Annual Spring CME Weekend
The OAFP Sixty-Fifth Scientific Assembly and Congress

Embassy Suites, Downtown Portland
April 12-14, 2012
Greetings. We are excited about this year’s meeting and look forward to seeing you there. As we have successfully done for the past two years, the Oregon Rural Practice-Based Network (ORPRN) and the Oregon Academy of Family Physicians (OAFP) are combining their annual spring meetings. This collaboration brings important and timely clinical and practice enhancement education, along with opportunities for fellowship and fun. This year we are including a track for physicians and their key clinic personnel to make some real progress towards becoming a certified Patient-Centered Primary Care Home. Please join us!

Elizabeth Steiner, MD, President OAFP

L. J. Fagnan, MD, Director ORPRN

ORPRN Convocation

THURSDAY, April 12

THE PATIENT-CENTERED MEDICAL HOME – FACILITATING PRACTICE CHANGE THROUGH ORPRN RESEARCH

11:00 Registration Opens

   2. Basic Office Dermatologic Surgery.
   - Mark Beard, MD
   This workshop explores the difference
   between major depressive disorder and more
   general diabetes distress, experienced by
   a large number of patients with diabetes.
   - Jeff Horacek, MD and Heather Nielsen Clute, MA, Diabetes Coach and Counselor

12:30 Celebration Luncheon
   Installation of Officers and Surprise
   Announcement of the Oregon Family Doctor
   of the Year.

1:45 Small Group Workshops
   1. SAM Study Hall–Depression (3-4 hrs)
      Take and pass both the written and clinical
      portions of this Self Assessment Module.
      Receive an extra 12 hours of prescribed
      CME for this workshop.
      - Josh Reagan, MD
   2. Advanced Outpatient Dermatologic Surgery for Family Physicians (2 hours)
      - Mark Beard, MD
   3. Nexplanon Insertion Training. Minimum
      number of registrants needed; please be sure
      to pre-register for this course and include your
      second choice as well.
      - Robert Gobbo, MD

The very best way to help you become
recognized as a PCPCH practice is to
assess what you are currently doing
and give you the guidance, information,
resources, and tools to become a PCPCH.
If your clinic is in the early stages of this
process – needing more information
on what a PCPCH is and why you
should care – then you should attend
this Learning Collaborative. We will
have people from the Oregon Health
Authority on hand to answer questions
and experts to show you the basics
– how your practice would look as a
PCPCH, how your team would work
differently, and how to make the
necessary changes.

Or, if your practice is further down
the PCPCH road and you are working
towards certification but need help,
ideas, and information regarding
best practices about some of these
requirements, then you should attend
this Learning Collaborative. We will
have faculty who have already been
through the process and know, through
experience, what works and what
doesn’t.

The PCPCH Learning Collaborative
curriculum will be determined by the
results of the self-assessment completed
prior to the meeting. Participants will be
grouped according to their needs.
You can bring up to four people from
your clinic, all for one price. See the
registration form and sign up today!
More details regarding the current state
of Oregon’s PCPCH program can be
found on the opposite side of this page.
OREGON’S PCPCH PROGRAM UPDATE

The State of Oregon has published the Patient-Centered Primary Care Home (PCPCH) Standards. The goal of the PCPCH model is to drive health care away from the old fee-for-service based system toward one that rewards high quality, efficient care that results in better outcomes. The PCPCH Program is working with all of the programs within the Oregon Health Authority (OHA) – Medicaid, public employees PEBB, Oregon educators OEBB – to provide financial support to practices. Currently, only details on how this incentive would work within the Medicaid program are available.

The state is waiting for CMS approval, but this is the proposal:

For your patients who are ACA Qualified Members (patients with more than one chronic condition, or one chronic condition at risk of others, or a serious mental health disorder), the PCPCH will receive:

$10 pmpm* for Tier 1 recognition
$15 pmpm for Tier 2 recognition
$24 pmpm for Tier 3 recognition

For those patients who are Non-ACA Qualified Members, the payments will be:

$2 pmpm for Tier 1 recognition
$4 pmpm for Tier 2 recognition
$6 pmpm for Tier 3 recognition

*Per member, per month

This Year’s Conference Features:

— New York Times best selling author, physician, and Stanford professor to keynote
— Spend your CME dollars wisely - approximately $12/credit hour
— No pharmaceutical company funding
— Hands-on workshops
— A chance for you and your family to explore downtown Portland
