

Immunotherapy Policy Change

As of August 1, 2014, JBT Health & Wellness Center will be unable to accept serum provided by non OHSU providers and allergy injections will need to utilize serum prepared by the OHSU pharmacy.

If you are currently using outside serum, please note that you will be able to finish your current vials. Moving forward, new vials will need to be ordered by an OHSU provider and dispensed by the OHSU pharmacy. Please plan accordingly. If you require a referral to establish care with an OHSU allergist, please contact the JBT Health & Wellness Center appointment desk for a provider appointment.
