About This Conference

This free conference is intended to provide cross-disciplinary education to professionals responding to concerns or allegations of elder maltreatment. It is intended for adult protective services professionals, physicians, nurses, social workers, police, state's attorney's, and other professionals concerned with elder abuse and neglect. Upon completion of this conference, participants will:

- Understand the scope of the problem of elder maltreatment
- Be able to identify common signs and symptoms of elder abuse and neglect
- Understand the perspectives and roles of helping professionals in elder abuse and neglect situations
- Build psycho-social assessment skills in cases involving abuse and neglect
- Acquire new skills in assessing and intervening in elder maltreatment cases
- Understand the key elements of documentation in elder abuse and neglect cases
- Be able to identify ethical issues that can effect outcomes in cases involving abuse and neglect
