Airborne Precautions

IN OHSU AMBULATORY CARE DOOR MUST REMAIN CLOSED AT ALL TIMES

STAFF: In addition to standard precautions, EVERY time you enter the room:

- **HAND HYGIENE**: Before and after patient contact.
- **N95 RESPIRATOR OR PAPPR** (Powered Air Purifying Respirator)
- **KEEP DOOR CLOSED** during patient exam and for one hour after patient leaves.
- **STANDARD** cleaning and disinfection of surfaces and patient care equipment.
Common conditions and/or pathogens requiring airborne precautions include:

- Tuberculosis
- Varicella (chickenpox): Use airborne and contact precautions
- Measles

For more information, please consult the Transmission-based Isolation Precautions Policy located on the OHSU Policy Management System at https://ohsu.ellucid.com/home or contact the Department of Infection Prevention and Control at 503 494-6694.
