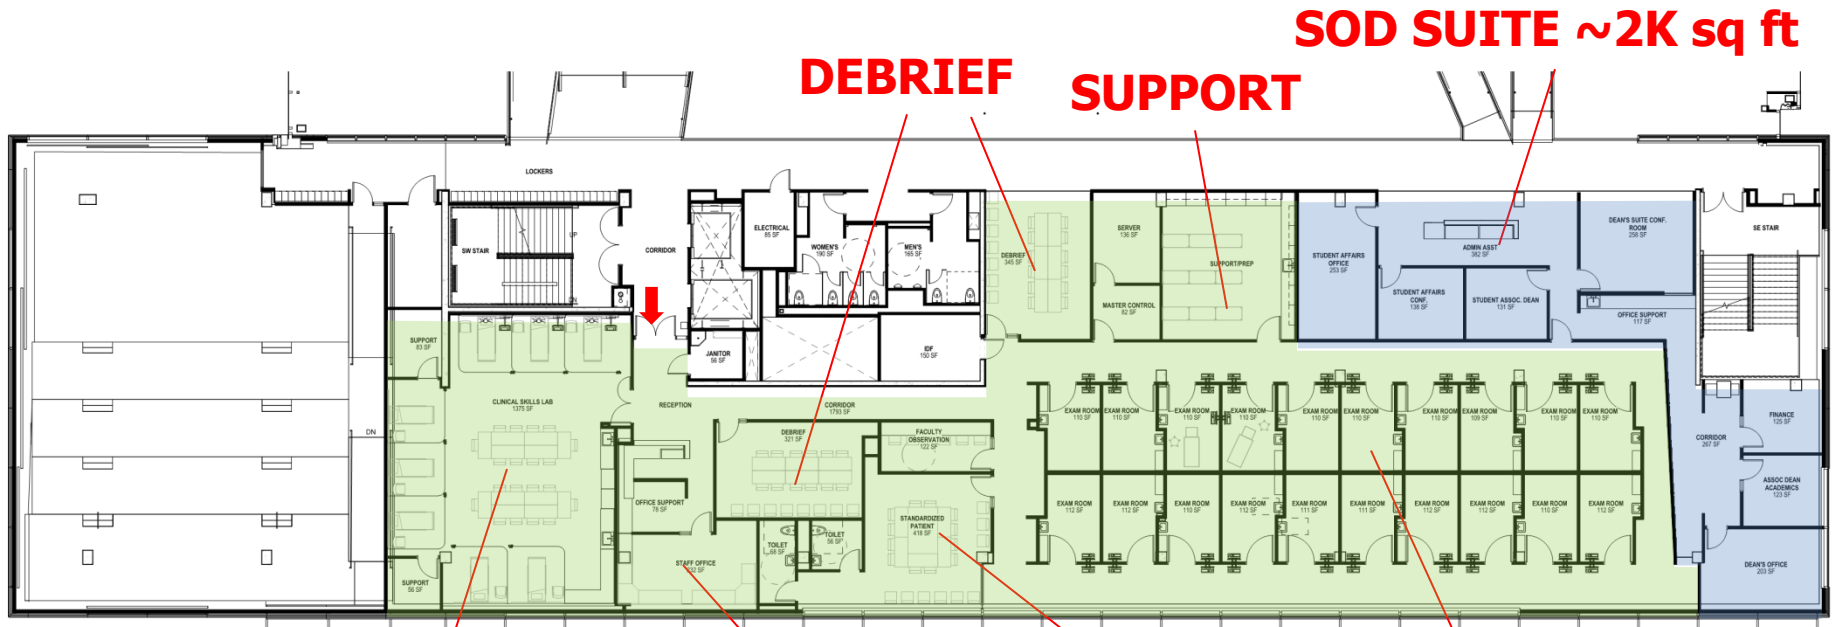

PICU / PACU

CLSB Interprofessional Simulation Facility – 3rd Floor

~8K sq ft

Program

- (20) SP Exam Rooms
- (8) Bed Clinical Skills Room
- (2) Debrief Rooms
- Faculty Observation
- SP Training Room
- Support/Prep Spaces
- Staff Offices/Office Support

SOD SUITE ~2K sq ft
