Parent Resources, Professional Resources: Cincinnati Children's Hospital web site:

cincinnatichildrens.org

**Nutrition for Children with Special Health Care Needs: A Self Study Curriculum:

On line set of modules for study developed with University of Washington and University of California, Children's Hospital Los Angeles.
Look over Module #6 especially!

**Regional and Statewide Services for Students with Orthopedic Impairments:

RSOI.org website has many resources including a current list of feeding and swallowing evaluation centers in Oregon and current Feeding Teams located in communities all over Oregon. These services are available for children who qualify for special education, birth through age 20. RSOI sponsors a great Feeding Team conference every year in the late fall/winter at a reasonable cost. IF you have never attended consider partnering with a team in your area and going!

WIC Resources:

Concentrating Formulas and Breast Milk Brochure
Preemie Feeding Recommendations Brochure

**Very Important Resources
