Oregon Women’s Health Network 2015 Lecture Series
Celebrating 17 Years of Thought-Provoking Lectures

2015 Theme: Science, Society and Self: Women’s Health through the Generations

Friday
March 13, 2015
8:00 AM – Noon
Kennedy School

Nutrition and the Impact of the Generations: Epigenetics, Dietary Patterns & Social Determinants

Guest Speakers:

Kent Thornburg, PhD: Family Health Across the Generations

Kent L. Thornburg, a pioneer in the field of Epigenetics, is M. Lowell Edwards Chair, Professor of Medicine, Director of the Center for Developmental Health at the Knight Cardiovascular Institute, and Director of the Bob and Charlee Moore Institute for Nutrition & Wellness at Oregon Health & Science University.

Christie A. Naze, RDN, CDE: What Should Babies Eat Before They Are Born

Christie Naze is a Registered Dietitian and Certified Diabetes Educator at the Center for Women’s Health at OHSU. Recognized within and outside OHSU as an expert in the field of gestational diabetes and prenatal nutrition, Christie helps expecting mothers achieve healthy pregnancies and deliveries.

Janne Boone-Heinonen, PhD: Why Don’t We Follow Dietary Advice? Community and Social Influences on Nutrition

At the Public Health and Preventative Medicine at OHSU School of Medicine, Janne Boone-Heinonen studies how social and environmental factors, diet and physical activity behaviors, and maternal health interact in the development of obesity susceptibility throughout the life course.
