

John Day/ Grant County Service Area

Demographic and Socio-Economic Data
November 2012

John Day Service Area Population Change (1990-2017)

- John Day SA Zips: 97817, 97820, 97825, 97845, 97865, 97869, 97873, 97848, 97856, 97864
- Population change tells us whether the health system should be expanding to meet needs or trying to right size itself from being over built.

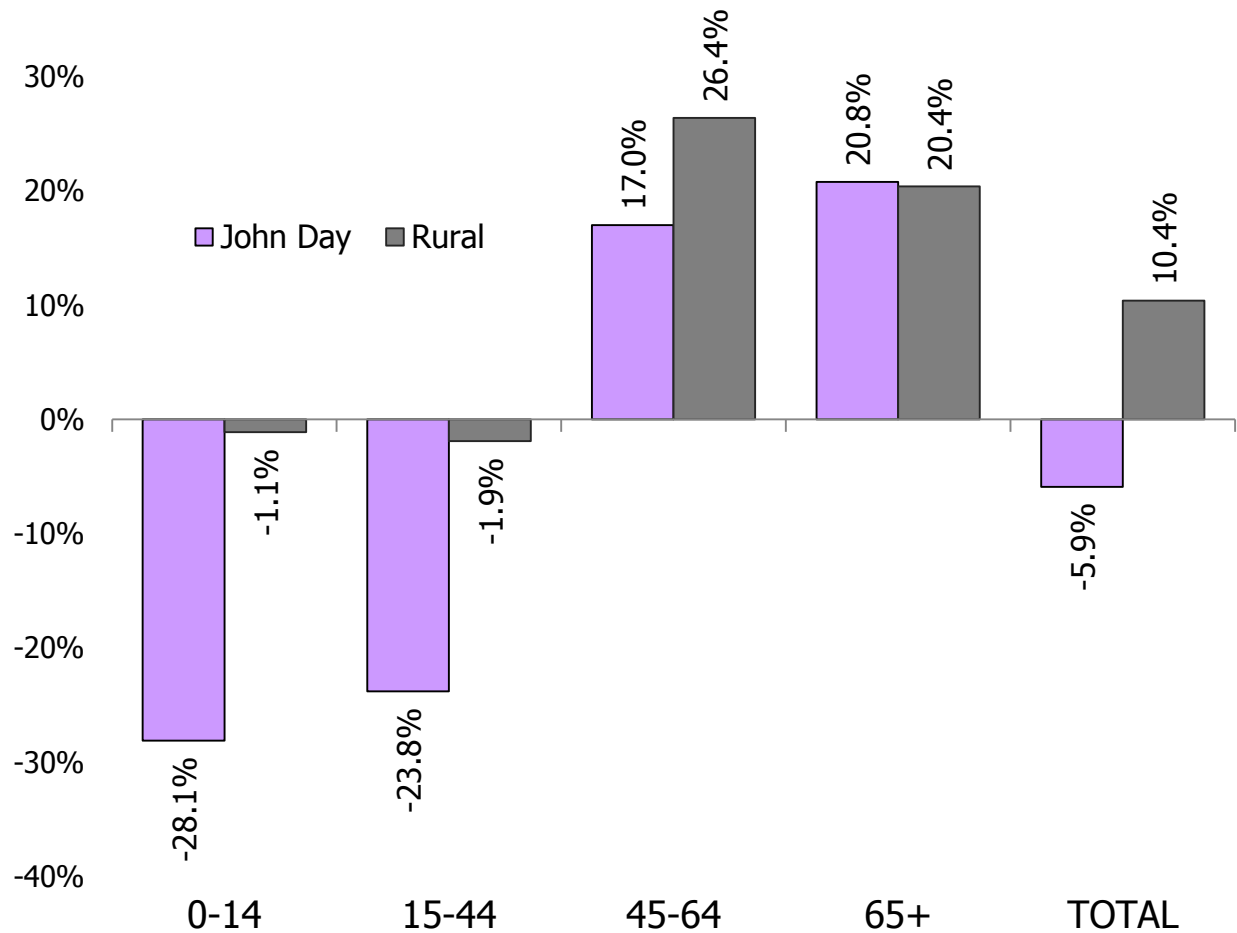

Service Area Percent Change by Age Breakdown (2000-2012)

