

Science Outreach and Resources

The Science Outreach and Resources (SOAR) Committee encourages, supports, coordinates and monitors effective science outreach programs that connect OHSU scientists with schools and communities statewide.

SOAR's Education Goals

- Encourage greater public appreciation of the role of research in society.
- Improve science literacy in Oregon.
- Enable community access to OHSU scientists, research and discoveries.
- Provide mutually beneficial opportunities for collaboration and partnership.
- Enhance recruitment of students, patients and donors.
- Improve communication and educational skills among faculty and staff.
- Provide enjoyable and rewarding ways for scientists to connect with the community.
