

Neurocritical Care Fellowship

Why OHSU?

CLINICAL EXPOSURE

17 bed dedicated Neurosciences ICU (expanding); average census: 22

- busy high-risk neurosurgical practice
- 150 subarachnoid hemorrhage admissions/year
- 400 ischemic stroke admissions/year
- 120 endovascular stroke interventions per year

Ample opportunities for ICU procedural experience with central venous catheter placement, intubation, bronchoscopy, arterial lines, and lumbar punctures

Superb cerebrovascular neurosurgery, vascular neurology and interventional neuroradiology programs

Major referral center for Oregon, Washington, Idaho, and Northern California for critical neurologic diseases (encephalitis, status epilepticus, neuromuscular)

RESEARCH OPPORTUNITIES

Excellent basic science: OHSU ranks in the top 1% among academic institutions in NIH support of basic neuroscience research.

Excellent clinical science: OHSU is a top enroller in virtually every major clinical trial of therapies for stroke, subarachnoid hemorrhage, and interventional neuroradiology.

Mentorship: Research mentorship available from Neurology, Neurosurgery, Anesthesiology and Perioperative Medicine, and the OHSU Graduate Neurosciences Program.

TEACHING

Formal didactic lectures series for neurocritical care and multidisciplinary critical care medicine

Diverse clinical perspectives, with faculty from Neurology, Anesthesiology and Perioperative Medicine, and Pulmonary Critical Care Medicine

Electives available in Anesthesiology, Postsurgical Intensive Care Medicine, Diagnostic Neuroradiology, Interventional Neuroradiology, Trauma Intensive Care Medicine, Internal Medicine Critical Care, Infectious Disease, Palliative Care and many more

LIFESTYLE

Oregon is a place of outstanding beauty and culture. A cosmopolitan city, Portland is renowned for food, arts, music, and nightlife. It's also a family-friendly community with excellent schools and vibrant neighborhoods.

Portland enjoys mild winters and fabulous summers. Mount Hood, wine country, hiking, and the Pacific ocean are within an hour-and-a-half or less of downtown Portland.

FELLOWSHIP POSITIONS AVAILABLE JULY 2011 and 2012

UCNS accredited

Two-year combined clinical and research fellowship training in neurocritical care, through the Departments of Neurology, Anesthesiology and Perioperative Medicine and Neurological Surgery.

One year fellowship considered for qualified candidates from Internal Medicine, Anesthesiology, or Emergency Medicine with previous fellowship training in critical care.

APPLICATIONS/INQUIRIES

For questions, or to apply, please contact:

Tarvez Tucker, M.D.
Fellowship Director, Neurocritical Care Program
Associate Professor of Neurology and Neurocritical Care
tuckerta@ohsu.edu

To apply, please include:

- CV
- 1 page statement of purpose
- 3 letters of recommendation