John Day

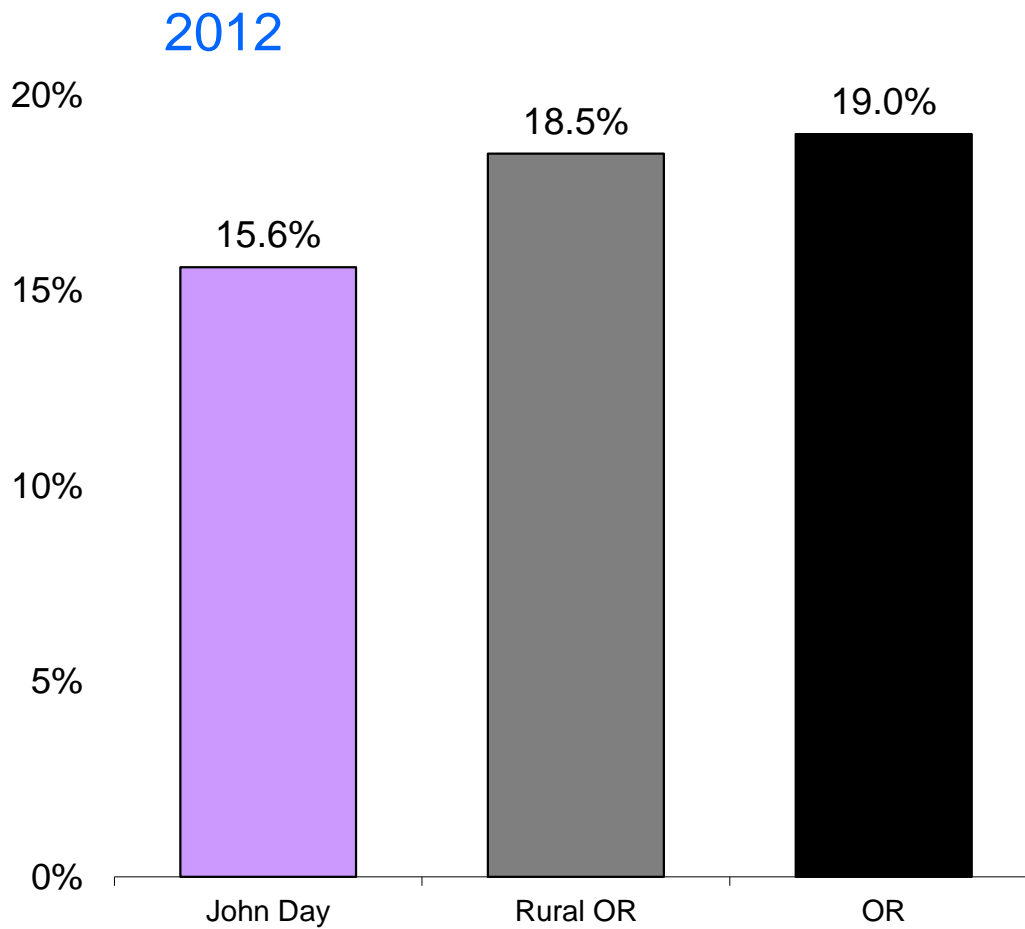

2012 Pop:

- 0-14: 1,155
- 15-44: 2,106
- 45-64: 2,566
- 65+: 1,594
- TOTAL: 7,421

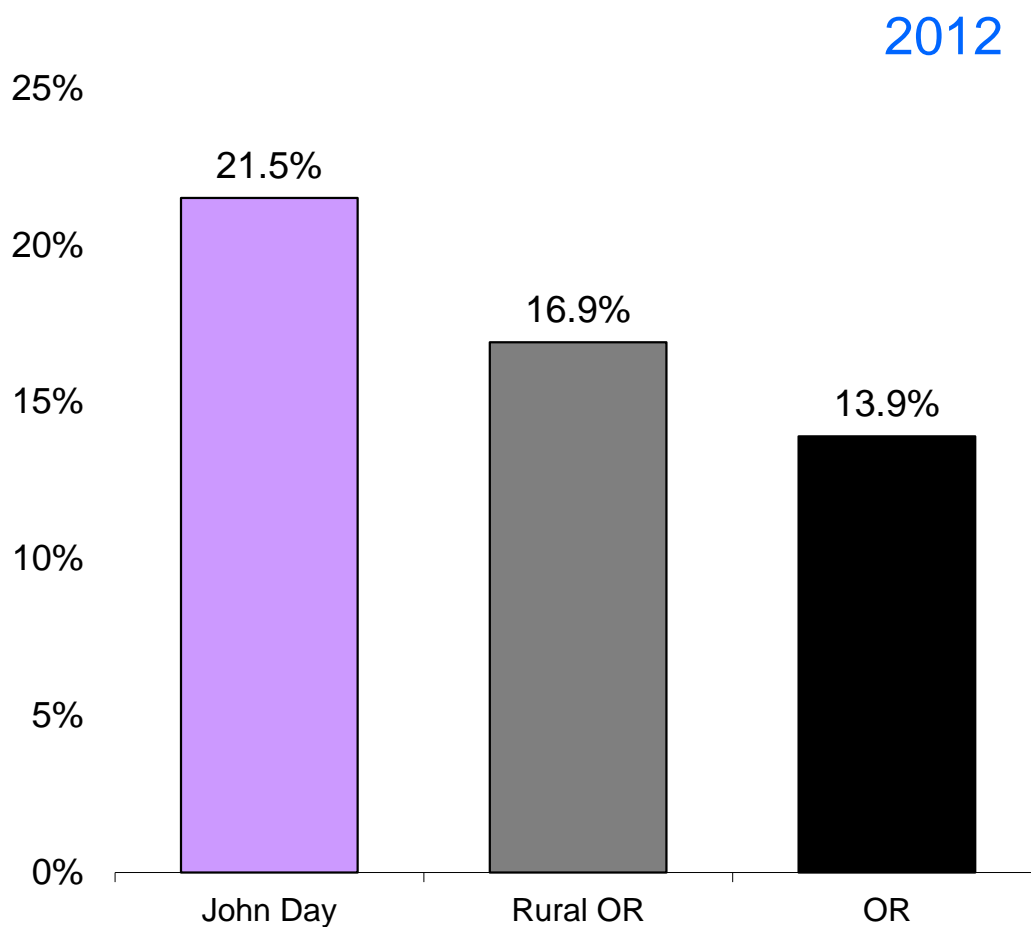

Percentage of Population Age <15

- High percentages in this age group many times means more obstetrical work and lower inpatient rates. This age group is not a big consumer of health services. However, they are the target for health education/prevention information.

