

Recognizing Outstanding Service Excellence

Trina Timbreza
Doernbecher Volunteer Services

Laura Osborn, from Doernbecher Administration, submitted the following nomination. . .

I would like to nominate Trina Timbreza, Volunteer Coordinator for Doernbecher Children's Hospital, for a Golden ROSE Award for her professionalism, resilience, and efficiency during the many changes that have happened in Volunteer Services. Over the past few months, both Doernbecher and OHSU Volunteer Services have transitioned several key positions, from upper management to administrative support. Trina has shown commitment and dedication toward the training and preparation of these new employees on both the Doernbecher and OHSU sides of the program. She has developed and implemented numerous successful ideas within the program and is often a "go to" person on many things outside the realm of her job description. Trina is helpful and well-liked among staff and volunteers alike. Her professionalism, expertise and knowledge of volunteer management make her a treasure to Doernbecher. Her great sense of humor and easy rapport makes her an asset to the volunteer program, and her overall commitment to service excellence makes her a perfect recipient for the Golden ROSE Award.

Award Recipient - July 2009
