Mark your calendars! Mother's Day marks the beginning of National Women's Health Week. In honor of this event, the Center for Women's Health and the Center for Diversity & Multicultural Affairs will host a presentation on how Oregon fared nationally in the Report Card project. Joining us will be Dr. Michelle Berlin, OHSU physician and one of the lead researchers on the Making the Grade on Women's Health: A National and State-by-State Report Card, the first ever report card to measure and review the overall health of women at the national and state levels.