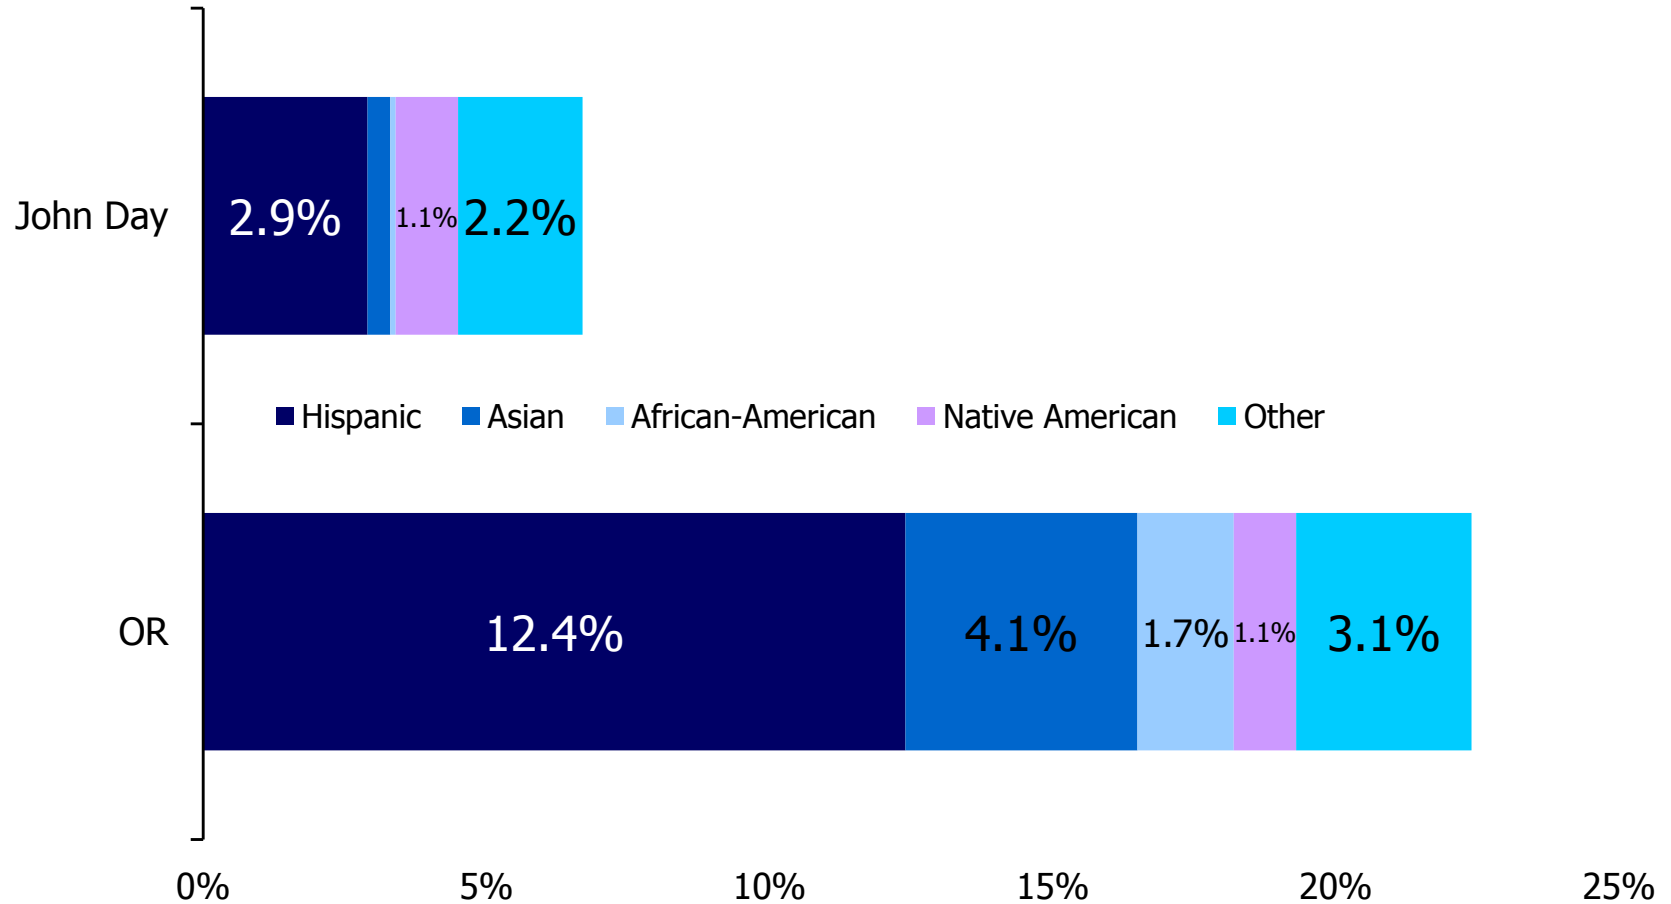

Percentage of Population Age 65+

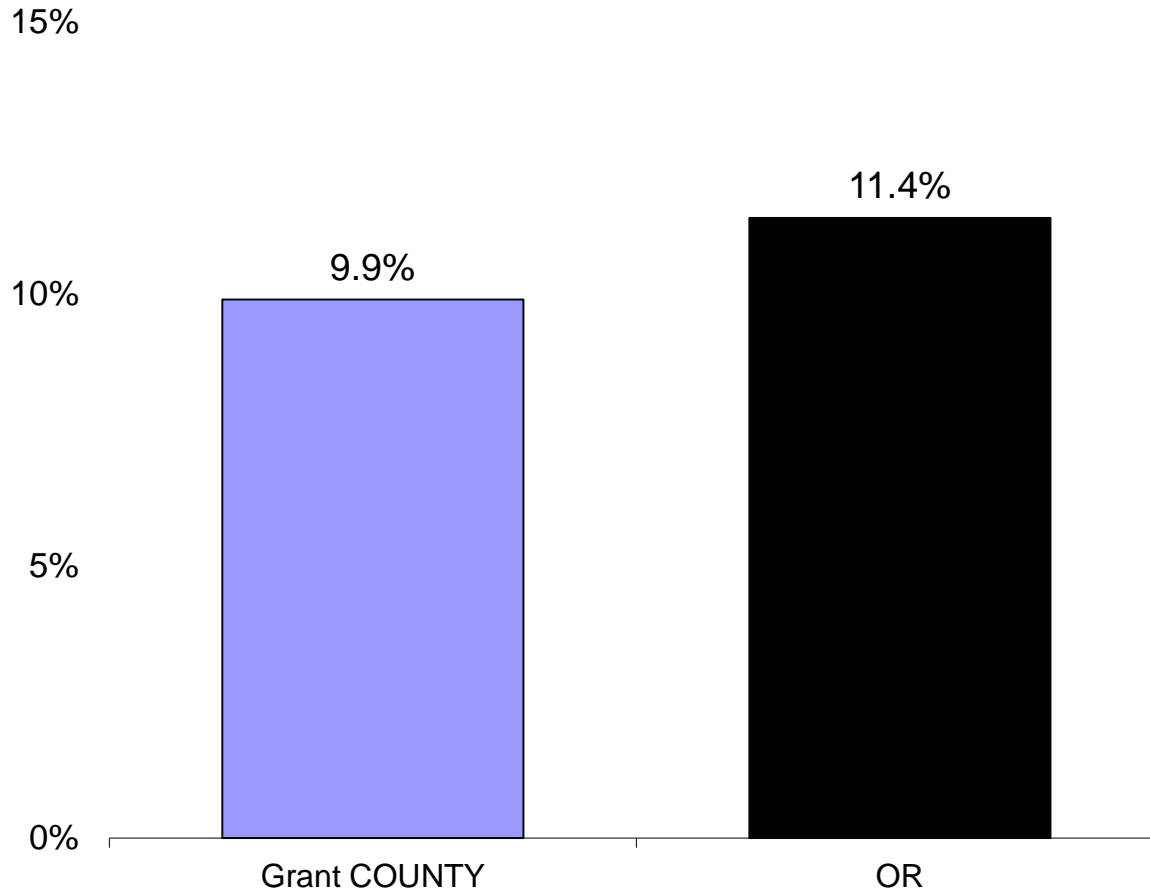

- People age 65+ are entitled to health coverage from **Medicare**. High dependence on Medicare as a source of payment to a health provider is not a good indicator.
- Over 50% of Oregon primary care physicians do not currently accept Medicare patients or they limit acceptance of Medicare patients.

Racial/Ethnic Characteristics

Percent 25 and Over with no High School Diploma

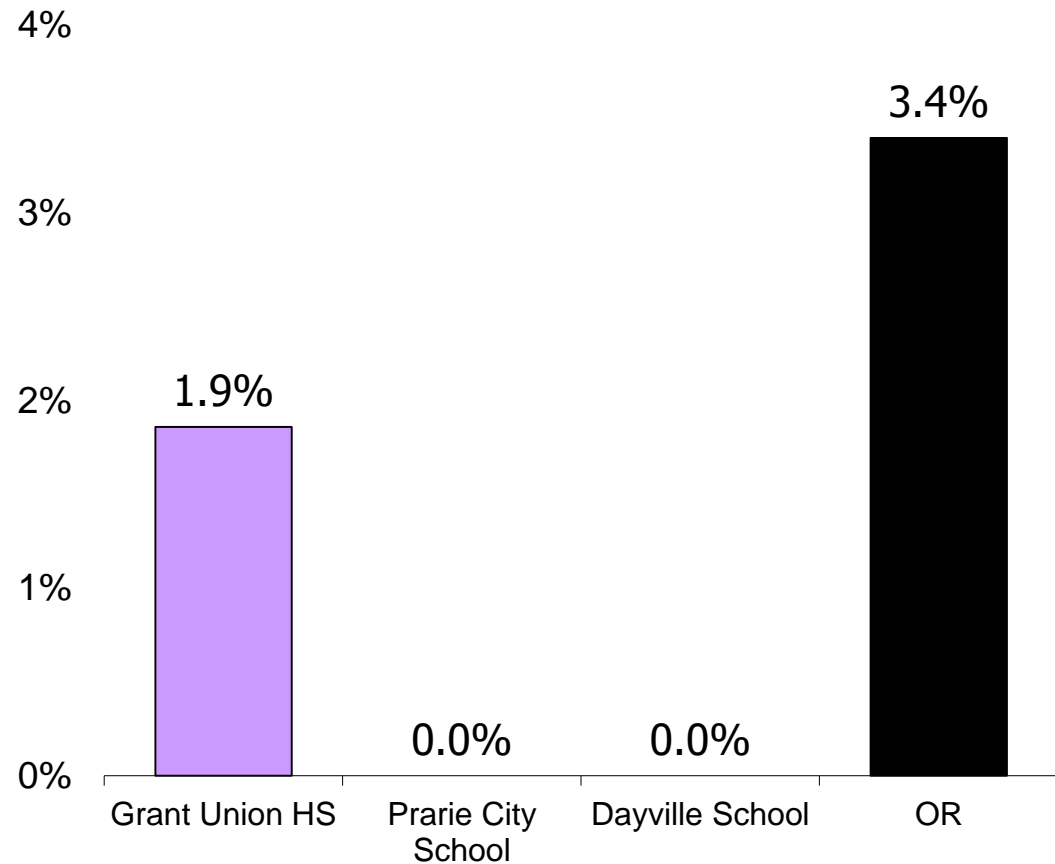

- Health information and education materials should be designed to meet the reading and thinking skill levels of consumers

John Day Service Area High School Drop-Out Rate (2010-2011)

- Drop out rates contribute to lack of insurance coverage or high dependence on Medicaid.
- Individual High School data is available from Dept. of Education
- www.ode.state.or.us/data/schoolanddistrict/students/dropout.aspx

