

Recognizing Outstanding Service Excellence

David Snethen
Accounts Payable

Kathy Gambino from Central Services Education submitted the following nomination...

David has provided Financial Systems Education (FSE) with a multitude of information on the creation of Outlook Templates and Toolbar Buttons. David has been beneficial in teaching FSE how to streamline a process and save FSE many hours of time with building and editing Outlook templates. With my many questions and David's quick responses, FSE has been able to take complex ideas and simplify them. Not only did we learn how to build the Templates and Toolbar Buttons in Outlook, but David shared additional knowledge and suggestions that provided FSE with another thought process, using OneNote. David was ever so helpful during my many questions and phone calls about Outlook buttons, toolbars, creating, saving, and sharing Outlook template information. This time saving tip from David, suggesting the use of OneNote, will assist FSE with the creation and saving of Templates within minutes, to a shared drive and hyperlinking them into OneNote. David has done all this in addition to his regular accounts payable job duties. He has gone above and beyond my expectations and more than deserves this Golden Rose Award. THANK YOU for what you do.

Award Recipient - March 2010
