

## Recognizing Outstanding Service Excellence

**Angela Sippel**  
*Anesthesia*

**Shannon Sayers-Rana from Operating Room/South Surgery submitted the following nomination...**

I would like to nominate Angela for a Golden ROSE Award for a specific time she has gone above and beyond but Angela seems to always go above and beyond. On this occasion, we had just finished remodeling our North Anesthesia workroom with new storage cupboards throughout. Angela does not generally work in the North Operating Room (OR) but volunteered to go over and not only organize the new space, but label, divide, clean, sort, recycle old items that did not need to be there anymore and really make the area sparkle. This took Angela one whole week; one whole week of volunteering to go in an area where she was completing this task while still completing her "regular job". I cannot tell you how much this helped everyone involved to have this area organized so quickly. In an operating room area, being able to find things quickly makes it possible to do our job safely and efficiently. In addition, it is a much nicer place to work now that it is upgraded and organized, making our employees happier and more efficient. Without Angela stepping up and taking on this task, it could have taken a whole lot longer to be at the place we are today. In fact, we may have never gotten there without her organizational skills.

Thanks Angela!