Consequences of Dropping Out

- Oregon high school dropouts...
 - Comprise at least 79% of the Oregon adult prison population at time of incarceration¹
 - Are four times as likely to be covered by the Oregon Health Plan, as are persons with at least a high school diploma²
 - Are more than twice as likely to be unemployed than students who graduate³
 - Are earning 30% less in wages than students who graduate³

¹Oregon Department of Corrections

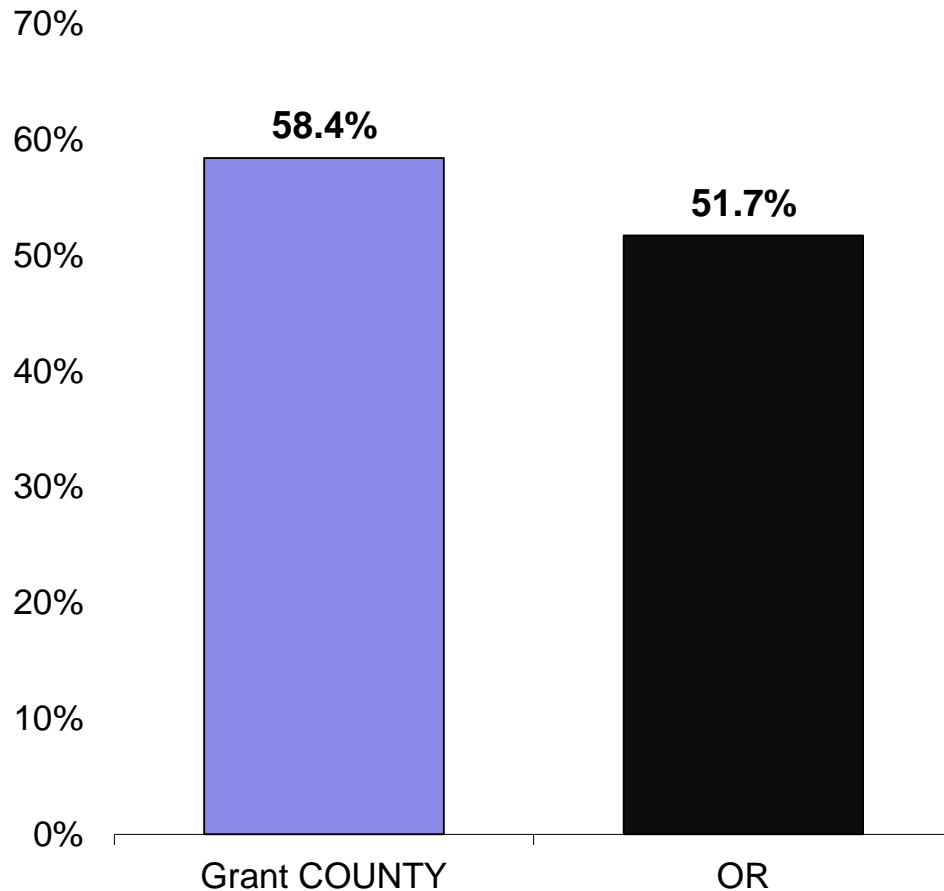

²Oregon Health Plan

³Oregon Employment Department

Percent of Students Eligible for Free and Reduced Lunch (2011-12)

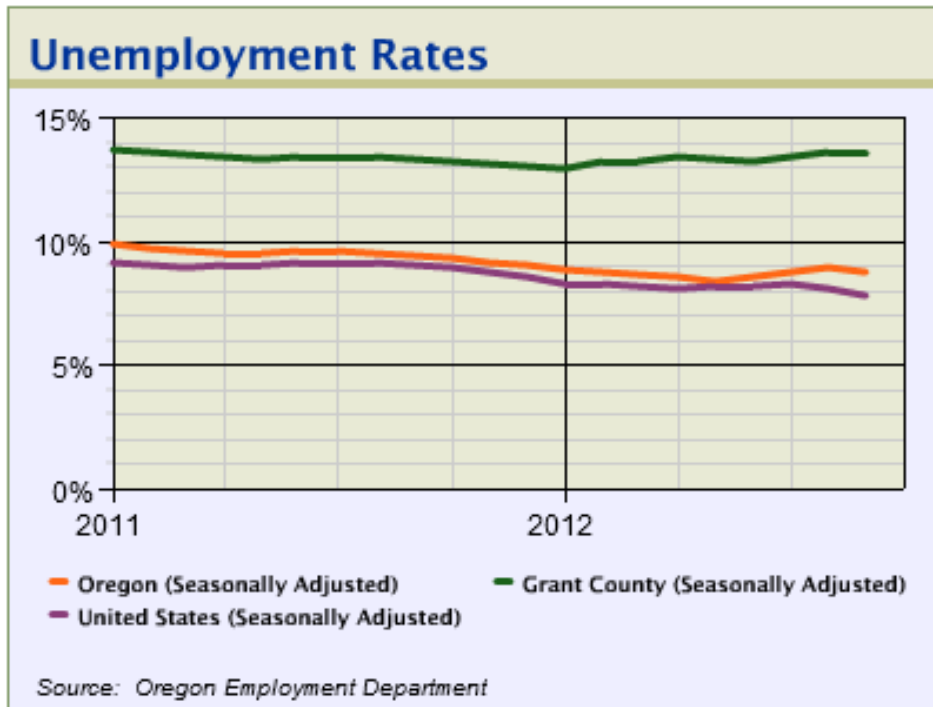

- Free and Reduced Lunch recipients are an indicator of at risk populations

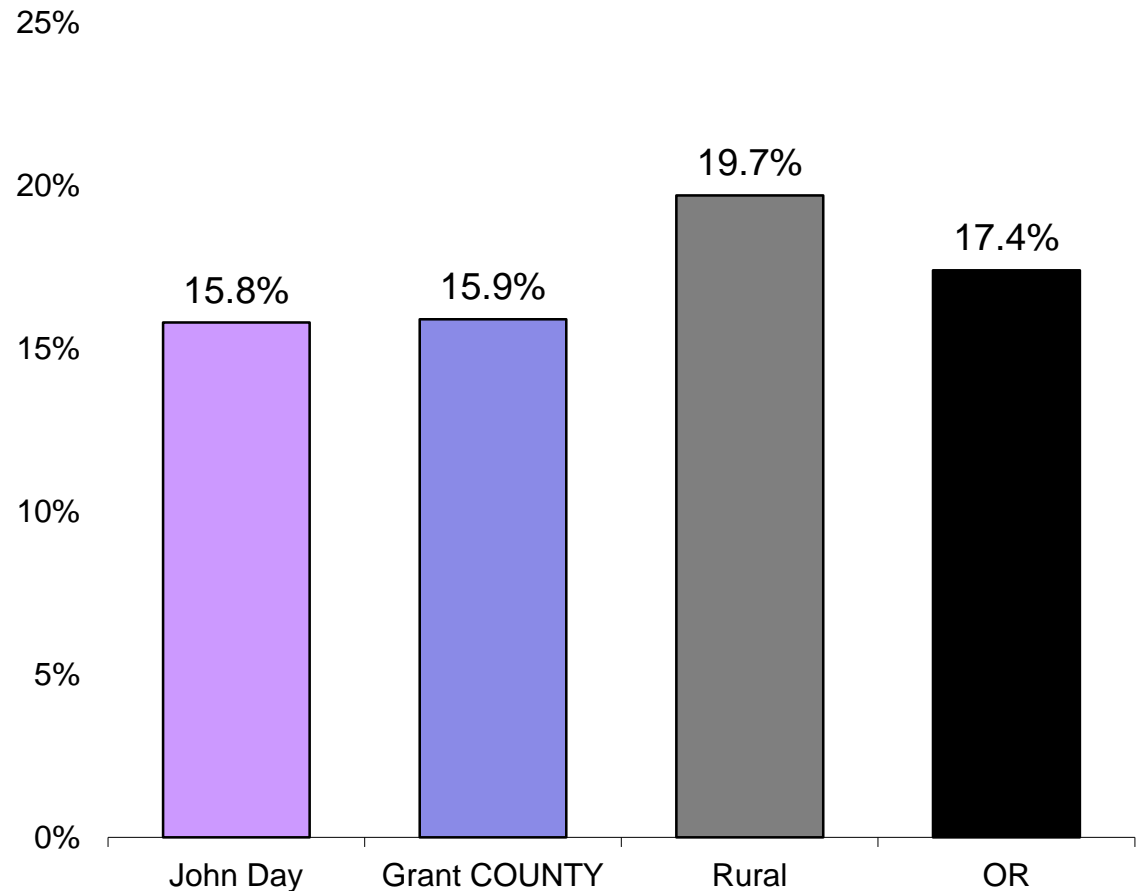

Unemployment Rates (2011-12)

- High unemployment rates reflect a less diversified economic base and vulnerability to economic fluctuations. Beyond the obvious financial burden of unemployment, people without jobs have even greater difficulty accessing health care because of lack of insurance or other means to pay.

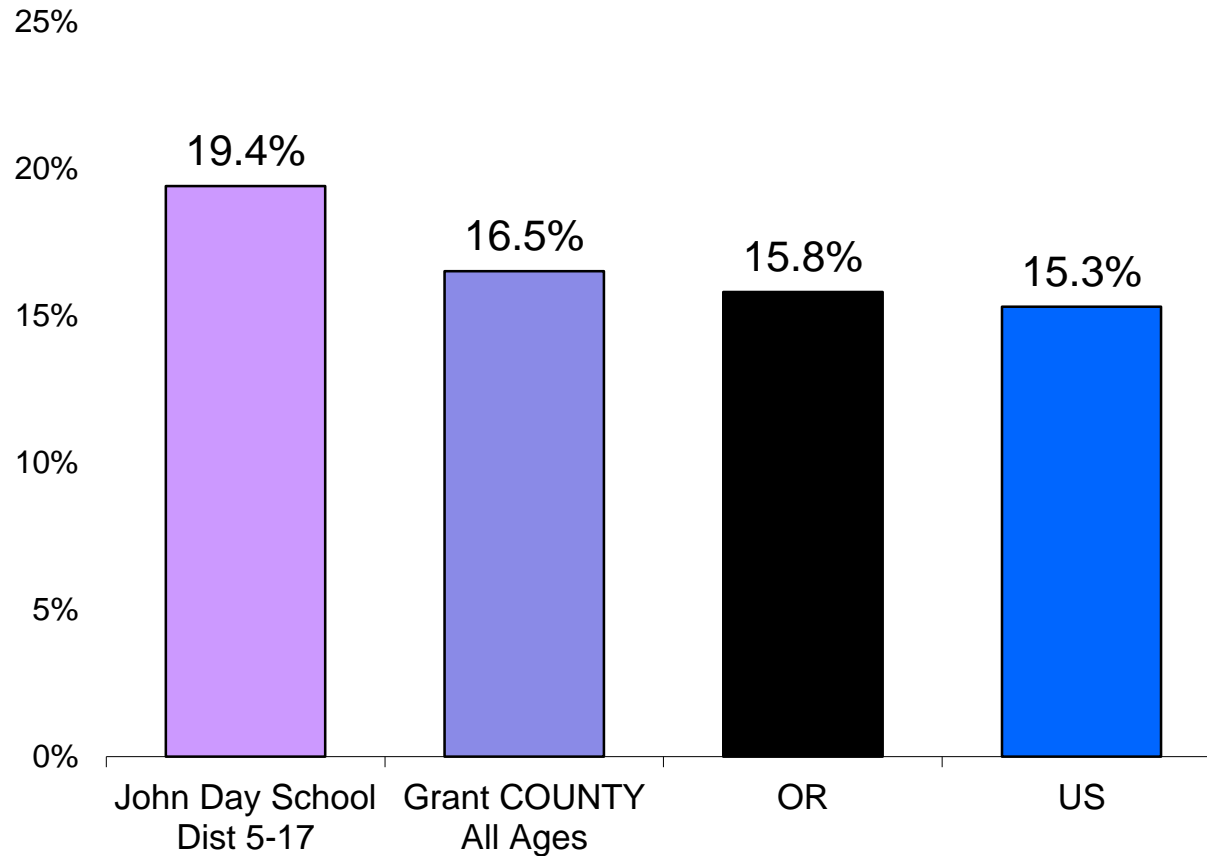

Population 16-64 with a Disability

- People who answered “Yes” to this question had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to work at a job or business.

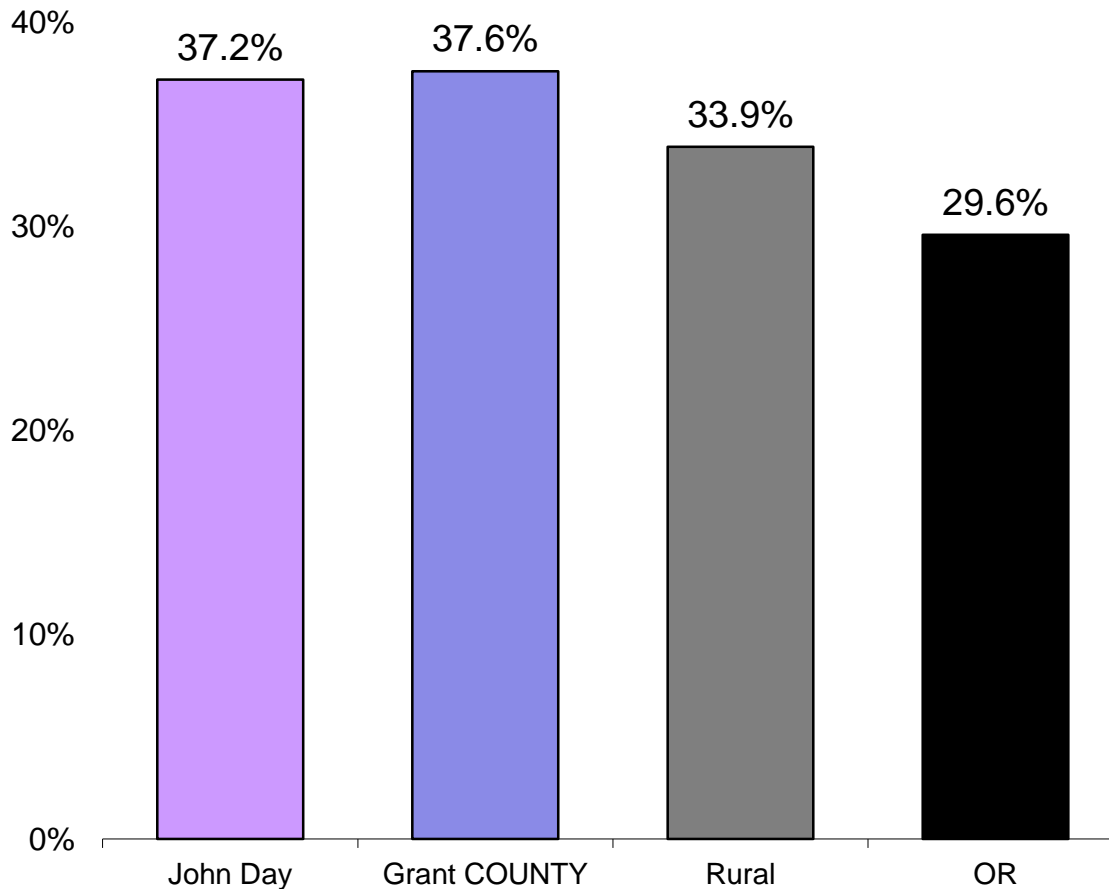

Percent Below Poverty Level 2010

- The poverty threshold in 2012 for a family of 3 with one child is \$19,090 a year.

Percent Below 200% of Poverty Level

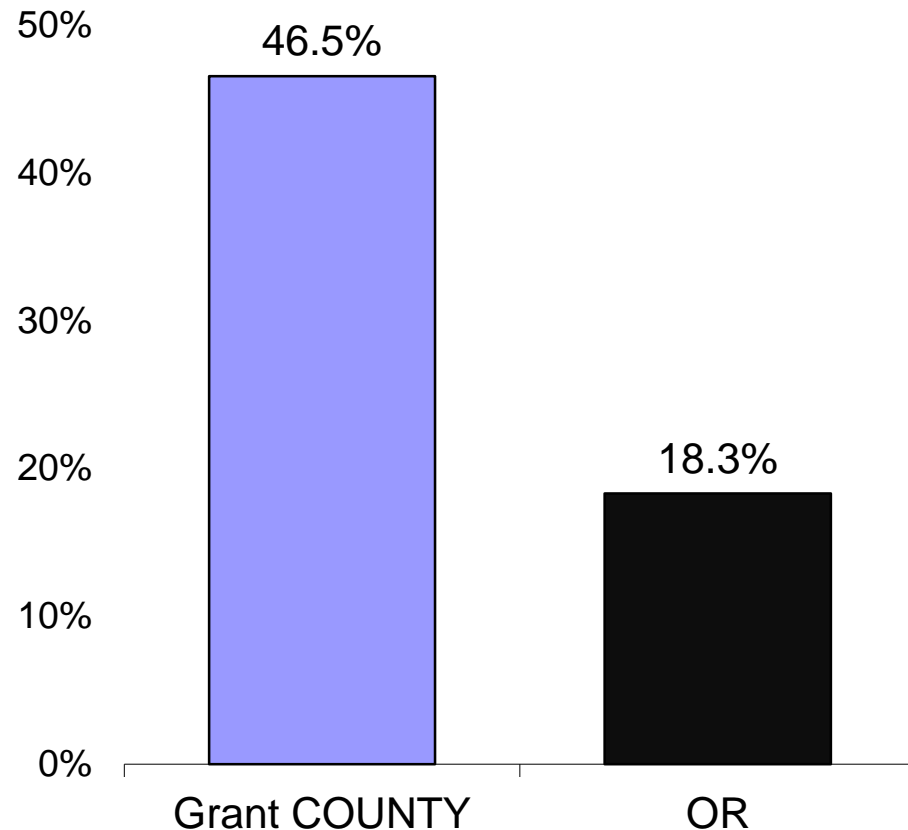

- For 2012, 200% of the poverty threshold for a family of 3 w/one child is \$38,180 a year. These are considered to be the “working poor”.

Government Employment as a Percentage of Total Employment

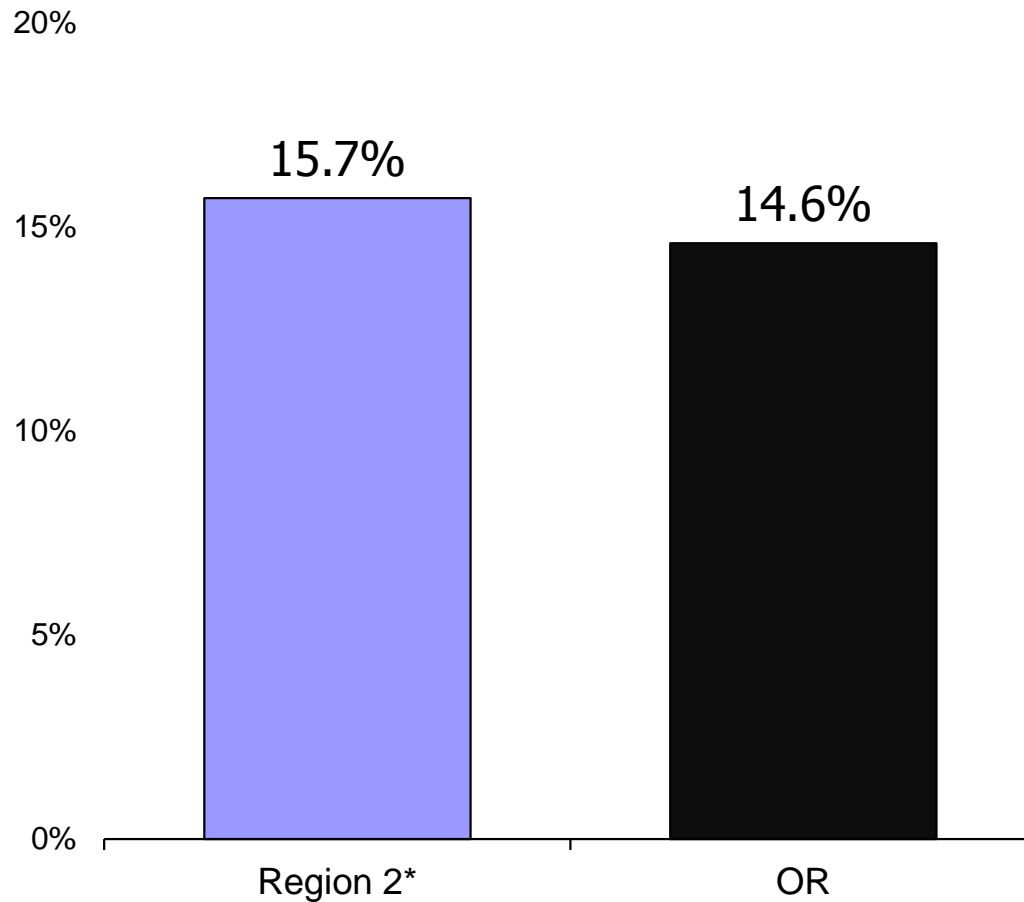

- Because everyone pays for the wages and benefits of government employees through taxes, this data MAY be used to encourage greater use of local health services by local government employees.

2011 Avg

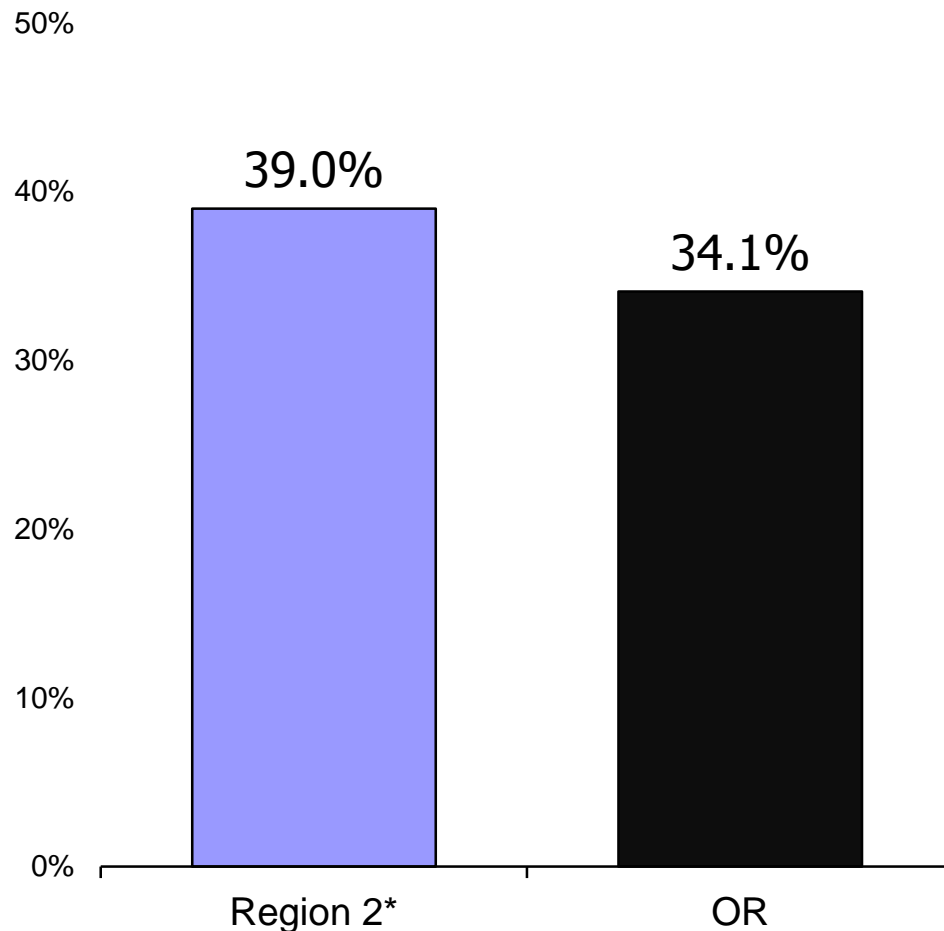

Percent of Individuals without Medical Insurance 2011

*Region 2 includes:
Crook, Gilliam, Grant,
Hood River, Jefferson,
Morrow, Sherman,
Wasco, and Wheeler

Percent of Individuals without Dental Insurance 2011

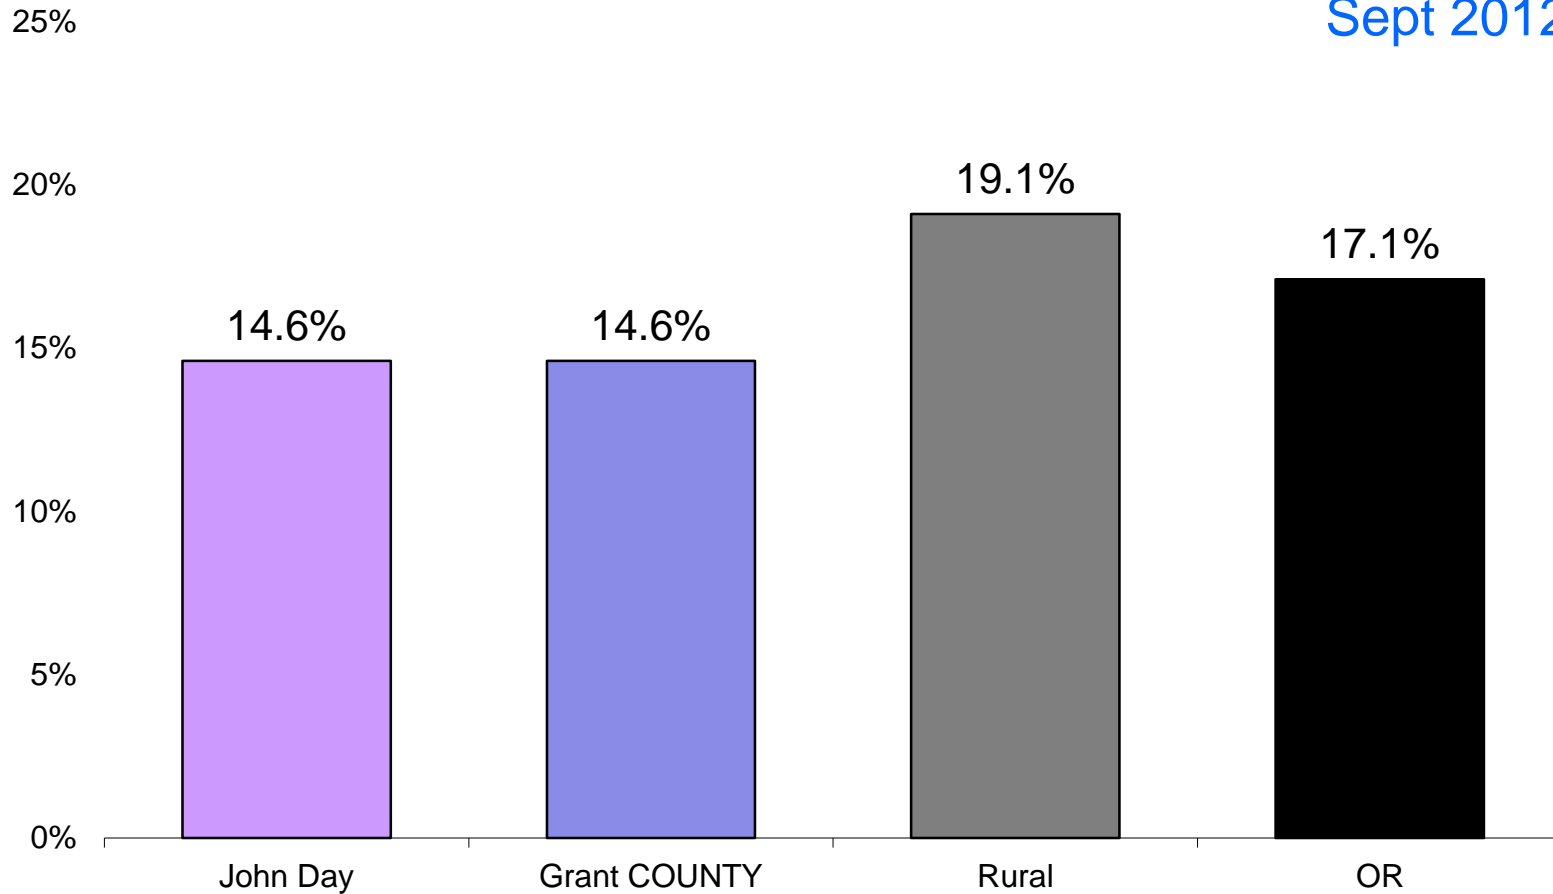

- Dental Caries is the most common chronic childhood disease and primarily affects low-income children

*Region 2 includes:
Crook, Gilliam, Grant,
Hood River, Jefferson,
Morrow, Sherman,
Wasco, and Wheeler

Medicaid Eligible as Percentage of Population

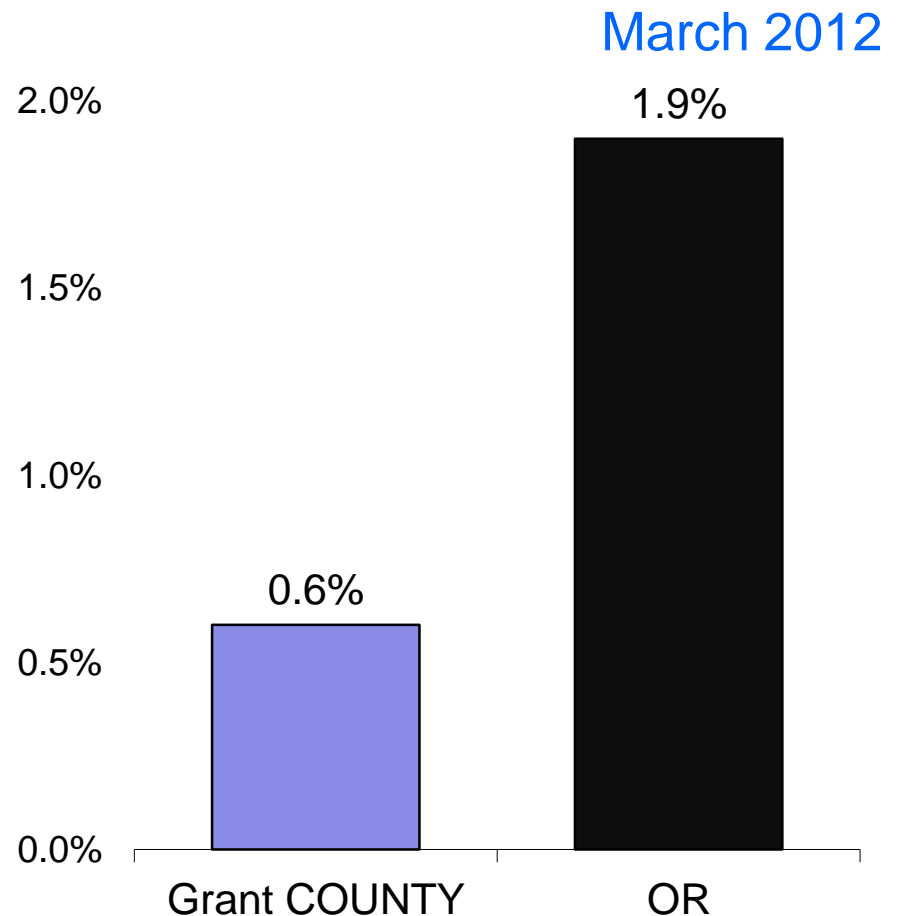

Sept 2012

Temporary Assistance to Needy Families (TANF) Participants as % of Population

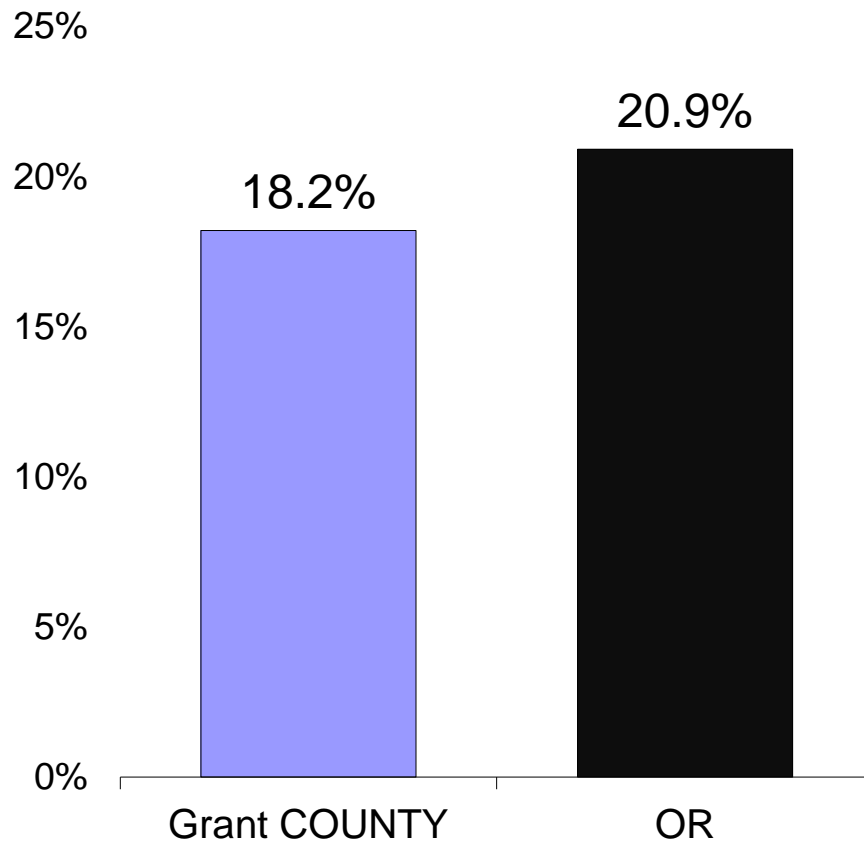

- TANF is the new name for Aid to Families with Dependent Children (AFDC). It is more popularly known as “welfare”.

Food Stamp Participants as a Percentage of Total Population

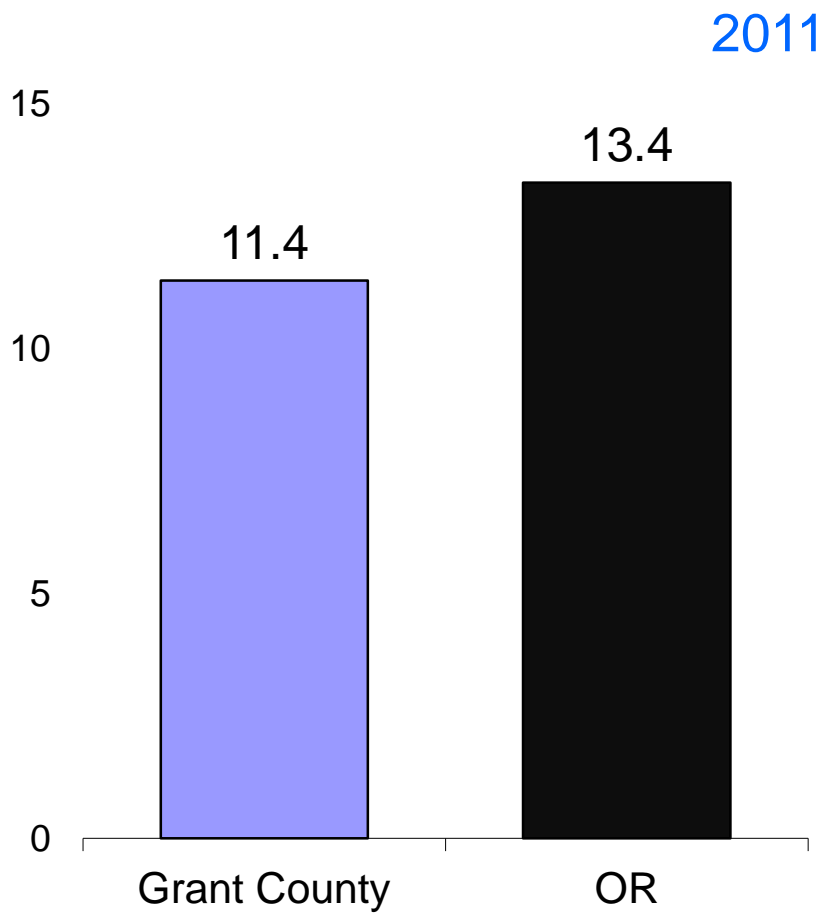

March 2012

- Food Stamp recipients are an indicator of at risk populations

Confirmed Victims of Child Abuse/ Neglect per 1,000 Children (0-17)

- Abused and neglected children are more likely to abuse, more likely to experience a teen pregnancy and are more likely to drop out of school
- Population Under 18: 1398
- Victims: 16
